KAWADA nanoblock Dragon Ball Super Super Saiyan God Super Saiyan Vegito Building Block Set NBDB_018 Instruction Manual

1. Introduction

This manual provides comprehensive instructions for the assembly and care of your KAWADA nanoblock Dragon Ball Super Super Saiyan God Super Saiyan Vegito Building Block Set, model NBDB_018. This set allows you to construct a detailed miniature model of Vegito, the powerful fusion of Goku and Vegeta from the popular anime series *Dragon Ball Super*, in his Super Saiyan God Super Saiyan form. The model captures Vegito performing his signature 'Spirit Sword' technique.

The nanoblock system utilizes micro-sized building blocks, offering a challenging yet rewarding building experience. This set contains 170 pieces and is recommended for ages 12 and above, with a difficulty level of 3 out of 5.

2. Package Contents

Before beginning assembly, please verify that all components are present in your package:

- nanoblock pieces (170 total)
- Instruction sheet
- Product packaging (as shown below)

3. Assembly Instructions

Follow the step-by-step diagrams provided on the included instruction sheet. Due to the small size of nanoblocks, careful attention to detail is crucial for successful assembly.

1. **Preparation:** Clear a well-lit, flat workspace. Sort the nanoblock pieces by color and shape to facilitate easier identification during assembly.
2. **Starting Assembly:** Begin by identifying the base pieces as indicated in the instruction sheet. These form the foundation of your model.
3. **Layer by Layer Construction:** Nanoblock models are typically built layer by layer. Carefully place each block according to the diagrams, ensuring a secure fit. Use tweezers (not included) for precise placement of smaller pieces if needed.
4. **Attaching Features:** As you progress, attach specific features such as Vegito's hair, clothing details, and the 'Spirit Sword' as shown in the instructions.
5. **Final Touches:** Once all pieces are assembled, gently press down on the entire model to ensure all connections are firm.

5. Maintenance and Care

To ensure the longevity and appearance of your nanoblock model, follow these care guidelines:

- **Cleaning:** Use a soft, dry brush or a can of compressed air to remove dust from the model. Avoid using water or chemical cleaners, as these may damage the blocks or cause discoloration.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss. Store in a cool, dry place away from direct sunlight to prevent material degradation or color fading.
- **Handling:** Handle the assembled model gently to avoid accidental disassembly.

6. Troubleshooting

If you encounter any issues during assembly or with your finished model, consider the following:

- **Missing Pieces:** Double-check your workspace and packaging. If pieces are genuinely missing, contact KAWADA customer support.
- **Blocks Not Connecting Securely:** Ensure you are using the correct blocks for each step. Sometimes, a slight misalignment can prevent a secure connection. Apply gentle, even pressure.

- **Difficulty Following Instructions:** Review the diagrams carefully. Nanoblock instructions are visual; ensure you are matching the block types and orientations precisely.
