SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Connect Power:** Insert the AC power adapter into the massager's power port. Plug the adapter into a standard electrical outlet. For in-car use, connect the car adapter to the massager and then to your vehicle's 12V power socket.
3. **Positioning:** Place the massager around your neck, shoulders, back, or other desired area. Use the arm loops to adjust pressure and position for optimal comfort.

OPERATING INSTRUCTIONS

Control Panel:

The control panel is located on the side of the massager for easy access during use. It typically includes the following buttons:

- **Power Button** (): Turns the massager ON/OFF.
- **Direction Button** (↺): Changes the rotation direction of the massage nodes.
- **Speed/Intensity Button** (≡): Adjusts the massage speed (low, medium, high).
- **Heat Button** (🔥): Turns the soothing heat function ON/OFF.

Using the Massager:

1. **Power On:** Press the Power Button () to start the massager. The massage nodes will begin rotating, and the heat function may activate automatically.
2. **Adjust Heat:** Press the Heat Button (🔥) to turn the heat function on or off as desired.
3. **Change Direction:** Press the Direction Button (↺) to reverse the rotation direction of the massage nodes. This can provide a different massage sensation.
4. **Adjust Speed:** Press the Speed/Intensity Button (≡) to cycle through the available speed levels (low, medium, high).
5. **Session Duration:** The massager is equipped with a 15-minute auto shut-off feature for safety and to prevent overuse. You can restart the massager after it automatically turns off.
6. **Power Off:** Press the Power Button () again to turn off the massager manually at any time.

MAINTENANCE AND CARE

- **Cleaning:** Always unplug the massager before cleaning. Wipe the surface with a soft, slightly damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals. Ensure the massager is completely dry before storing or next use.
- **Storage:** Store the massager in its carry bag in a cool, dry place, away from direct sunlight and extreme temperatures. Do not wrap the power cord tightly around the unit.
- **Avoid Punctures:** Do not puncture the surface of the massager with sharp objects.

TROUBLESHOOTING

Problem	Solution
Massager does not turn on.	Ensure the power adapter is securely plugged into both the massager and a working electrical outlet. Check if the outlet is functional.
No heat is felt.	Press the Heat Button (🔥) to activate the heat function. Allow a few minutes for the heat to become noticeable.
Massage nodes stop moving.	The 15-minute auto shut-off timer may have activated. Restart the massager by pressing the Power Button (⏻). If the issue persists, unplug and re-plug the unit.
Massager feels too intense or too weak.	Adjust the speed using the Speed/Intensity Button (⏮). You can also adjust the pressure by loosening or tightening your grip on the arm loops.
