## 2. Package Contents

- 1 x Hot Wheels T Rextroyer Die-Cast Car (Model L2593)

## 3. Initial Setup

1. Carefully remove the Hot Wheels T Rextroyer vehicle from its packaging.
2. Inspect the vehicle for any visible damage or manufacturing defects.
3. The vehicle is ready for immediate use.

## 4. Operating the Vehicle

The Hot Wheels T Rextroyer is a free-rolling die-cast car. It is designed to be pushed along flat surfaces or used on compatible Hot Wheels tracks (sold separately).

### 4.1. Movable Jaw Feature

This model features a unique movable jaw mechanism. When the vehicle is rolled forward, the jaw of the T-Rex design opens and closes, simulating a biting action. This feature is activated by the movement of the wheels.

No official seller videos are available for this product to demonstrate its operation.

## 5. Care and Maintenance

- To clean the vehicle, wipe it with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive materials, as these may damage the finish.
- Store the vehicle in a cool, dry place away from direct sunlight to prevent fading or material degradation.

## 6. Troubleshooting

Hot Wheels die-cast vehicles are generally robust. If you encounter any issues:

- **Wheels not rolling smoothly:** Check for any debris or hair caught in the axles. Gently remove any obstructions.
- **Movable jaw not functioning:** Ensure the wheels are rotating freely, as the mechanism is linked to wheel movement. Check for any foreign objects obstructing the jaw.
- If the product is damaged or defective upon arrival, please contact the retailer or manufacturer for assistance.

## 7. Product Specifications

| | |
|---|---|
| **Brand** | Hot Wheels |
