SUNLEI YC-B273-A23

SUNLEI Twin Over Full Bunk Bed with Trundle Instruction Manual

Model: YC-B273-A23

Introduction

Thank you for choosing the SUNLEI Twin Over Full Bunk Bed with Trundle. This manual provides essential information for the safe assembly, operation, and maintenance of your new bunk bed. Please read these instructions carefully before assembly and retain them for future reference.

Safety Information

Your safety is paramount. Please adhere to the following guidelines to prevent injury and ensure the longevity of your bunk bed.

- Always follow the assembly instructions carefully to prevent instability or collapse.
- Be cautious of pinch points and sharp edges during assembly and use.
- The guardrails provide safety, but do not rely on them entirely for support.
- Do not exceed the weight capacity of the bed frame. The upper twin bed supports up to 300 lbs, the lower full bed supports up to 400 lbs, and the trundle bed supports up to 300 lbs.
- Ensure mattresses are of appropriate size and thickness. For the upper bunk, the mattress must be at least 5 inches below the top edge of the guardrail. Recommended mattress thickness for the upper bed is 8-10 inches.
- Only one person should occupy the upper bunk at a time.
- Periodically check all bolts and connections to ensure they remain tight.

- Do not allow children to play on or under the bunk bed without supervision.

Package Contents

Before beginning assembly, please verify that all parts listed in the included parts list are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately.

The package typically includes:

- Metal frame components for the upper twin bed.
- Metal frame components for the lower full bed.
- Metal frame components for the trundle bed.
- Support slats for all three beds.
- Two secured ladders.

- Safety guardrails for the upper bunk.
- Hardware pack (screws, bolts, washers, Allen wrench).
- Assembly instruction manual.

Assembly Instructions

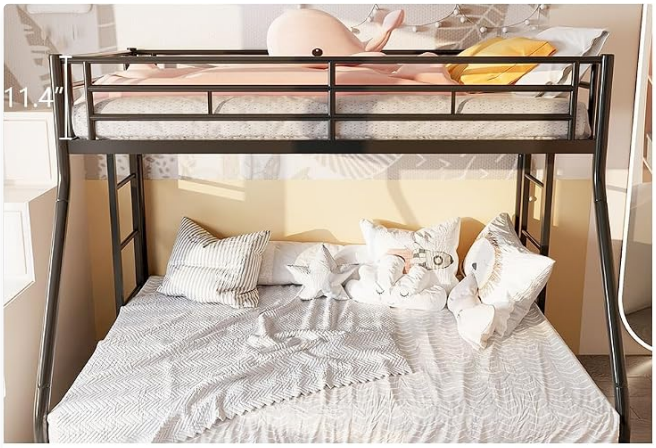

Before You Begin

- Clear a spacious area for assembly.
- Ensure you have the necessary tools (usually an Allen wrench is provided, but a screwdriver might be helpful).
- Unpack all components and lay them out, comparing them with the parts list.

Step-by-Step Assembly

Follow the numbered steps below. It is recommended to have two adults for assembly.

1. **Assemble the Lower Full Bed Frame:** Connect the side rails to the headboard and footboard of the full-size bed using the provided hardware. Do not fully tighten bolts until all components are aligned.
2. **Install Lower Bed Slats:** Place the full-size support slats onto the assembled lower bed frame. Ensure they are securely fitted into the embedded design.
3. **Assemble the Upper Twin Bed Frame:** Connect the side rails to the headboard and footboard of the twin-size bed.
4. **Install Upper Bed Slats:** Place the twin-size support slats onto the assembled upper bed frame.
5. **Attach Guardrails:** Secure the full-length guardrails to the upper bunk frame. Ensure they are firmly attached for safety.
6. **Attach Ladders:** Connect the two built-in ladders to the upper bunk frame. These ladders are designed for attachment on either side.
7. **Assemble the Trundle Bed Frame:** Connect the trundle bed frame components. Attach the four universal wheels (two of which are lockable) to the trundle frame.
8. **Install Trundle Bed Slats:** Place the trundle bed support slats onto the trundle frame.
9. **Final Tightening:** Once all components are in place and aligned, securely tighten all bolts and screws. Do not overtighten.
10. **Anti-Toppling Device:** If an anti-toppling device is included, follow its specific instructions for installation to secure the bunk bed to a wall, if desired.

FULL-LENGTH GUARDRAILS

11.4 inch safety Guard Rail can prevent accidentally faling down

2 SIDES BUILT-IN CIRCULAR LADDER

The ladder can be climbed on both sides to suit your habits.

RECOMMENDED MATTRESS THICKNESS 8"-10"(NOT INCLUDED)

Note: The mattress on the upper bed must be at least 5" below the top edge of the guardrail

Operating Instructions

Using the Bunk Beds

- **Upper Twin Bed:** Designed for one occupant. Ensure the mattress is properly seated and does not exceed the height of the guardrails.
- **Lower Full Bed:** Can accommodate one or two occupants, depending on mattress size and comfort.
- **Trundle Bed:** Pull out the trundle bed from underneath the lower bunk when an additional sleeping surface is needed. The lockable wheels allow for stable positioning. Push it back in when not in use to save space.

