Casfuy F26-L

Casfuy F26-L Automatic Pet Feeder Instruction Manual

Model: F26-L

Introduction

The Casfuy F26-L Automatic Pet Feeder is designed to provide scheduled meals for your cats and small dogs, accommodating both wet and dry food. This feeder features a whisker-friendly design, precise portion control, and a battery-operated system for flexible placement. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and the well-being of your pet.

Safety Information

- Ensure that all 4 AA batteries are new and of the same specifications. Using batteries with different specifications or varying lifespans may affect the device's normal operation.
- The feeder is equipped with an anti-pinch sensor that halts and retracts the food tray if a paw is detected during rotation, ensuring your pet's safety.
- The top cover and food tray are crafted from food-grade, BPA-free ABS material.
- When cleaning, ensure electronic components remain dry. The control board is not detachable or waterproof.

Package Contents

Verify that all items are present in the package:

- Casfuy F26-L Auto Feeder (1 unit)
- Plastic Food Bowl (1 unit)
- Ice Packs (2 units)
- Top Lid (1 unit)
- User Manual (1 unit)

Product Overview

The Casfuy F26-L Automatic Pet Feeder consists of a main unit with a control panel, a removable food tray with four

compartments, a top lid, and a battery compartment on the underside.

Image: A top-down view of the feeder's food tray, illustrating the four distinct compartments for precise portion control of wet and dry food.

Setup

1. Battery Installation

The feeder operates on 4 AA batteries (not included). Install them into the battery compartment located on the underside of the unit.

Video: A demonstration of how to set up the Casfuy F26-L Automatic Pet Feeder, including battery installation and initial programming steps.

2. Food Tray Preparation

Fill the four compartments of the food tray with your pet's desired wet or dry food. The extra-wide, shallow slots are designed to prevent whisker fatigue.

- For wet food, place the two reusable ice packs (frozen for a minimum of 6 hours at -18 °C) into the designated slots beneath the food tray to help keep food fresh.
- Wet food is recommended to be consumed within 8 hours for optimal freshness and safety.

Operating Instructions

1. Setting Current Time

After installing batteries, the display will show the current time. Use the control buttons to set the correct time (12H/24H format toggle available).

