BFADEHA B001

BFADEHA Smart Finder Instruction Manual

Model: B001 | Brand: BFADEHA

1. Introduction

The BFADEHA Smart Finder is an Apple MFi Certified Bluetooth tracker designed to help you keep track of your valuable items. Its ultra-thin, card-shaped design makes it ideal for wallets, bags, keys, and passports. Utilizing the Apple Find My network, this device offers precise location tracking, loud alarms, and timely alerts to ensure you never lose your belongings.

2. Setup

2.1 Initial Pairing with iPhone

1. **Turn on the Tracker:** Long press the function button on the tracker for approximately 5 seconds until you hear a beep. This indicates the tracker is ready for pairing.
2. **Open the Find My App:** On your iPhone, open the "Find My" app. Ensure Bluetooth is enabled on your device.
3. **Add the Item:** In the Find My app, tap "Add Item," then select "Other Supported Item."
4. **Connect:** The app will detect the BFADEHA Smart Finder. Tap "Connect" to initiate the pairing process.
5. **Confirm Pairing:** Follow the on-screen prompts to complete the pairing, which may include naming your item and assigning an emoji. Confirm the prompt to link the tracker to your Apple ID.

3. Operating Instructions

3.1 Locating Nearby Items

If your item is within Bluetooth range, you can make the Smart Finder play a sound to help you locate it quickly.

- Open the "Find My" app on your iPhone.
- Select your BFADEHA Smart Finder from the list of items.
- Tap the "Play Sound" button. The tracker will emit a loud beep (up to 100dB) to guide you to its location.

Figure 3: Using the "Play Sound" feature in the Find My app to locate the tracker, which emits a loud alarm.

3.2 Locating Far Away Items

For items not within Bluetooth range, the Apple Find My network can help you pinpoint their last known location on a map.

- Open the "Find My" app on your iPhone.
- Select your BFADEHA Smart Finder.
- The app will display its last known location on the map. You can then use the navigation feature to get directions to the item.

Figure 4: Navigating to a lost item's location using the Find My app's map feature.

3.3 Left-Behind Alerts

Receive instant notifications if you accidentally leave your item behind.

- In the Find My app, enable "Notify When Left Behind" for your Smart Finder.
- You will receive an alert on your iPhone if the item is no longer detected near you, along with its last known location.

Figure 5: An example of a "Left Behind" alert from the Find My app, indicating the item's last detected location.

3.4 Lost Mode

If your item is truly lost, activate Lost Mode to help others return it to you.

- In the Find My app, select your Smart Finder and activate "Lost Mode."
- You can enter your contact information (phone number and message) which can be viewed by anyone who finds your item and taps it with an NFC-enabled smartphone.
- You will be notified when your item is located by another device on the Find My network.

4. Maintenance

4.1 Battery Life

The BFADEHA Smart Finder is equipped with an ultra-long-lasting battery designed to provide 5-10 years of standby time. This means you do not need to charge or replace the battery during its lifespan, ensuring continuous tracking without interruption.

4.2 Waterproof & Dust Resistant

With an IP67 rating, your Smart Finder is protected against dust ingress and can withstand immersion in water up to 1 meter (3 feet) for 30 minutes. This makes it suitable for various environments and accidental splashes.

5. Troubleshooting

Common Issues and Solutions

Issue	Possible Cause	Solution
Cannot pair with iPhone.	Tracker not in pairing mode, Bluetooth off, or app issue.	Ensure long press of button for 5 seconds until beep. Check iPhone Bluetooth settings. Restart Find My app or iPhone.

Issue	Possible Cause	Solution
Sound alarm is too quiet.	Obstruction (e.g., inside a wallet, under thick material).	Move to a quieter area or try to remove the item from obstructions if possible. The alarm is designed to be loud, but physical barriers can muffle it.
Location not updating.	Out of range of Find My network devices, or low iPhone battery.	Ensure your iPhone has a stable internet connection and sufficient battery. The Find My network relies on other Apple devices to update location.
