SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Retain the packaging for future storage or transport.
2. **Initial Cleaning:** Before first use, wash all removable parts (portafilter, basket, doser, tamper, cup) with warm, soapy water. Rinse thoroughly and dry completely. Wipe the main unit with a damp cloth. Do not immerse the main unit in water.
3. **Charging:** Ensure the OutIn Nano is fully charged before first use. Connect the charging cable to the machine and a compatible power source. The indicator lights will show charging status.
4. **Water Reservoir:** Fill the water reservoir with clean, potable water. The machine has a capacity of up to 80ml.

OPERATING INSTRUCTIONS

Preparing Espresso with Ground Coffee:

1. **Grind Coffee:** Use finely ground espresso coffee.
2. **Fill Basket:** Place the ground coffee filter into the basket. Add the desired amount of ground coffee into the filter.
3. **Tamp:** Use the tamper to press the coffee grounds firmly and evenly.
4. **Assemble Portafilter:** Attach the basket with tamped coffee to the portafilter.
5. **Attach to Machine:** Securely screw the assembled portafilter onto the bottom of the OutIn Nano machine.
6. **Add Water:** Fill the water reservoir with hot or cold water, depending on your desired espresso temperature. The machine can heat water if cold water is used.
7. **Brew:** Place a cup (the machine's lid can be used as a cup) under the portafilter. Press the power button to begin brewing. The machine will automatically stop when the brewing cycle is complete.

Preparing Espresso with Capsules:

1. **Insert Capsule:** Open the capsule compartment and insert a compatible coffee capsule.
2. **Close Compartment:** Securely close the capsule compartment.
3. **Attach to Machine:** Securely screw the capsule adapter onto the bottom of the OutIn Nano machine.
4. **Add Water:** Fill the water reservoir with hot or cold water.
5. **Brew:** Place a cup under the machine. Press the power button to begin brewing.

Note: The plastic lid of the OutIn Nano is designed to function as a serving cup, providing convenience for on-the-go use. The video below demonstrates the coffee preparation process with the OutIn Nano. Please note that this video is for demonstration purposes only and was created by an independent reviewer. For official support, please refer to the written instructions and contact the manufacturer directly.

MAINTENANCE & CLEANING

Regular cleaning ensures optimal performance and longevity of your OutIn Nano machine.

1. After Each Use:

- Remove the portafilter/capsule adapter and discard used coffee grounds or capsule.
- Rinse the portafilter, basket, doser, tamper, and cup with warm water.
- Wipe the exterior of the machine with a damp cloth.

2. Deep Cleaning (Weekly/Bi-weekly):

- Disassemble all removable parts.
- Wash with mild dish soap and warm water. Use a brush to remove any stubborn coffee residue.
- Rinse all parts thoroughly to remove soap residue.
- Allow all parts to air dry completely before reassembling or storing.

3. Descaling (Monthly or as needed):

- Mix a descaling solution according to the descaler product instructions (or use a vinegar solution: 1 part white vinegar to 2 parts water).
- Fill the water reservoir with the descaling solution.
- Run a brewing cycle without coffee.
- Repeat with clean water 2-3 times to rinse out any descaling solution.

4. **Storage:** Store the machine in its carry bag in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Machine not turning on	Low battery; Power button not pressed correctly.	Charge the machine fully; Press and hold the power button for 2-3 seconds.
No coffee dispenses	No water in reservoir; Clogged filter/capsule; Machine not assembled correctly.	Fill water reservoir; Clean filter/replace capsule; Reassemble all parts securely.
Weak or watery espresso	Insufficient coffee grounds; Coarse grind; Not enough tamping pressure.	Increase coffee amount; Use finer grind; Apply more pressure when tamping.
Leaking during operation	Parts not securely tightened; Damaged seal.	Ensure all parts are tightly screwed; Check seals for damage and replace if necessary.

SPECIFICATIONS

Brand: OutIn

Model: OutIn Nano (Item model number: 05db8ab0-7112-46f5-ac1e-647714e220cf)

Special Feature: Portable

Coffee Maker Type: Espresso Machine

Style: Outin Nano Complete Set

Specific Uses For Product: Espresso

Included Components: Carafe, Filter, Milk Frother, Tamper, Doser, Ground Coffee Filter, Basket, Portafilter, Distribution

Tool, Carry Bag.