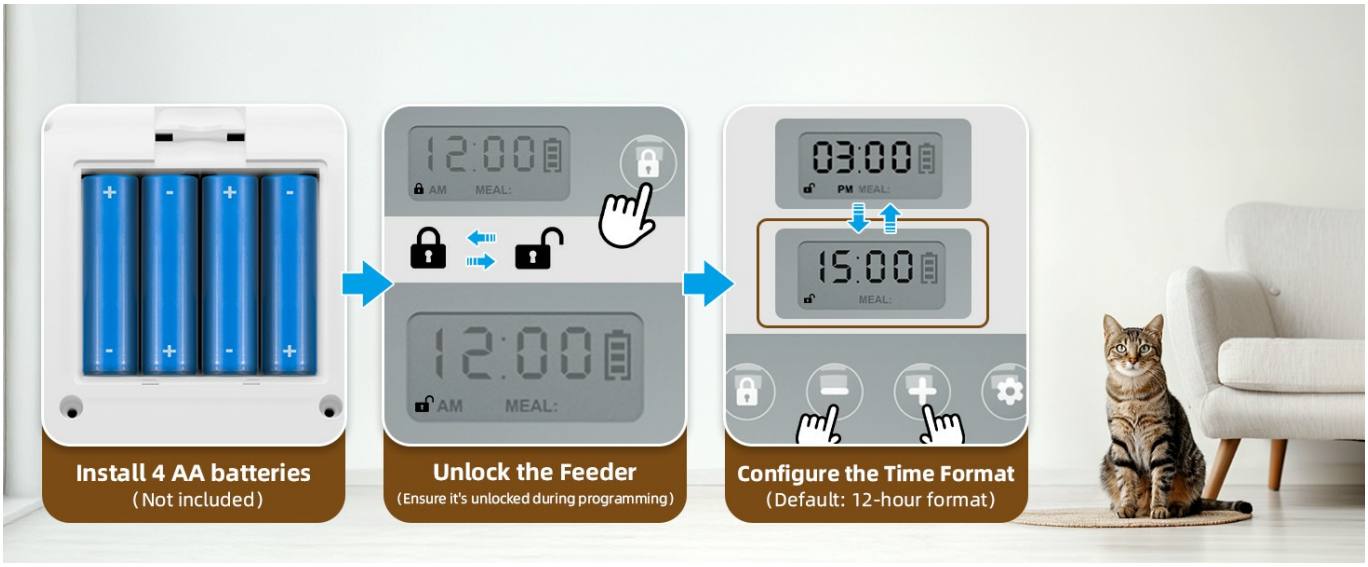

Image: A close-up of the feeder's LCD display and control panel, demonstrating how to configure the time format and unlock the device for programming.

2. Programming Meal Times

You can program up to 4 flexible meal times per day. The feeder repeats the schedules daily as long as it is powered on.

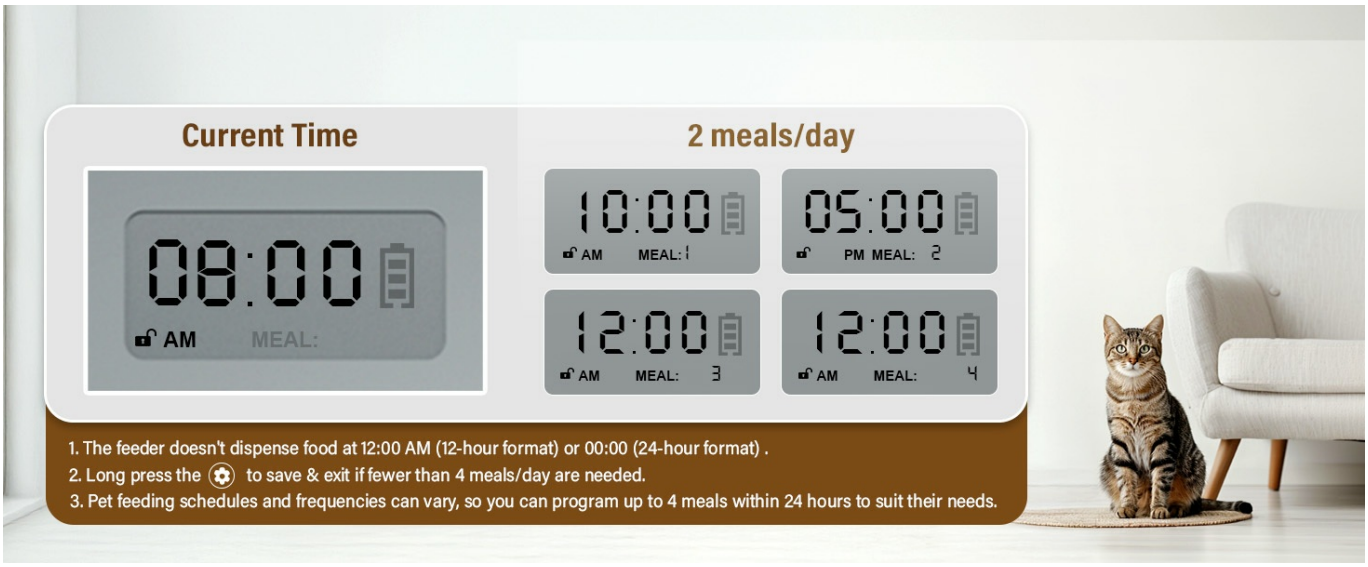

Image: The feeder's display showing how to program up to four distinct meal times within a 24-hour period.

3. Manual Feeding

To dispense a meal manually, use the designated button on the control panel. This will rotate the tray to the next available compartment.

Your browser does not support the video tag.

Video: A demonstration of the manual feeding function and the paw protection test, showing the feeder's safety mechanism.

4. Enable/Disable Feeding Beep

The feeder has an optional feeding beep. You can enable or disable this sound to suit your pet's sensitivity or your preference.

Image: The control panel displaying the option to toggle the feeding beep sound on or off.

