2. Safety Information

WARNING: CHOKING HAZARD - This product contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended during assembly, especially for younger users.

- Keep all packaging materials away from children to prevent suffocation.
- Do not put nanoblock pieces in your mouth.
- Dispose of any broken or damaged pieces safely.

3. Package Contents

Verify that all components are present before beginning assembly:

- nanoblock pieces for Sanrio - Kuromi (Ninja) Character Collection Series (approximately 160 pieces).
- Detailed instruction sheet with diagrams.

If any parts are missing or damaged, please refer to the "Warranty and Support" section for assistance.

4. Assembly Instructions

The Kuromi (Ninja) kit has a difficulty level of 2, indicating a moderate challenge suitable for ages 8 and up. Follow the included step-by-step diagrams carefully.

General Assembly Tips:

1. **Organize Pieces:** Before starting, sort the nanoblock pieces by color and size. This will simplify the building process.
2. **Follow Diagrams:** Each step in the instruction sheet provides a visual guide. Pay close attention to the orientation and placement of each block.
3. **Use a Flat Surface:** Assemble the model on a clean, flat, and stable surface to prevent pieces from scattering or the model from collapsing during construction.
4. **Gentle Pressure:** nanoblocks fit snugly. Apply gentle, even pressure to connect pieces. Avoid excessive force, which can damage the blocks.

5. **Check Connections:** Ensure each block is fully seated and securely connected to the adjacent blocks. Loose connections can lead to instability.

5. Care and Maintenance

To ensure the longevity and appearance of your nanoblock Kuromi (Ninja) model:

- **Cleaning:** Use a soft, dry cloth or a small, soft brush to gently remove dust. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** Store the assembled model in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the model with care to avoid accidental disassembly, especially when moving or displaying it.

6. Troubleshooting

If you encounter issues during assembly or with your nanoblock kit:

- **Missing Pieces:** Double-check the packaging and your work area. Due to their small size, pieces can be easily overlooked. If a piece is genuinely missing, contact customer support.
- **Difficulty Connecting Blocks:** Ensure the blocks are correctly aligned. If a block does not fit, verify it is the correct piece for that step according to the instructions.
- **Model Instability:** Review previous steps to confirm all connections are secure and blocks are placed in the correct orientation.
