3. SETUP

3.1 Initial Charge

Before the first use, ensure the robotic pool cleaner's battery is fully charged. The battery is designed for easy replacement.

Your browser does not support the video tag.

Video 1: Demonstrates initial setup and charging of the robotic pool cleaner. The video shows a user connecting the charger to the cleaner's battery port and the cleaner being placed into the pool.

To charge the battery, connect the charging cable to the cleaner's charging port. The LED indicator will show green when fully charged. Always charge the battery before its first use and after every cleaning cycle to maintain optimal performance.

4. OPERATING INSTRUCTIONS

4.1 Cleaning Modes

The Seauto Robotic Pool Cleaner offers multiple cleaning modes for different needs. Without the app, it defaults to auto mode. With the app, you can access advanced cleaning modes.
