Aipsun HT038

Aipsun HT038 Cordless Rechargeable Table Lamp User Manual

Model: HT038

1. Introduction

Thank you for purchasing the Aipsun HT038 Cordless Rechargeable Table Lamp. This manual provides essential information for the safe and efficient use of your new lamp. Please read it thoroughly before operation and retain it for future reference.

2. Safety Instructions

- Do not expose the lamp to water or excessive moisture. This product is **not waterproof**.
- Avoid disassembling the lamp. Internal components are not user-serviceable.
- Use only the provided Type-C charging cable and a compatible USB power adapter (not included) for charging.
- Keep the lamp away from heat sources and direct sunlight to prevent battery damage.
- Ensure the lamp is placed on a stable, flat surface to prevent tipping.
- Do not look directly into the LED light source for extended periods.

3. Package Contents

Verify that all items are present in your package:

- Aipsun HT038 Cordless Rechargeable Table Lamp (2 units)
- USB Type-C Charging Cable (2 units)
- User Manual

4. Product Overview

The Aipsun HT038 is a portable, battery-operated table lamp featuring touch control for stepless dimming and color temperature adjustment. Its compact design makes it suitable for various indoor settings.

Image 1: Two Aipsun HT038 Cordless Table Lamps. These lamps feature a black base, a slender black stem, and a white linen lampshade, providing ambient lighting.

5. Setup

5.1 Initial Charging

Before first use, fully charge the lamp. The built-in 6000mAh battery requires approximately 4-5 hours for a full charge.

1. Locate the Type-C charging port on the base of the lamp.
2. Connect the provided USB Type-C cable to the lamp's port.
3. Connect the other end of the USB cable to a compatible USB power adapter (e.g., phone charger, computer USB port).
4. The indicator light on the lamp base will show red during charging and turn green when fully charged.

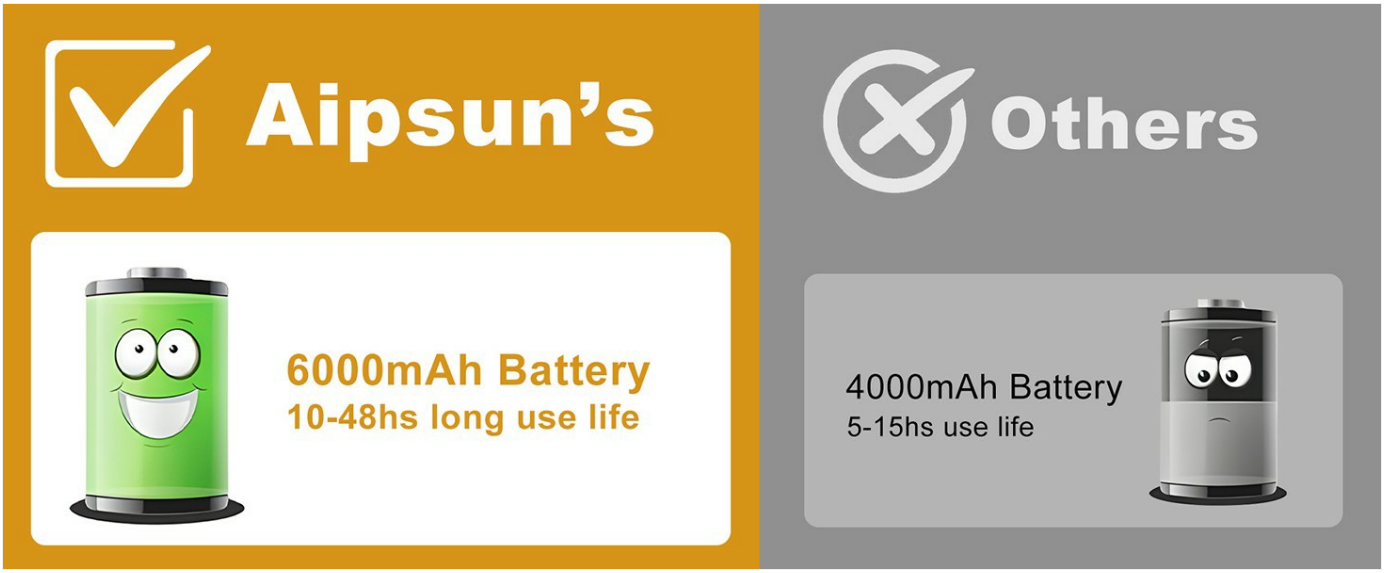

Image 2: Close-up view of the lamp base showing the Type-C charging port and the indicator light changing from red (charging) to green (fully charged).

5.2 Placement

Due to its cordless design, the Aipsun HT038 can be placed in various locations. Ensure the surface is stable to prevent accidental falls.

Image 3: An Aipsun cordless table lamp positioned on a bedside table in a bedroom, demonstrating its portability and suitability for various indoor environments.

6. Operating Instructions

The lamp features a touch-sensitive switch located on its base for easy control.

6.1 Power On/Off and Brightness Adjustment

1. **To Turn On/Off:** Briefly touch the switch on the lamp base.
2. **To Adjust Brightness (Stepless Dimming):** Press and hold the switch. The brightness will cycle between 10% and 100%. Release the switch at your desired brightness level.

Image 4: Illustration of the touch control on the lamp base. A short touch turns the lamp on or off, while a long press adjusts the brightness from 10% to 100%.

Image 5: Visual representation of the stepless dimming feature, showing the lamp's light output at 30%, 60%, and 100% brightness levels.

6.2 Color Temperature Adjustment

The lamp offers three color temperature settings: 3000K (Warm Light), 4000K (Neutral Light), and 6500K (White Light).

1. When the lamp is on, briefly touch the switch to cycle through the color temperature options.
2. Each short touch will switch to the next color temperature.

Image 6: Demonstrates the touch switch functionality. A short press changes the light color temperature, while a long press adjusts brightness.

6.3 Memory Function

The lamp is equipped with a memory function. When you turn the lamp on again, it will automatically restore the last used brightness and color temperature settings.

7. Maintenance

7.1 Cleaning

To clean the lamp, ensure it is turned off and disconnected from any charging source.

- Wipe the exterior surfaces with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish.
- For the linen lampshade, gently dust with a soft brush or cloth.

7.2 Battery Care

To prolong battery life:

- Avoid completely draining the battery frequently.
- If storing the lamp for an extended period, charge it to approximately 50% every three months.

8. Troubleshooting

Problem	Possible Cause	Solution
Lamp does not turn on.	Battery is depleted.	Charge the lamp using the provided Type-C cable.
Lamp does not charge.	Charging cable or adapter is faulty.	Try a different Type-C cable or USB power adapter. Ensure connections are secure.
Brightness or color temperature cannot be adjusted.	Incorrect touch operation.	Ensure you are using a long press for brightness and a short press for color temperature.
Lamp flickers or turns off unexpectedly.	Low battery.	Recharge the lamp.
