JOYDEEM JD-PB270

Joydeem JD-PB270 Automatic Soymilk Maker Machine Instruction Manual

Model: JD-PB270 | Brand: JOYDEEM

INTRODUCTION

The Joydeem JD-PB270 Automatic Soymilk Maker Machine is a versatile kitchen appliance designed for preparing a variety of hot and cold beverages and foods. This hot cooking blender offers 7 preset options, including soy milk, nut milk, multigrain, rice paste, corn juice, baby food, and fruit & vegetable juice. It features an adjustable capacity from 300ml to 600ml and an automatic cleaning function for convenience. Please read this manual thoroughly before initial use to ensure safe and optimal operation.

SAFETY INSTRUCTIONS

- Always ensure the lid is securely closed before operating the machine.
- Do not immerse the main unit in water or any other liquid.
- Exercise caution when handling hot liquids and steam. The glass container can become very hot during operation.
- Ensure the wastewater cup is correctly placed to prevent spills during automatic cleaning.
- Unplug the machine from the power outlet when not in use or before cleaning.
- Keep hands and utensils away from moving blades during operation.
- Do not operate the machine if any part is damaged. Contact customer support for assistance.

PRODUCT OVERVIEW AND COMPONENTS

The Joydeem JD-PB270 comes with several components designed for ease of use and maintenance.

Packing List

Image: Joydeem JD-PB270 Packing List. This image displays all components included in the package, such as the main blender unit, drinking cup, wastewater cup, measuring cup, cleaning brush, and instruction manual.

- **Main Blender Unit:** The core of the machine, housing the motor, heating element, and control panel.
- **Drinking Cup:** Used to collect the prepared beverages.
- **Wastewater Cup:** Collects water during the automatic cleaning cycle. Ensure it is correctly positioned.
- **Measuring Cup:** For precise measurement of ingredients.
- **Cleaning Brush:** Aids in manual cleaning of components.
- **Instruction Manual/Recipe Book:** Provides detailed instructions and recipe ideas.

SETUP

1. Unpack all components and remove any packaging materials.
2. Place the main blender unit on a stable, flat, and dry surface.
3. Ensure the wastewater cup is correctly positioned under the drainage spout.
4. Before first use, perform an initial cleaning cycle (refer to the 'Cleaning and Maintenance' section).

OPERATING INSTRUCTIONS

General Operation

1. Plug the machine into a suitable power outlet. The display will illuminate.
2. Add your desired ingredients to the blending chamber.
3. Add purified water up to the desired capacity line (300ml, 450ml, or 600ml) as indicated on the water tank.
4. Securely close the lid. The machine will not operate if the lid is not properly closed.
5. Use the control panel to select your desired program.
6. Press the 'Start' button to begin the program.

7-in-1 Preset Menu

The JD-PB270 offers 7 preset options for various preparations:

Bulit-in 7 Preset Menus

One blender for soy milk, juice, baby food, and more

Image: Joydeem JD-PB270 Control Panel. This image shows the illuminated control panel with various preset menu options.

- **Soy Milk:** For smooth, filter-free soy milk from dry soybeans (no pre-soaking required).

- **Nut Milk:** Ideal for various nut-based milks.
- **Multigrain:** For beverages made from mixed grains.
- **Rice Paste:** For creamy rice-based pastes.
- **Corn Juice:** For fresh corn juice.
- **Baby Food:** Prepares pureed baby food.
- **Fruit & Vegetable Juice:** For fresh fruit and vegetable juices.

Superior Soy Milk Experience

The automatic soy milk maker is equipped with a 750ml purified water tank. Add dry soybeans to the blending chamber and fill the tank with purified water. Choose between 300ml, 450ml, or 600ml soy milk capacity. The machine performs a 4-stage variable frequency blending and heating process, delivering smooth, filter-free soy milk in 12-20 minutes.

Delicious, No-filter Hot Soy Milk

Smart heating and variable blending for the perfect cup of soy milk

12-Hour Delay Start

The machine supports a 2-12 hour delay start, allowing you to prepare ingredients in advance and enjoy your hot drink at your preferred time. The removable, independent water tank keeps ingredients and water separate,

preventing long soaking times from affecting flavor.

2-12 Hour Delayed Start

Separate storage of ingredients and water reduces spoilage caused by delayed starts

20: 00
Add ingredients

Set for 12 hours

08: 00
Start Working

Noise Reduction

The automatic hot blender is designed with 10 noise-reducing features, from the vented silencing valve on top to the shock-absorbing pads at the base. While not completely silent, it operates quietly enough to minimize disturbance.

10 Noise Reduction Features

Reduce noise troubles from head to toe

* Unable to achieve ultimate silence

CLEANING AND MAINTENANCE

Automatic Cleaning

This machine features a dedicated cleaning program that automatically boils and cleans itself after each use. Wastewater is conveniently drained into the separate wastewater cup. Ensure the wastewater cup is always in place during the cleaning cycle.

Manual Cleaning

- After each use, rinse the blending chamber and accessories with water.
- Use the provided cleaning brush to remove any residue from the blades and internal surfaces.
- Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners.
- Ensure all parts are completely dry before reassembling or storing.

TROUBLESHOOTING

- **Machine not starting:** Ensure the lid is securely closed and the machine is properly plugged in. Check if the wastewater cup is correctly positioned.
- **Lid does not pop open automatically:** This is a known characteristic. The lid requires manual opening.
- **Wastewater cup not collecting water:** Ensure the wastewater cup is placed precisely under the drainage spout.
- **Capacity limitations:** The machine has a maximum capacity of 600ml for soy milk. Adding too many ingredients or exceeding the maximum fill line, especially when blending, may cause overflow.
- **No power-off button:** To fully shut down the machine, it must be unplugged from the power outlet.
- **Broken glass container:** Replacement parts may not be readily available. Handle the glass container with care.

SPECIFICATIONS

Feature	Specification
Brand	JOYDEEM
Model Number	JD-PB270
Color	Gray
Special Feature	Automatic Cleaning
Capacity	300-600 Milliliters (Adjustable)
Product Dimensions	5.91"D x 13.78"W x 11.81"H
