Kratos 92698 (12"L)

Kratos Commercial Immersion Blender User Manual

Model: 92698 (12"L)

1. PRODUCT OVERVIEW

The Kratos Heavy-Duty Variable Speed Immersion Blender is designed for commercial use, capable of blending various ingredients from sauces to soups to a consistent texture. Its robust construction and ergonomic design ensure efficient and comfortable operation.

2. IMPORTANT SAFETY INSTRUCTIONS

To ensure safe operation and prevent injury or damage, please read and understand all safety instructions before using the appliance.

- Always unplug the blender from the power outlet before cleaning, assembling, or disassembling.
- Do not immerse the motor unit in water or other liquids. Only the stainless steel shaft is submersible.
- Keep hands, hair, clothing, and utensils away from moving parts during operation to prevent injury.
- Ensure the shaft is securely locked into place before operating.
- Do not operate the blender with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.
- This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- Always use the blender in a stable and secure environment.
- Avoid blending extremely hot liquids directly from the stove; allow them to cool slightly to prevent splashing and burns.

3. SETUP AND ASSEMBLY

Before first use, ensure all packaging materials are removed and the components are clean.

1. **Unpacking:** Carefully remove the blender and all accessories from the packaging. Retain packaging for future storage or transport.
2. **Attaching the Shaft:** Align the stainless steel blending shaft with the motor unit. Insert the shaft into the motor unit and twist clockwise until it locks securely into place. A click sound indicates proper locking.

Image 3.2: A detailed view of the connection mechanism on the motor unit where the shaft attaches.

4. OPERATING INSTRUCTIONS

Follow these steps for effective and safe operation of your Kratos Immersion Blender.

1. **Preparation:** Ensure the blending shaft is securely attached. Plug the blender into a suitable power outlet.
2. **Immersion:** Immerse the blending shaft into the ingredients to be blended. Ensure the blade guard is fully submerged to prevent splashing.
3. **Power On:** Press and hold the "ON/OFF" button to start the blender.
4. **Adjusting Speed:** Use the variable speed dial located on the handle to adjust the blending speed from 8,000 to 18,000 RPM. Turn the dial clockwise to increase speed and counter-clockwise to decrease.
5. **Continuous Operation (Lock Feature):** For extended blending without holding the button, press the "Lock" button while the blender is running. This will maintain the current speed. To disengage, press the "ON/OFF" button again.
6. **Blending Technique:** Move the blender up and down gently within the ingredients to ensure even blending. Avoid lifting the blade guard out of the liquid while operating.

7. **Power Off:** Release the "ON/OFF" button to stop the blender. If the lock feature is engaged, press the "ON/OFF" button once to disengage and stop.
8. **Unplug:** Always unplug the blender from the power outlet after use.

5. CLEANING AND MAINTENANCE

Regular cleaning and proper maintenance will extend the life of your Kratos Immersion Blender.

1. **Disassembly:** Unplug the blender. Twist the blending shaft counter-clockwise to detach it from the motor unit.
2. **Cleaning the Shaft:** Wash the stainless steel blending shaft and blade assembly with warm, soapy water. Rinse thoroughly and dry immediately. The shaft is dishwasher safe.
3. **Cleaning the Motor Unit:** Wipe the motor unit with a damp cloth. Do not immerse the motor unit in water or any other liquid.
4. **Storage:** Store the blender and its components in a clean, dry place.

6. TROUBLESHOOTING

If you encounter issues with your blender, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; power outlet issue; shaft not properly attached.	Ensure the blender is securely plugged into a working outlet. Check if the shaft is twisted and locked into place.
Blender stops during operation.	Overheating; motor overload.	Unplug the blender and allow it to cool down for at least 30 minutes. Reduce the load or consistency of ingredients.
Ingredients are not blending smoothly.	Insufficient liquid; ingredients too large; incorrect speed setting.	Add more liquid. Cut ingredients into smaller pieces. Increase the blending speed using the variable speed dial.

Problem	Possible Cause	Solution
Excessive vibration or noise.	Shaft not properly attached; damaged blade.	Ensure the shaft is securely locked. Inspect the blade for damage; if damaged, contact customer support.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Kratos
Model	92698 (12"L)
Power	850W (1.15 HP)
Speed Range	8,000 to 18,000 RPM (Variable Speed)
Shaft Length	12 inches
Material	Stainless Steel Shaft
