NANOBLOCK SANRIO HANGYODON (SAMURAI) BUILDING KIT

Model: NAN22910

1. Product Overview

The nanoblock Sanrio Hangyodon (Samurai) Character Collection Series Building Kit allows you to construct a detailed miniature model of Hangyodon in Samurai attire. This kit consists of 190 micro-sized building blocks, designed for precision assembly. The completed model stands approximately 2.20 inches (5.59 cm) tall. It is part of the Character Collection Series and is an officially licensed KAWADA product.

2. Safety Information

- **WARNING: CHOKING HAZARD** - This product contains small parts and is not suitable for children under 3 years of age.
- Adult supervision is recommended during assembly, especially for younger users.
- Keep all small parts away from infants and pets to prevent accidental ingestion.

3. Package Contents

Verify that all components are present before beginning assembly:

- nanoblock Sanrio Hangyodon (Samurai) Character Collection Series building blocks (190 pieces)
- Detailed instruction sheet/diagrams

4. Setup: Assembly Instructions

The nanoblock building experience requires precision due to the micro-sized blocks. This kit has a difficulty level of 2, indicating a moderate challenge suitable for ages 8 and up.

1. **Unpack and Organize:** Carefully open the package and sort the blocks by color and shape. This will simplify the assembly process.
2. **Review Instructions:** Familiarize yourself with the included instruction diagrams. These diagrams illustrate the step-by-step placement of each block.
3. **Start Building:** Begin assembly from the base of the model, following the numerical sequence provided in the instructions. Ensure each block is firmly connected to the previous one.
4. **Use Tools (Optional):** For very small or difficult-to-place blocks, a pair of fine-tipped tweezers (not included) may assist in precise placement.

5. Operating (Building Process)

The primary operation of this kit is the assembly of the model. Patience and attention to detail are key. Each nanoblock is designed to interlock securely. If a block does not fit easily, double-check the instruction diagram to ensure correct placement and orientation. Avoid forcing blocks, as this may damage them.

6. Care and Maintenance

- **Cleaning:** To clean the assembled model, gently wipe it with a dry, soft cloth. For more stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the assembled model or unbuilt blocks in a clean, dry place away from direct sunlight and extreme temperatures to prevent discoloration or warping. Keep loose blocks in a sealed container to prevent loss.

7. Troubleshooting

- **Missing Pieces:** If you believe a piece is missing, carefully re-check the packaging and your work area. Due to the small size, pieces can be easily overlooked. If a piece is genuinely missing, contact KAWADA customer support.
- **Difficulty Connecting Blocks:** Ensure blocks are correctly aligned. nanoblocks require a firm but gentle push to connect. If a connection feels too loose or too tight, verify the block type and position against the instructions.
- **Model Instability:** If the model feels unstable during or after assembly, review previous steps to ensure all blocks are securely interlocked and correctly placed according to the diagrams.
