JINJUNYE Nugget Ice Maker Countertop User Manual

Model: KF440038-02

Brand: JINJUNYE

1. PRODUCT OVERVIEW

The JINJUNYE Upgraded Nugget Ice Maker is a countertop appliance designed to produce soft, chewable nugget ice. This machine is ideal for home and kitchen use, offering efficient ice production and convenient features.

Key Features:

- **Chewable Nugget Ice:** Produces soft, chewable pellet ice, offering a different texture compared to traditional cube or bullet ice.
- **Efficient Ice Making:** Capable of producing up to 38 pounds of ice per day, with a 1.5L water tank and 2.3 LB ice basket capacity. The first batch of ice may take slightly longer.
- **Self-Cleaning Function:** Features an automatic self-cleaning cycle activated by a dedicated "clean" button, ensuring fresh ice in a clean environment.
- **Easy Operation:** Simple to use with an ON/OFF button. Intelligent infrared sensor technology indicates when to add water or when the ice basket is full.
- **Portable & Compact Design:** With dimensions of 8.66"W x 11.6"D x 13"H, it is designed for portability and fits well on countertops. Constructed from food-grade materials and stainless steel for durability and easy cleaning. Operates quietly.

2. SETUP AND INSTALLATION

Before first use, please read all instructions carefully. Ensure the ice maker is placed on a stable, level surface away from direct sunlight and heat sources.

Initial Setup Steps:

1. **Unpack the Ice Maker:** Carefully remove the ice maker and all accessories from its packaging. Retain packaging for future storage or transport.
2. **Clean Before First Use:** It is recommended to clean the interior of the ice maker before its first use. Refer to the "Maintenance and Cleaning" section for detailed instructions.
3. **Positioning:** Place the ice maker on a flat, stable surface. Ensure there is adequate ventilation around the unit (at least 4 inches of space on all sides).
4. **Secure Drain Plug:** Ensure the bottom drain plug is firmly in place to prevent any water leakage.

5. **Add Water:** Open the water reservoir lid and fill with clean, potable water up to the MAX fill line. Do not overfill.
6. **Connect Power:** Plug the power cord into a grounded electrical outlet.

Figure 2: Visual guide for initial setup, including securing the drain plug and adding water.

3. OPERATING INSTRUCTIONS

The JINJUNYE Nugget Ice Maker is designed for simple and intuitive operation.

Making Ice:

1. **Power On:** Press the **ON/OFF** button to start the ice making process. The "Making" indicator light will illuminate.
2. **Ice Production:** The machine will begin producing nugget ice. The first batch typically takes longer (10-13 minutes for 250ml cup, 15-20 minutes for 350ml cup). Subsequent batches will be faster.

3. **Ice Full Indicator:** When the ice basket is full, the "Full" indicator light will illuminate, and the machine will automatically stop ice production. Remove ice to resume operation.
4. **Add Water Indicator:** If the water level in the reservoir is too low, the "Add Water" indicator light will illuminate, and the machine will pause operation. Refill the water reservoir to continue.
5. **Power Off:** Press the **ON/OFF** button again to turn off the ice maker.

4. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure optimal performance and longevity of your ice maker.

Self-Cleaning Function:

1. Ensure there is water in the reservoir.
2. Press the **"Clean"** button. The machine will automatically perform a 5-minute cleaning cycle.
3. After the cycle, remove the bottom drain plug and drain the water.

Figure 5: Steps for utilizing the self-cleaning function.

Manual Cleaning:

- Unplug the ice maker before cleaning.
- Remove the ice basket and clean it with mild detergent and warm water. Rinse thoroughly.
- Wipe the interior and exterior surfaces of the ice maker with a soft cloth dampened with mild detergent. Do not use abrasive cleaners or solvents.
- For descaling (especially in hard water areas), use a descaling solution suitable for ice makers or a mixture of water and vinegar. Refer to the descaling product's instructions.
- Ensure all parts are completely dry before reassembling and storing or using the machine.

Figure 6: Hard water can affect ice maker performance and may require more frequent descaling.

5. TROUBLESHOOTING

If you encounter issues with your ice maker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; power not connected; ambient temperature too high.	Fill water reservoir; ensure power cord is securely plugged in; operate in a cooler environment.
"Add Water" indicator light is on.	Water level is low.	Add water to the reservoir up to the MAX fill line.
"Full" indicator light is on.	Ice basket is full.	Remove ice from the basket.
Ice tastes strange or has an odor.	Machine needs cleaning; water quality is poor.	Perform a self-cleaning cycle or manual clean; use filtered or distilled water.
Machine is noisy.	Normal operation sounds; unit not level.	Ensure the unit is on a stable, level surface. Some operational noise is normal.

6. SPECIFICATIONS

Feature	Detail
Model Number	KF440038-02

Feature	Detail
Product Dimensions	11.61"D x 8.66"W x 13"H
Weight	19.2 Pounds
Ice Production Capacity	Up to 38 LBS/Day
Water Tank Capacity	1.5 Liters
Ice Basket Capacity	2.3 LBS
Power Supply	110V-120V~ 60Hz
Wattage	110 watts
Refrigerant	R600a/16g
Housing Material	Stainless Steel
