5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid using harsh chemicals or abrasive materials.
- **Software Updates:** Periodically check for and install software updates to ensure optimal performance and access to new features. Updates can usually be found in the device's settings menu.
- **Battery Care:** To prolong battery life, avoid fully discharging the device frequently. Store the device in a cool, dry place when not in use for extended periods.

6. TROUBLESHOOTING

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
No translation / Slow translation	Poor network connection (eSIM or Wi-Fi). Speaking too quickly or unclearly.	Check network signal strength. Move to an area with better reception or connect to a stable Wi-Fi network. Speak clearly and at a moderate pace.
Translation accuracy varies	Contextual nuances or complex sentences.	Translation results may vary depending on the context and complexity of the speech. Try rephrasing your sentence.
Camera translation not working	Insufficient lighting. Text is blurry or too small.	Ensure adequate lighting. Hold the device steady and close enough for clear focus.
Device not powering on	Battery is depleted.	Connect the device to a charger and allow it to charge for at least 30 minutes before attempting to power on again.

Important Note: Operation with SIM cards other than the dedicated communication SIM is not supported. Always refer to the included instruction manual for detailed warnings and usage guidelines.
