LQHUE B24

LQHUE 60000mAh 22.5W Fast Charging Power Bank (Model B24) User Manual

Comprehensive Instructions for Optimal Use

Introduction

This manual provides detailed instructions for the safe and efficient operation of your LQHUE 60000mAh 22.5W Fast Charging Power Bank, Model B24. Please read this manual thoroughly before using the product to ensure proper function and longevity.

Image 1: Overview of the LQHUE 60000mAh Power Bank, Model B24, showcasing its compact design and integrated strap.

1. Setup

1.1 Initial Charging of the Power Bank

Before first use, fully charge your power bank. Use the provided USB to USB-C cable and a compatible wall adapter (not included). The power bank supports 22.5W fast charging. A full charge with a 20W Power Delivery charger typically takes approximately 12 hours. With a standard 10W charger, it may take up to 24 hours.

- Connect the USB-C end of the cable to the "IN" port on the power bank.
- Connect the USB-A end of the cable to a suitable USB wall adapter.
- The LED digital display will show the charging progress, indicating the battery percentage.

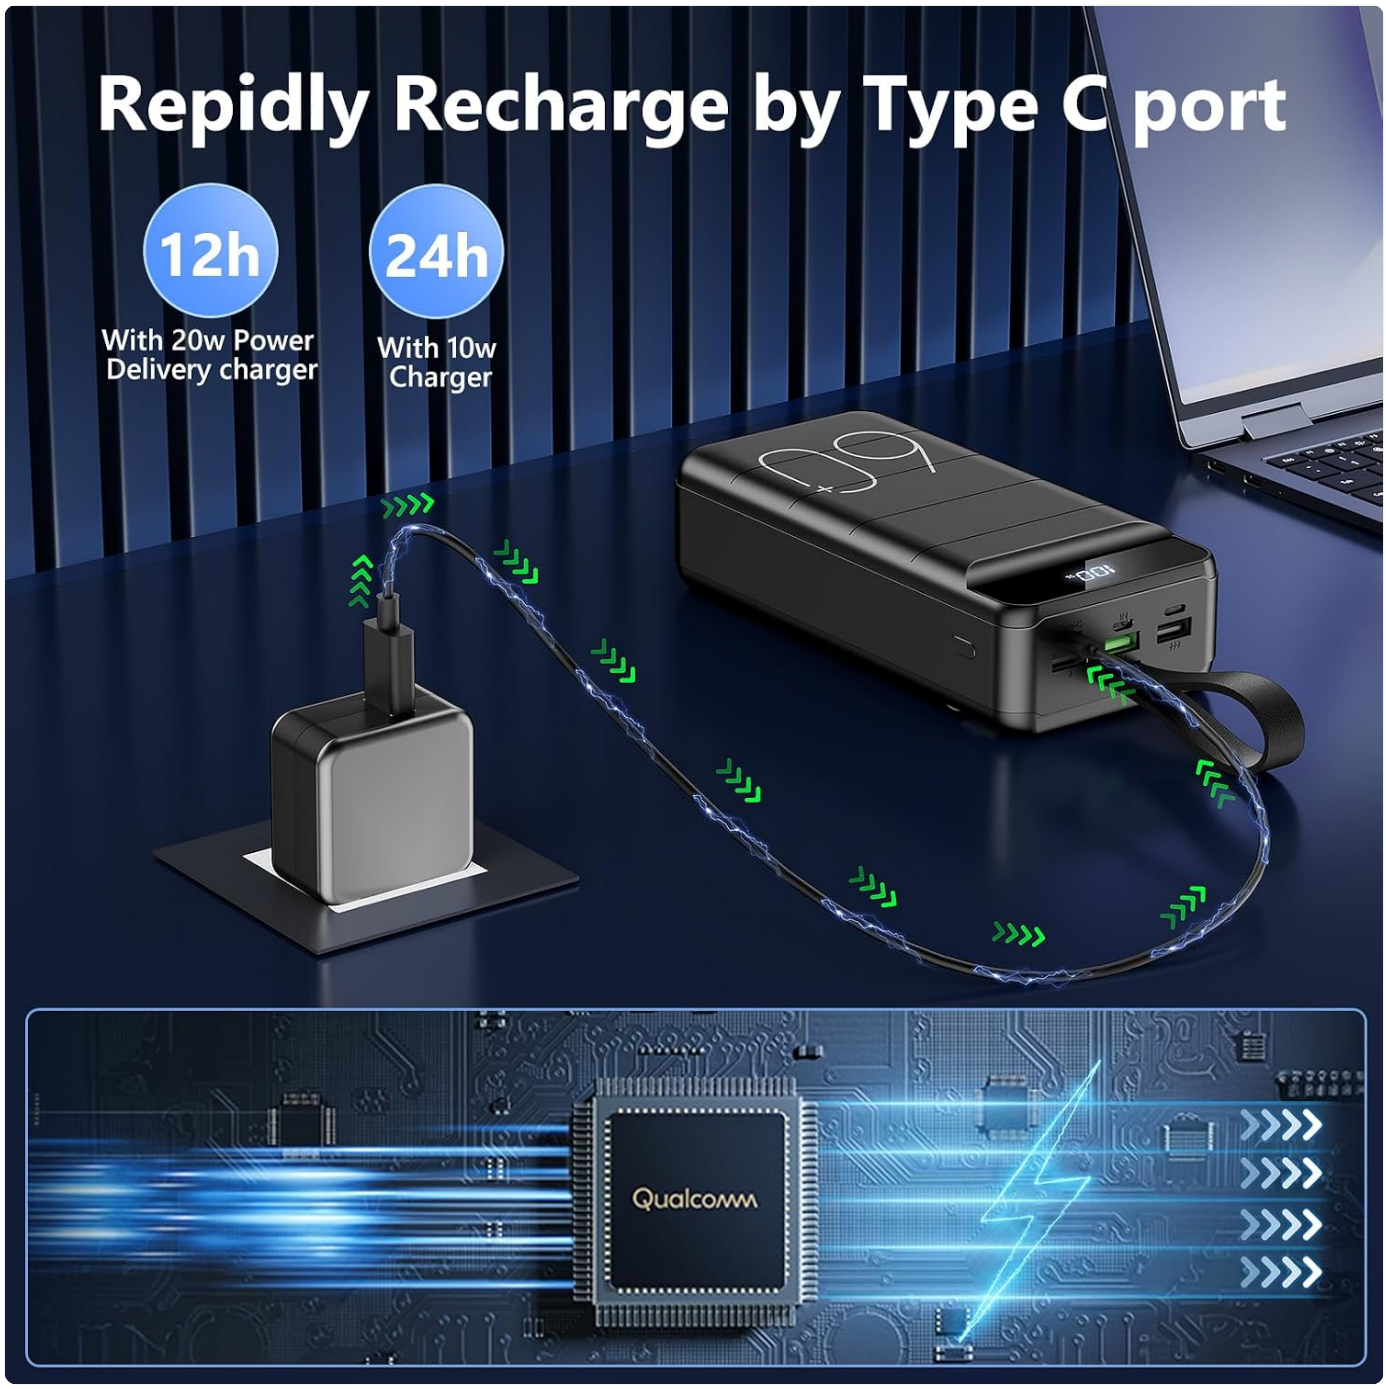

Image 2: Illustration of the power bank being recharged using a USB-C cable connected to a wall adapter, highlighting the rapid recharge capability.

1.2 Understanding the LED Digital Display

The power bank features a smart LED digital display that accurately shows the remaining battery percentage. Press the power button once to activate the display and check the current charge level.

Image 3: Close-up view of the power bank's LED display showing battery percentage, along with its various input and output ports and integrated flashlight.

2. Operation

2.1 Charging Your Devices

The LQHUE Power Bank is equipped with multiple output ports to charge various electronic devices simultaneously. It supports fast charging protocols including PD 4.0 and QC 4.0.

- **Output Ports:** The power bank has three USB-A output ports and one Type-C port that supports both input and output.
- **Connecting Devices:** Use appropriate charging cables for your devices. Connect one end to your device and the other to an available output port on the power bank.
- **Simultaneous Charging:** You can charge up to four devices concurrently. The power bank's large 60000mAh capacity provides ample power for extended use.
- **Fast Charging:** The 22.5W USB-C output can charge compatible devices rapidly, for example, an iPhone X can reach

60% charge in approximately 30 minutes.

Image 4: The power bank actively charging four different electronic devices, demonstrating its multi-device charging capability.

Image 5: Visual representation of the 60000mAh capacity, showing approximate charge cycles for an iPhone 15 (14 times), Samsung S23 (12 times), and iPad Pro 5 (5 times).

2.2 Using the Integrated Flashlight

