

LIGE FV4-G

# LIGE Smart Watch User Manual

Model: FV4-G

Brand: LIGE

## 1. INTRODUCTION

Welcome to your new LIGE Smart Watch! This elegant and functional smartwatch is designed to enhance your daily life with its advanced features and stylish design. It offers seamless connectivity, comprehensive health monitoring, and diverse sports tracking capabilities. This manual provides detailed instructions to help you set up, operate, and maintain your device for optimal performance.

## 3. SETUP GUIDE

### 3.1 Charging the Smart Watch

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a standard USB power adapter (not included). A full charge typically takes about 2 hours.

### 3.2 App Installation

To unlock all features and synchronize data, download the **Dafit** app on your smartphone. Scan the QR code provided in the manual or search for 'Dafit' in your device's app store (compatible with Android 4.4+ and iOS 8.0+).

### 3.3 Bluetooth Pairing

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Dafit app and follow the on-screen instructions to add your device.
3. The app will search for available devices. Select 'FV4-G' or the corresponding device name to connect.
4. Confirm the pairing request on both your watch and smartphone.
5. For call functionality, you may need to connect to the watch's Bluetooth audio profile separately in your phone's Bluetooth settings (usually appears as 'FV4-G\_CALL' or similar).

## 4. OPERATING INSTRUCTIONS

### 4.1 Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and features. Tap to select.
- **Side Button:** Press to wake the screen, return to the main dial, or access the app list.

### 4.2 Making and Answering Calls

With its built-in microphone and speaker, your smartwatch allows you to make and answer calls directly from your wrist after connecting via Bluetooth.

- **Making Calls:** Access the 'Dial' or 'Contacts' feature on your watch to initiate a call.

- **Answering Calls:** When a call comes in, the watch will vibrate and display the caller ID. Tap the green icon to answer.

## 4.3 Message Notifications

Receive real-time alerts for messages and app notifications (e.g., Facebook, WhatsApp, Twitter) directly on your watch. Configure notification settings within the Dafit app.

## 4.4 Multifunctional Features

Your smartwatch includes a variety of useful tools:

- **Music Control:** Play, pause, skip tracks on your phone.
- **Remote Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Voice Assistant:** Access your phone's voice assistant directly from the watch.
- **Weather Forecasts:** Get real-time weather updates.
- **Stopwatch & Timer:** For precise timekeeping.
- **Calculator:** Perform basic calculations on the go.
- **Find Phone:** Locate your misplaced phone by making it ring.

## 5. HEALTH MONITORING

The LIGE Smart Watch is equipped with advanced sensors to help you monitor your health. **Note:** This device is not a medical device and should not be used for medical diagnosis or treatment.

- **Heart Rate Monitoring:** Provides 24/7 continuous heart rate tracking.
- **Sleep Monitoring:** Tracks your sleep stages (deep sleep, light sleep, wake periods) to provide insights into your sleep quality.
- **Blood Pressure Monitoring:** Estimates blood pressure levels.
- **Blood Oxygen (SpO2) Monitoring:** Measures your blood oxygen saturation.
- **Women's Health Management:** Features for tracking menstrual cycles and other related health data.

## 7. WATER RESISTANCE (IP68)

Your LIGE Smart Watch is IP68 water-resistant, meaning it can withstand splashes, hand washing, and brief immersion in shallow water. It is suitable for everyday use and light swimming.

### Important:

- Do not use the watch in hot water, saunas, or steam rooms.
- Avoid prolonged immersion or high-pressure water jets.
- Water resistance is not a permanent condition and may decrease over time with normal wear.

## IP68 Waterproof, Everyday Companion

Easily withstands splashes of water without getting in the way of your life.

## 8. BATTERY LIFE

The watch is equipped with a 300mAh Li-Polymer battery. A full charge provides approximately:

- Up to 30 days of standby time.
- About 5 days of operating time (depending on usage).

Recharge time is approximately 2 hours.

## 9. CUSTOMIZATION

### 9.1 Display

The watch features a stunning 1.19-inch AMOLED display with a resolution of 390x390 pixels and brightness up to 600 lumens, ensuring clear visibility in various lighting conditions.

### 9.2 Watch Faces

Personalize your watch with a wide selection of watch faces available through the Dafit app. You can also upload your favorite photos to create unique custom dials.

### 9.3 Interchangeable Straps

The watch comes with three interchangeable straps (Rose 3 Straps variant) allowing you to match your style for any occasion.

## 10. MAINTENANCE

- **Cleaning:** Wipe the watch and straps regularly with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and dry thoroughly.
- **Storage:** Store your watch in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Chemicals:** Do not expose the watch to strong chemicals, detergents, or solvents, as these can damage the materials.

## 11. TROUBLESHOOTING

### 11.1 Connectivity Issues

- **Watch not connecting to phone:** Ensure Bluetooth is on for both devices. Try restarting both the watch and your phone. Re-pair the devices through the Dafit app. Check app permissions on your phone to ensure it can access Bluetooth.
- **Call function not working:** Verify that the watch's audio Bluetooth profile (e.g., 'FV4-G\_CALL') is connected in your phone's Bluetooth settings.

### 11.2 Display Issues

- **Screen unresponsive:** Restart the watch by pressing and holding the side button. Ensure the screen is clean and dry.
- **Display too dim/bright:** Adjust brightness settings on the watch or through the Dafit app.

### 11.3 Battery Issues

- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring if not needed. Ensure the watch is fully charged.
- **Watch not charging:** Check that the charging cable is securely connected to the watch's magnetic points and the USB power source. Ensure the charging points are clean.

### 11.4 Water Damage

While the watch is IP68 water-resistant, it is not designed for prolonged submersion or high-pressure water activities like diving or hot tubs. If the watch experiences water damage beyond its rated protection, it may cease to function. Refer to the water resistance section for detailed guidelines.