Using the Ladders

- Always use the provided ladders to access the upper bunk. Do not climb on the bed frame directly.
- Ensure the ladders are securely attached before use.

- Climb carefully, facing the ladder, and maintain three points of contact.

Maintenance

Cleaning

- Wipe the metal frame with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- Dry thoroughly after cleaning to prevent rust.

Inspection

- Regularly inspect all bolts, screws, and connections to ensure they are tight. Tighten any loose hardware immediately.
- Check the support slats for any signs of damage or bending. Replace damaged slats promptly.
- Inspect the ladders and guardrails for any wear or damage.

Troubleshooting

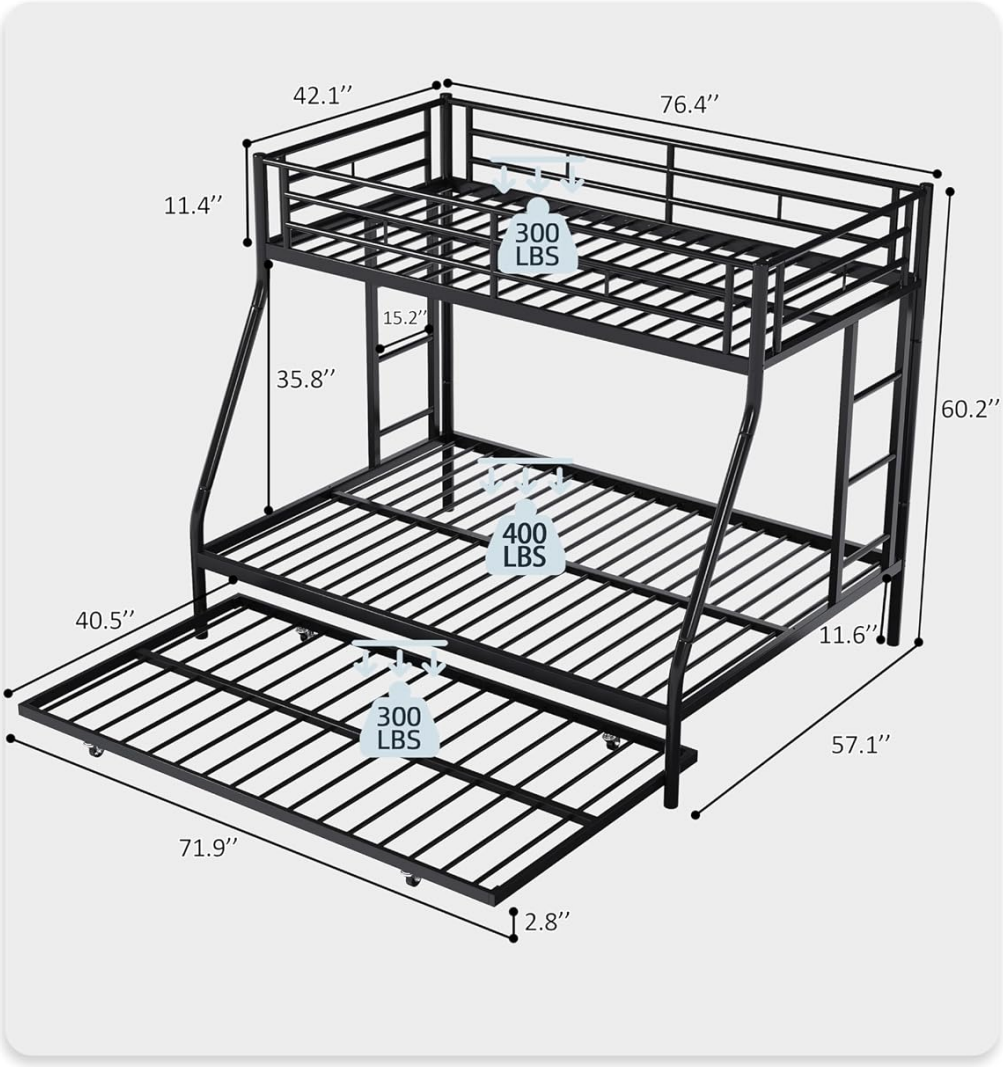

Problem	Possible Cause	Solution
Bed feels unstable or wobbly.	Loose hardware. Uneven floor.	Tighten all bolts and screws. Ensure the bed is on a level surface.
Squeaking or noise during use.	Loose connections. Metal-on-metal friction.	Tighten all hardware. Apply a small amount of lubricant (e.g., silicone spray) to contact points if necessary.
Trundle bed not rolling smoothly.	Wheels are locked. Debris in wheels.	Unlock the wheels. Clean any debris from the wheels.
Missing or incorrect parts during assembly.	Packaging error.	Do not proceed with assembly. Contact SUNLEI customer support for replacement parts.

Product Specifications

Feature	Detail
Model Number	YC-B273-A23
Size	Twin-over-Full
Product Dimensions (L x W x H)	76.4" x 57.1" x 60.2"
Color	Charcoal Black
Material	Metal
Upper Twin Bed Weight Capacity	300 lbs