The power bank includes a built-in flashlight for convenience in low-light conditions or emergencies.

- **To Turn On/Off:** Press and hold the power button for approximately 3 seconds.
- The flashlight provides bright illumination, useful for outdoor activities or power outages.

Image 6: Depiction of the power bank being used in various scenarios, including as an emergency flashlight during a power outage.

2.3 Product Video Overview

Your browser does not support the video tag.

3. Maintenance

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use harsh chemicals or abrasive materials.
- **Battery Longevity:** To prolong battery life, it is recommended to fully charge and discharge the power bank at least once every three months if not in regular use.
- **Safety:** Avoid dropping the power bank or exposing it to water. Do not attempt to disassemble or modify the device.

Image 7: Diagram illustrating the power bank's safety features, including fireproof casing, high-density polymer cell, advanced temperature control, and phone standard smart circuit protection.

4. Troubleshooting

- **Device not charging:**
  - Ensure the power bank is sufficiently charged (check LED display).
  - Verify that the charging cable is securely connected to both the power bank and your device.
  - Try a different charging cable or port on the power bank.
  - Confirm your device is compatible with the power bank's output specifications.
- **Power bank not charging:**
  - Ensure the charging cable is securely connected to the power bank's "IN" port and the wall adapter.
  - Verify the wall adapter is functioning correctly and plugged into a live outlet.

- Try a different charging cable or wall adapter.

- **Flashlight not working:**
  - Press and hold the power button for approximately 3 seconds to activate the flashlight.
  - Ensure the power bank has sufficient charge.

5. Specifications

Brand	LQHUE
Model Number	B24
Battery Capacity	60000mAh
Charging Power	22.5W Fast Charging
Input Ports	1x Type-C (IN/OUT), 1x Micro USB, 1x Lightning
Output Ports	3x USB-A, 1x Type-C (IN/OUT)
Special Features	Digital Display, Fast Charging, LED Indicator Lights, Over Charging Protection, Short Circuit Protection, Integrated Flashlight
Color	Black
Product Dimensions	8.79 x 4.9 x 1.9 inches
Item Weight	2.01 pounds
Manufacturer	Shenzhen Zhongtong Battery Co.,LTD

6. Warranty and Support

Your LQHUE 60000mAh 22.5W Fast Charging Power Bank (Model B24) comes with a**36-month warranty**. For any product inquiries, technical support, or warranty claims, please refer to the contact information provided with your purchase or visit the official LQHUE website for customer service details.
Always ensure you are using official or certified accessories for charging and discharging to maintain product safety and warranty validity.
