PUPPY KITTY F14-W

PUPPY KITTY Automatic Cat Feeder User Manual

Model: F14-W

INTRODUCTION

Thank you for choosing the PUPPY KITTY Automatic Cat Feeder. This device is designed to provide convenient and reliable feeding for your pet, featuring remote control via a mobile application, flexible scheduling, voice recording, and freshness preservation. Please read this manual thoroughly before use to ensure proper operation and maintenance.

PACKAGE CONTENTS

Before setting up, please verify that all components are present in the package:

- Automatic Cat Feeder Unit (main body with food container)
- Stainless Steel Bowl
- Power Adapter (5V)
- USB Cable

- Desiccant Bag
- User Manual (this document)
- Placemat

Image: A flat lay of all items included in the package, including the feeder unit, stainless steel bowl, power adapter, USB cable, desiccant bag, and placemat.

SETUP

1. **Unpack and Assemble:** Carefully remove all components from the packaging. Place the stainless steel bowl into its designated slot on the feeder base.

2. **Power Connection:**

   - **Adapter Power:** Connect the USB cable to the 5V power adapter and plug it into a wall outlet. Insert the other end of the USB cable into the power port at the back of the feeder.

- **Battery Backup (Optional):** For backup power, insert three D-cell batteries (not included) into the battery compartment at the bottom of the feeder. *Note: When operating solely on battery power, the device will follow the pre-set feeding plan but cannot connect to Wi-Fi or the app for remote control.*

3. **Install Desiccant Bag:** Open the lid of the food container. Locate the desiccant bag holder on the underside of the lid. Insert the provided desiccant bag to help keep the food fresh. Close the lid securely.

4. **Fill Food Container:** Open the top lid and pour dry pet food into the transparent food container. Ensure the food size is appropriate for the dispenser mechanism. Close the lid firmly to maintain freshness and prevent pets from accessing the food.

5. **Download App:** Scan the QR code provided in the quick start guide or search for "Smart Life" in your mobile app store (iOS or Android) to download the application.

6. **Connect to Wi-Fi:**

   - Open the "Smart Life" app and register/log in.
   - Follow the in-app instructions to add a new device. Ensure your phone is connected to a 2.4GHz Wi-Fi network. The feeder supports 2.4G WiFi only.
   - The app will guide you through the pairing process, which typically involves resetting the feeder (refer to app instructions for specific button presses).

OPERATING INSTRUCTIONS

App Remote Control

The "Smart Life" app allows you to manage your pet's feeding schedule from anywhere.

- **Setting Feeding Schedule:** Within the app, navigate to the feeder's settings. You can set up to 10 meals per day, with each meal consisting of 1 to 10 servings (approximately 8±2g per serving). This flexibility helps manage your pet's diet effectively.
- **Manual Feeding:** Use the app to dispense food instantly, allowing you to reward your pet remotely.
- **Feeding Records:** The app provides a history of dispensed meals, helping you monitor your pet's eating habits.
- **Status Information:** Receive notifications and status updates regarding the feeder's operation.

Voice Recording

The feeder allows you to record a 10-second voice message that will play at meal times, calling your pet to eat.

1. **Record Message:** Press and hold the record button (usually located on the feeder or accessible via the app, refer to app for exact location) until you hear a beep. Speak your message clearly into the microphone.

2. **End Recording:** Release the button when finished. The message will automatically save.

3. **Playback:** The recorded message will play automatically before each scheduled meal.

MAINTENANCE

Cleaning

Regular cleaning ensures hygiene and proper functioning of the feeder. The following parts are removable for cleaning:

- Grain Container
- Base (removable for access to internal components, but do not wash the electronic base)
- Rotor (food dispensing mechanism)
- Feeding Container (stainless steel bowl)

1. **Disassembly:** Carefully detach the food container from the base. Remove the stainless steel bowl and the rotor mechanism.

2. **Washing:** Wash the grain container, stainless steel bowl, and rotor with mild soap and water. Rinse thoroughly.

3. **Drying:** Ensure all washed parts are completely dry before reassembling.*Important: Do not wash the main electronic base unit. Wipe it clean with a damp cloth if necessary.*

4. **Reassembly:** Reassemble all parts in reverse order, ensuring they are securely fitted.

Image: An exploded view of the feeder showing its detachable components, including the food container, lid, stainless steel bowl, and dispensing rotor, all suitable for washing.

Ensuring Food Freshness

To maintain the freshness and quality of your pet's food:

- **Desiccant Bag:** Replace the desiccant bag periodically (e.g., every 1-2 months) to absorb moisture and keep food dry.
- **Sealed Rotor:** The feeder features a sealed rotor design to prevent air and moisture from affecting the food.
- **Snap-on Lid:** Always ensure the top lid is securely snapped shut to prevent pests and maintain freshness.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	• Food container empty. • Food jammed in dispenser. • Power issue. • Incorrect schedule settings.	• Refill food container. • Check for blockages and clear them. Ensure food size is suitable. • Verify power adapter is connected or batteries are installed and charged. • Check app schedule settings.

Problem	Possible Cause	Solution
App cannot connect to feeder.	- Feeder not powered on. - Incorrect Wi-Fi network (not 2.4GHz). - Feeder in battery-only mode. - Network interference.	- Ensure feeder is plugged in or has charged batteries (and is not in battery-only mode). - Connect your phone and feeder to a 2.4GHz Wi-Fi network. - If using batteries, connect to adapter for app functionality. - Restart feeder and router. Try re-pairing the device in the app.
Voice recording not playing.	- No message recorded. - Volume too low.	- Record a new message following instructions. - Check app settings for voice volume.

Specifications

Model Number	F14-W
Capacity	3 Liters
