dOvOb Empire Building Micro Blocks Set (3819PCS)

dOvOb Empire Building Micro Blocks Set (3819PCS) Instruction Manual

Model: Empire Building Micro Blocks Set (3819PCS)

INTRODUCTION

This instruction manual provides detailed guidance for assembling and maintaining your dOvOb Empire Building Micro Blocks Set. This set allows you to construct a detailed architectural model of a famous American skyscraper, featuring intricate design and Art Deco style. With 3,819 micro blocks, this project offers an engaging and rewarding building experience.

SAFETY INFORMATION

WARNING: This product contains small parts and is not suitable for children under 3 years old due to choking hazards. Adult supervision is recommended during assembly, especially for younger builders.

WHAT'S IN THE BOX

Upon opening the package, please ensure all components are present. Your dOvOb Empire Building Micro Blocks Set includes:

- 3,819 Micro Building Blocks (various shapes and colors)
- Detailed Instruction Manual (physical copy)

Please refer to the included physical instruction manual for a complete list of parts and their quantities.

SETUP AND ASSEMBLY

Assembling the dOvOb Empire Building Micro Blocks Set is a multi-step process that requires patience and attention to detail. Follow the numbered steps in the included physical instruction manual carefully.

1. **Preparation:** Unpack all micro blocks and organize them by color or type if desired. This can help streamline the building process.
2. **Review Instructions:** Before starting, thoroughly review the entire instruction manual to understand the overall construction sequence.
3. **Step-by-Step Construction:** Follow the diagrams and instructions provided in the manual for each section of the building. Pay close attention to the placement and orientation of each micro block.
4. **Foundation First:** Begin with the base structure, ensuring it is stable and correctly aligned, as this forms the foundation for the entire model.
5. **Layering:** The building is constructed in layers. Ensure each layer is securely connected before proceeding to the next.
6. **Transparent Parts:** The set includes transparent parts to simulate glass effects. Handle these carefully to avoid scratches.

DISPLAYING THE MODEL

Once assembled, your dOvOb Empire Building model is designed to be an impressive display piece. Choose a stable, flat surface away from direct sunlight and excessive heat to prevent potential warping or discoloration of the plastic blocks.

MAINTENANCE

To ensure the longevity and appearance of your dOvOb Empire Building model, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft-bristled brush. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture. Do not use harsh chemicals or abrasive cleaners.
- **Handling:** Handle the model carefully, especially when moving it, to prevent pieces from detaching.
- **Storage:** If disassembling or storing the model, keep all pieces in a secure container to prevent loss.

TROUBLESHOOTING

Encountering issues during assembly is common with intricate building sets. Here are some tips for common problems:

- **Missing Pieces:** Carefully re-check all packaging and sorting areas. If a piece is genuinely missing, please contact customer support with details of the missing part (refer to the parts list in your physical manual).
- **Pieces Not Lining Up:**
 - Double-check the previous steps in the instruction manual. A misplaced block earlier in the build can affect subsequent connections.
 - Ensure blocks are fully pressed together. Micro blocks require firm, but gentle, pressure to connect properly.
 - Verify the correct block type and orientation. Some blocks may appear similar but have subtle differences.
- **Difficulty with Small Pieces:** Micro blocks are small and require fine motor skills. Take breaks if needed, and consider using tweezers for very small or hard-to-reach parts.

- **Pieces Falling into the Base:** Some designs may have internal cavities. If pieces fall into inaccessible areas, carefully try to retrieve them using tweezers or by gently shaking the model. Consider covering large internal openings during construction to prevent this.

SPECIFICATIONS

Feature	Detail
Product Dimensions	9 x 6 x 20 inches
Item Weight	2.42 pounds
Number of Pieces	3,819
Manufacturer Recommended Age	8 years and up
Material	Plastic
Model Number (ASIN)	B0DJLMBHCM
Manufacturer	dOvOb
