Trust GXT492

Trust GXT 492 Gaming Headset User Manual

Model: GXT492

INTRODUCTION

The Trust GXT 492 Carus Multi-Platform Gaming Headset is designed to provide an immersive audio experience and clear communication across various gaming platforms. This manual provides detailed instructions on setting up, operating, maintaining, and troubleshooting your headset to ensure optimal performance.

PACKAGE CONTENTS

Please ensure all the following items are included in your package:

- Trust GXT 492 Gaming Headset
- Detachable Microphone
- Pop Filter for Microphone
- Fixed 1.2m Audio Cable (3.5mm jack)
- 1m Extension Cable

SETUP

Connecting the Headset

The GXT 492 headset connects via a standard 3.5mm audio jack, making it compatible with PCs, laptops, PlayStation, Xbox, Nintendo Switch, and other devices with a 3.5mm audio port.

1. Locate the 3.5mm audio jack on your gaming device or computer.
2. Plug the fixed 1.2m audio cable from the headset into the 3.5mm port.
3. If additional length is required, connect the 1m extension cable to the headset's cable before plugging into your device.
4. For microphone use, ensure the detachable microphone is securely inserted into the dedicated port on the left ear cup.

Adjusting the Fit

For maximum comfort during long gaming sessions, adjust the headset to fit your head properly:

- Adjust the headband by sliding the ear cups up or down until they rest comfortably over your ears.
- The ear cups can rotate horizontally to conform to the shape of your head, ensuring a snug fit.

OPERATING INSTRUCTIONS

Microphone Usage

The GXT 492 features a detachable microphone for clear voice communication.

- To attach the microphone, align the connector with the port on the left ear cup and push firmly until it clicks into place.
- Position the flexible microphone arm close to your mouth for optimal voice pickup.
- A pop filter is included to reduce plosive sounds (like 'p' and 'b') for clearer audio. Slide it over the microphone head.
- When not needed, the microphone can be easily detached and stored.

Image: The Trust GXT 492 Gaming Headset with the microphone detached, clearly showing the 3.5mm jack where the microphone connects. This illustrates the modular design of the microphone.

Volume Control and Mute

The headset features convenient on-ear controls for quick adjustments:

- **Volume Control:** Locate the volume wheel on one of the ear cups. Rotate it up to increase volume and down to decrease volume.
- **Microphone Mute:** A dedicated switch or button for microphone mute is located on the ear cup. Toggle it to mute or unmute your microphone.

KEY FEATURES

The Trust GXT 492 Carus headset is engineered with features to enhance your gaming experience:

- **Powerful Audio Performance:** Equipped with 50mm drivers, the headset delivers rich, clear sound, allowing you to hear subtle in-game audio cues like footsteps and explosions with precision.

- **Superior Comfort:** Designed for extended wear, the headset features a textile circumaural design and soft leatherette ear cups that provide maximum comfort and passive noise isolation. The adjustable headband and horizontally rotating ear cups ensure a perfect fit for various head sizes.

- **Clear Communication:** The detachable microphone offers clear voice pickup, essential for team communication. The included pop filter further refines audio quality.

- **Multi-Platform Compatibility:** Seamlessly connect to your PC, laptop, PlayStation, Xbox, or Nintendo Switch via the universal 3.5mm jack, offering versatility across your gaming setup.

Manufacturer	Trust
Package Dimensions	7.68 x 6.85 x 3.7 inches
Color	Black
Ear Placement	Over Ear
Form Factor	Over Ear
Headphones Jack	3.5 mm Jack

TROUBLESHOOTING

If you encounter issues with your Trust GXT 492 Gaming Headset, please refer to the following common solutions:

No Sound from Headset

- **Check Connection:** Ensure the 3.5mm audio cable is fully and securely plugged into both the headset and your device's audio port.
- **Volume Level:** Verify that the volume control wheel on the headset is turned up. Also, check the audio output volume settings on your connected device (PC, console, etc.).
- **Correct Output Device:** On your computer or console, ensure the headset is selected as the default audio output device in your sound settings.
- **Test on Another Device:** Try connecting the headset to a different device to determine if the issue is with the headset or the original device.

Microphone Not Working

- **Microphone Connection:** Ensure the detachable microphone is firmly inserted into its port on the headset.
- **Mute Switch:** Check if the microphone mute switch on the headset is in the "unmute" position.
- **Device Settings:** On your computer or console, ensure the headset microphone is selected as the default input device in your sound or communication settings. Check microphone privacy settings on Windows 10/11.
- **Application Settings:** If using a specific application (e.g., Discord, Zoom, in-game chat), check its audio settings to ensure the correct microphone is selected and not muted within the application.
- **Test on Another Device:** Connect the headset to another device and test the microphone to isolate the problem.

MAINTENANCE

Proper care will extend the life of your headset:

- **Cleaning:** Use a soft, dry cloth to wipe down the ear cups and headband. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset.
- **Cable Care:** Avoid sharp bends or kinks in the cable. Do not pull on the cable to disconnect the headset; always grasp the plug.

WARRANTY AND SUPPORT

Trust products are manufactured to high quality standards. For information regarding warranty coverage, technical support, or service, please refer to the official Trust website or contact their customer support directly. Keep your proof of purchase for warranty claims.
