Cellavi Litterbox2

Cellavi Automatic Self-Cleaning Litter Box

Model: Litterbox2

Introduction

Thank you for choosing the Cellavi Automatic Self-Cleaning Litter Box. This innovative product is designed to provide a hygienic and convenient solution for cat owners, ensuring a clean environment for your pets and home. With its 68-liter capacity, app control, and advanced odor reduction features, this litter box simplifies pet care. Please read this manual thoroughly before installation and operation to ensure proper use and maintenance.

Safety Instructions

To prevent injury or damage, always follow these basic safety precautions:

- Read all instructions before using the appliance.
- Do not immerse the electrical components in water or other liquids.
- Ensure the power cord is not damaged and is placed where it cannot be tripped over or pulled.
- This appliance is intended for indoor use only.
- Keep children and pets away from the appliance during operation and cleaning cycles.
- Use only the provided power adapter.
- Do not attempt to disassemble or repair the unit yourself. Contact customer support for assistance.
- Ensure the litter box is placed on a stable, level surface.
- Do not use with clumping litter that is not suitable for automatic litter boxes, as this may cause malfunction.

Package Contents

Verify that all items are present in the package:

- 1x Cellavi Automatic Self-Cleaning Litter Box
- 1x Power Adapter
- 1x Litter Bag
- 1x Air Hose

- 2x Sieve Filters (for different types of litter)
- 1x User Manual (this document)

Product Overview

Familiarize yourself with the main components and features of your Cellavi Automatic Self-Cleaning Litter Box.

Image: Overview of the Cellavi Automatic Litter Box highlighting key features such as compatibility with all litter types, odor removal hose, and internal camera.

Key Features:

- **Automatic Cleaning:** Utilizes a rotating mechanism to filter litter and collect waste in a sealed compartment.
- **Large Capacity:** 68-liter total capacity, suitable for multiple or large cats, requiring waste emptying approximately once a week.
- **App Control:** Operate and monitor the litter box via the Cellavi smartphone app or the onboard dashboard.

- **Odor Reduction Technology:** Equipped with a powerful filter and air hose system to minimize unpleasant odors.
- **Quiet Operation:** Designed for silent operation to avoid disturbing your pets.
- **Automatic Doors:** Sensors ensure the cat does not enter during cleaning cycles.
- **Internal Camera:** For monitoring your cat's behavior.
- **Night Mode:** For silent operation during nighttime hours.

Setup

1. **Unpack the Unit:** Carefully remove all components from the packaging.
2. **Placement:** Place the litter box on a firm, level surface in a dry area, away from direct sunlight or heat sources. Ensure there is enough space around the unit for proper ventilation and access.
3. **Install Sieve Filter:** Select the appropriate sieve filter for your chosen litter type and place it inside the rotating drum.
4. **Add Litter:** Fill the litter box with clumping cat litter. Do not exceed the maximum fill line indicated inside the drum. The litter box is compatible with various types of clumping litter.
5. **Connect Air Hose (Optional):** If using the odor reduction air hose, connect one end to the designated port on the litter box and direct the other end to a suitable ventilation point.
6. **Power Connection:** Connect the power adapter to the litter box and then plug it into a standard electrical outlet.

7. **Initial Calibration:** The unit may perform an initial calibration cycle upon first power-on. Allow it to complete this process.
8. **App Setup:** Download the Cellavi app from your smartphone's app store. Follow the in-app instructions to connect your litter box to your Wi-Fi network and complete the setup.

Operating Instructions

Automatic Operation:

The Cellavi Automatic Self-Cleaning Litter Box is designed to operate automatically. After your cat uses the litter box, the sensors will detect its presence and departure. Following a preset delay (adjustable via the app), the cleaning cycle will initiate. The internal drum will rotate, sifting the clean litter and depositing waste into the sealed waste bin.

Manual Cleaning:

You can initiate a cleaning cycle manually at any time using the control panel on the unit or through the Cellavi app.

- **On-Unit Control:** Press the designated clean button on the litter box's control panel.
- **App Control:** Open the Cellavi app, select your litter box, and tap the "Clean" or "Start Cycle" option.

App Functions:

The Cellavi app provides enhanced control and monitoring capabilities:

Image: Screenshot of the Cellavi app interface, displaying functions such as cleaning, auto mode, air purification, child lock, weight display, and interval settings.

- **Cleaning:** Initiate or stop cleaning cycles.
- **Auto Mode:** Enable or disable automatic cleaning.
- **Air Purification:** Control the odor reduction system.
- **Child Lock:** Prevent accidental operation.
- **Weight Display:** Monitor your cat's weight (if applicable).
- **Interval:** Adjust the delay before a cleaning cycle begins after your cat exits.
- **Night Mode:** Activate silent operation during specific hours.
- **Activity Monitoring:** View activity logs and camera feed (if equipped).

Maintenance

Regular maintenance ensures optimal performance and hygiene.

1. **Emptying the Waste Bin:**
    - The waste bin should be emptied approximately once a week for a single cat, or more frequently for multiple cats.
    - Pull out the waste drawer located at the bottom front of the unit.
    - Tie off the litter bag and dispose of it according to local regulations.
    - Insert a new litter bag into the waste bin and slide the drawer back into place until it clicks securely.
2. **Adding Litter:**
    - Check the litter level regularly. Add fresh clumping litter as needed, ensuring it does not exceed the maximum fill line.
3. **Cleaning the Unit:**
    - **Exterior:** Wipe the exterior surfaces with a damp cloth and mild detergent. Do not use abrasive cleaners.
    - **Interior Drum:** For a deeper clean, unplug the unit, remove the drum, and wash it with soap and water. Ensure it is completely dry before reassembling.
    - **Sensors:** Periodically wipe the sensors with a soft, dry cloth to ensure proper function.
4. **Filter Replacement:**
    - The odor filter (if applicable) and sieve filters may require periodic cleaning or replacement. Refer to the app or product specifications for recommended intervals.

Troubleshooting

If you encounter issues with your Cellavi Automatic Self-Cleaning Litter Box, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit not powering on.	Power cord disconnected; power outlet malfunction.	Check power cord connection; try a different outlet.
Cleaning cycle not starting.	Waste bin full; cat still inside; sensor obstruction.	Empty waste bin; ensure cat has exited; clean sensors.
Litter not sifting properly.	Incorrect litter type; litter level too high/low; sieve filter clogged.	Use recommended clumping litter; adjust litter level; clean sieve filter.
Unpleasant odors persist.	Waste bin full; odor filter needs replacement; air hose disconnected.	Empty waste bin; replace odor filter; check air hose connection.
App not connecting to unit.	Wi-Fi issues; incorrect app settings; unit not in pairing mode.	Check Wi-Fi connection; restart app/unit; re-pair device as per app instructions.

If the problem persists after trying these solutions, please contact Cellavi customer support.

Specifications

Brand	Cellavi
