Qaba 370-344V80WT

Qaba Mercedes-Benz AMG GTR 12V Kids Ride-on Car

Model: 370-344V80WT | Brand: Qaba

Important Safety Information

Please read this entire manual before assembly and use of the Qaba Mercedes-Benz AMG GTR 12V Kids Ride-on Car. Failure to follow these safety instructions could result in serious injury or death.

- **Adult Supervision Required:** Always supervise children when operating this vehicle.
- **Age Range:** Suitable for children aged 3 to 6 years.
- **Weight Limit:** Do not exceed the maximum weight capacity of 55 lbs (25 kg).
- **Protective Gear:** Always ensure the child wears a helmet and appropriate safety gear.
- **Safe Operating Areas:** Use only on flat, dry surfaces away from traffic, swimming pools, or steep inclines.
- **Battery Safety:** Only use the provided charger and battery. Do not modify the electrical system.
- **Remote Control:** Parents can use the remote control for added safety and to override child operation.

Package Contents

Ensure all components are present before beginning assembly.

- Qaba Mercedes-Benz AMG GTR Ride-on Car (main body)
- Remote Control
- Charger
- 12V Battery (pre-installed or separate)
- Wheels and Axles
- Steering Wheel
- Seat
- Assembly Hardware (screws, washers, etc.)
- Instruction Manual

Assembly Instructions

Assembly typically takes approximately 30 minutes. Follow these general steps. Refer to the detailed diagrams in the printed manual for specific part identification and placement.

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the package contents list.
2. **Install Wheels:** Attach the wheels to the axles, ensuring all washers and locking pins are securely in place.
3. **Connect Battery:** Connect the battery terminals. Ensure proper polarity.
4. **Install Steering Wheel:** Secure the steering wheel to the steering column.
5. **Attach Seat:** Fasten the seat to the vehicle body using the provided screws.
6. **Final Checks:** Before first use, ensure all connections are secure and all screws are tightened.

Product Features

The Qaba Mercedes-Benz AMG GTR ride-on car is designed with several features for an engaging and safe experience.

- **Licensed Mercedes-Benz Design:** An authentic 12V Mercedes-Benz AMG GTR replica.
- **Slow Start Function:** Ensures a smooth and gradual acceleration for comfort and safety.
- **Auxiliary Wheels for Stability:** Two auxiliary wheels provide stability and allow for easier manual movement when the power is off.
- **Interactive Features:** Equipped with functional headlights, tail lights, a horn, and pre-installed music for an immersive play experience.
- **Two Control Modes:**

- **Parental Remote Control:** Allows parents to control the car for younger children or for added safety.
- **Child Manual Operation:** Children can drive independently using the steering wheel and foot pedal.

- **Adjustable Speed:** The car operates at speeds ranging from 1.9 to 3.1 mph (3 to 5 km/h), suitable for various skill levels.
- **Extended Playtime:** Offers up to 50 minutes of continuous run time on suitable surfaces.

Operating Instructions

Starting the Vehicle

1. Ensure the battery is fully charged and properly connected.
2. Press the power button located on the dashboard.
3. The vehicle will perform a slow start, gradually increasing speed.

Driving Modes

The vehicle offers two modes of operation:

- **Child Manual Drive:** The child uses the steering wheel to steer and the foot pedal to accelerate. A gear shift (if present) controls forward/reverse.
- **Parental Remote Control:** The remote control can override child input. Use the remote to steer, accelerate, and

reverse the vehicle. This mode is recommended for younger children or when navigating complex areas.

Lights, Music, and Horn

- **Headlights/Tail Lights:** These typically activate when the car is powered on or can be toggled via a switch on the dashboard.
- **Music:** Press the music buttons on the dashboard or steering wheel to play pre-installed tunes.
- **Horn:** Press the horn button on the steering wheel to activate the horn sound.

Charging the Battery

The vehicle is powered by a 12V rechargeable battery. Proper charging is essential for battery longevity and safe operation.

- **First Use:** Charge the battery for 8-12 hours before the first use. Do not overcharge for more than 18 hours.
- **Regular Charging:** After each use, recharge the battery for 8-12 hours.
- **Charger Connection:** Locate the charging port on the vehicle (refer to the manual diagram). Plug the charger

into the port, then into a standard wall outlet.

- **Indicator Light:** The charger typically has an indicator light that changes color when charging is complete.
- **Storage:** If storing the vehicle for an extended period, charge the battery fully every 3 months to maintain its health.

Maintenance

Regular maintenance helps ensure the longevity and safe operation of your ride-on car.

- **Cleaning:** Wipe the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Lubrication:** Periodically check and lubricate moving parts like axles and steering components if necessary.
- **Electrical System:** Regularly inspect the battery, charger, and all electrical connections for damage. Replace any damaged parts immediately.
- **Tires:** Check tires for wear and tear. Ensure they are free from debris.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture.

Troubleshooting

If you encounter issues, refer to this section before contacting customer support.

Problem	Possible Cause	Solution
Vehicle does not move	Battery not charged Loose battery connection Overload protection activated	Charge battery fully Check and secure battery terminals Reduce load, wait for reset
Vehicle moves slowly	Low battery charge Overloaded vehicle Operating on rough surface	Recharge battery Reduce weight Move to a smoother surface
Remote control not working	Remote batteries low/dead Not paired correctly	Replace remote batteries Refer to pairing instructions in manual
Lights/Music not working	Loose wiring Component malfunction	Check connections Contact customer support

Specifications

Feature	Detail
Product Dimensions	42.5 x 26.4 x 18.1 inches (108 x 67 x 46 cm)
Item Weight	27.6 pounds (12.5 kg)
Item Model Number	370-344V80WT
Manufacturer Recommended Age	36 months - 6 years

Feature	Detail
Battery	1 x 12V rechargeable battery (included)
Speed Range	1.9 - 3.1 mph (3 - 5 km/h)
Run Time	Up to 50 minutes (depending on surface and usage)
Manufacturer	Aosom LLC
Release Date	November 15, 2024
