Acer SL-200-3C2A

Acer Universal Travel Plug Adapter (SL-200-3C2A)

Brand: Acer | **Model:** SL-200-3C2A

1. Introduction

The Acer Universal Travel Plug Adapter (Model SL-200-3C2A) is designed to provide comprehensive power connectivity and charging solutions for travelers across various regions worldwide. This compact device integrates multiple international plug types and five USB charging ports (three USB-C and two USB-A) into a single unit, simplifying your travel essentials and ensuring your electronic devices remain powered.

The Acer Universal Travel Plug Adapter, featuring a compact white design with retractable international plugs and multiple USB charging ports.

2. Product Features

- **6-in-1 Power Solution:** This adapter includes one universal AC outlet and five USB ports (three USB-C and two USB-A), allowing simultaneous charging of up to six electronic devices.
- **Versatile USB Charging:** The three USB-C ports deliver up to 3.0A/15W each, while the two USB-A ports provide up to 2.4A/12W each. The maximum combined output for all USB ports is 5.6A/28W, suitable for laptops, smartphones, tablets, cameras, and earbuds.
- **Worldwide Compatibility:** Covers over 150 countries with support for various plug types, including:
  - **Type C:** France, Germany, Italy, Spain, Iceland, Greece, Israel, and more.
  - **Type G:** UK, Ireland, London, England, Scotland, Dubai, and more.
  - **Type I:** China, Australia, New Zealand, and more.
  - **Type A:** USA, Japan, Canada, and more.
- **Compact and Travel-Friendly:** Measuring approximately 2.0 × 2.2 × 3.0 inches, its small size allows it to fit easily into luggage or backpacks.
- **Cruise Ship Approved:** Designed without surge protection or cords, making it suitable for use on cruise ships.

Two Acer Universal Travel Plug Adapters, illustrating their versatility with different plug configurations and the ability to charge up to six devices concurrently.

The international power adapter positioned over a map of Europe, emphasizing its broad compatibility across numerous European countries and the UK.

3. Setup and Usage

1. **Selecting the Correct Plug:** Identify the required plug type for your destination (e.g., EU, UK, US, AU). Slide the corresponding button on the side of the adapter to extend the correct prongs. Ensure the prongs are fully extended and locked into place before use.
2. **Retracting Plugs:** To retract a plug, press and hold the orange release button, then push the extended prongs back into the adapter until they are fully recessed.

3. **Using the Universal AC Outlet:** Insert your device's power plug into the universal AC outlet on the front of the adapter. This outlet is compatible with plugs from various regions (USA, EU, UK, AU).
4. **Using the USB Ports:** Connect your USB-powered devices (smartphones, tablets, etc.) to the available USB-C or USB-A ports on the side of the adapter. The adapter will automatically detect and deliver appropriate power.

The adapter connected to a UK power outlet, demonstrating simultaneous charging of a smartphone and tablet using its USB-C and USB-A ports.

4. Important Safety Information

CAUTION: THIS ADAPTER IS NOT A VOLTAGE CONVERTER.

This universal travel plug adapter only converts the plug type; it does not convert electrical voltage. It is essential to ensure that your electronic devices are dual-voltage compatible (typically indicated as 100V-250V, 50/60Hz) before plugging them into this adapter in a foreign country. Using single-voltage devices (e.g., hair dryers, curling irons, straighteners, or other heating devices designed only for 120V/60Hz) with this adapter in a higher voltage country can cause severe damage to your device and potentially create a fire hazard.

Always check the voltage requirements of your appliances before use.

5. Specifications

Feature	Detail
Model Number	SL-200-3C2A
Product Dimensions	0.1 x 0.1 x 0.1 inches (approx. 2.0 x 2.2 x 3.0 inches as per feature bullets)

Item Weight	2.88 ounces (0.18 Pounds)
Input Voltage	100-250 Volts
USB-C Output	3.0A/15W (per port)
USB-A Output	2.4A/12W (per port)
Total USB Output	5.6A/28W Max
Manufacturer	Acer Gadget Inc.

6. Troubleshooting

If the Acer Universal Travel Plug Adapter is not functioning as expected, consider the following:

- **No Power Output:** Ensure the adapter is firmly plugged into a live wall outlet. Verify that the correct regional plug type is fully extended and locked into position.
- **Device Not Charging:** Check that your device's charging cable is securely connected to both the adapter's USB port or AC outlet and your device. Try a different USB port or cable to rule out a faulty connection.
- **Overload Protection:** The adapter may have built-in overload protection. If too many high-power devices are connected, it might temporarily stop functioning. Disconnect some devices and try again.
- **Voltage Compatibility:** Reconfirm that your device is dual-voltage compatible (100V-250V) if you are in a country with a different voltage than your device's native region. This adapter does not convert voltage.

If issues persist after checking these points, please refer to the support section.

7. Maintenance

To ensure the longevity and optimal performance of your Acer Universal Travel Plug Adapter:

- Keep the adapter clean and dry. Avoid exposure to moisture or extreme temperatures.
- Do not attempt to disassemble or modify the adapter. This can void the warranty and pose safety risks.
- Store the adapter in a cool, dry place when not in use, with all plugs retracted to prevent damage.
- Handle with care; avoid dropping or subjecting the adapter to strong impacts.

8. Warranty and Support

For detailed warranty information, product registration, or technical assistance, please visit the official Acer website or contact Acer customer service directly. Please retain your purchase receipt as proof of purchase for any warranty claims.