5. Canceling a Meal

If you need to cancel a programmed meal, follow the instructions on the control panel. Long press the appropriate button to save and exit if fewer than 4 meals are needed.

Maintenance and Cleaning

Regular cleaning is essential to maintain hygiene, especially when using wet food.

- Remove the food bowl and top lid.
- Wash these parts with warm, soapy water.
- Ensure all parts are completely dry before reassembling.
- **Important:** The control board is not detachable or waterproof. Do not immerse the main unit in water.

TROUBLESHOOTING

Meal Icons Not Displaying After Programming?

If meal icons do not appear on the display after programming, consider the following:

- The feeder does not dispense food at 12:00 AM (12-hour format) or 00:00 (24-hour format).
- The meal number icon disappears once the feeding is complete and will light up again the next day.
- The feeder repeats the schedules as long as it's powered on. Any duplicate meal times will reset to 12:00 AM/00:00.

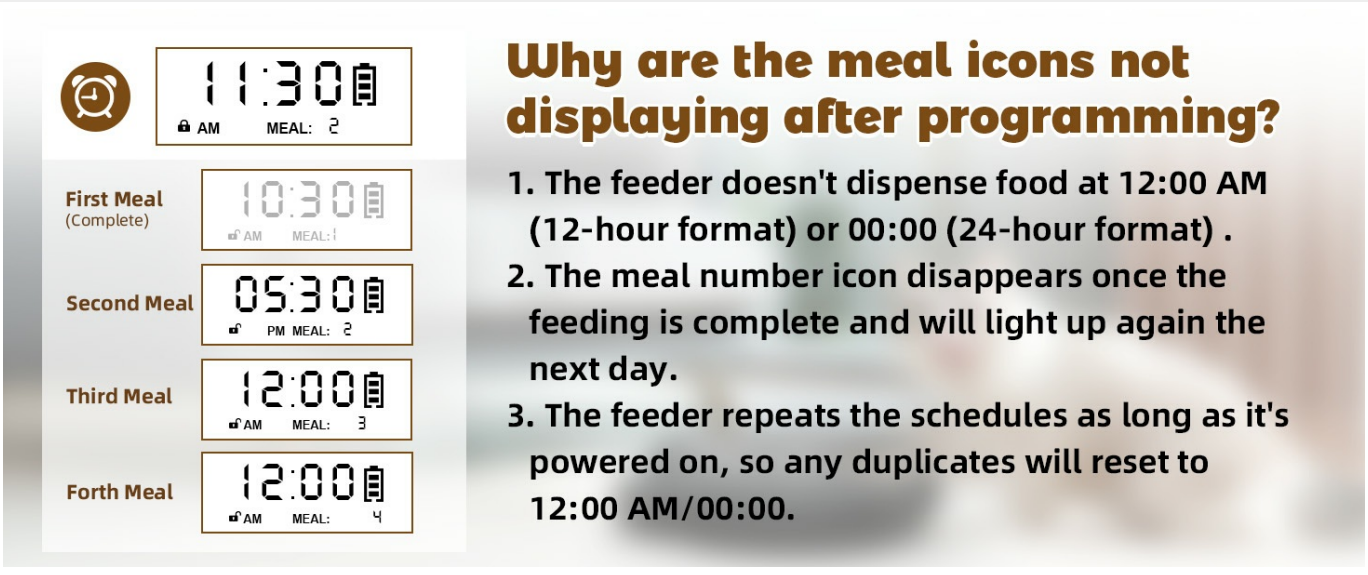

Image: The feeder's display illustrating common issues with meal icon visibility and their explanations.

General Issues

- **Feeder not turning/Error Code:** Ensure batteries are correctly installed and have sufficient charge. Replace all 4 AA batteries with new ones if issues persist.
- **Food not staying fresh:** Ensure ice packs are fully frozen and placed correctly. Wet food should be consumed within 8 hours.
- **Pet knocking over feeder:** The feeder is lightweight. Consider placing it in a corner or against a wall to prevent tipping.

Specifications

Feature	Detail
Product Dimensions	11.57"L x 10.47"W x 3.07"H (29.39 x 26.59 x 7.8 cm)
