Minthouz MT-CW105

Minthouz Qi2 Magnetic Wireless Charger

Model: MT-CW105 - Instruction Manual

1. Product Overview

The Minthouz Qi2 Magnetic Wireless Charger (Model MT-CW105) is designed to provide efficient and convenient wireless charging for compatible devices. This charger features 15W fast charging capabilities and magnetic alignment for a secure connection.

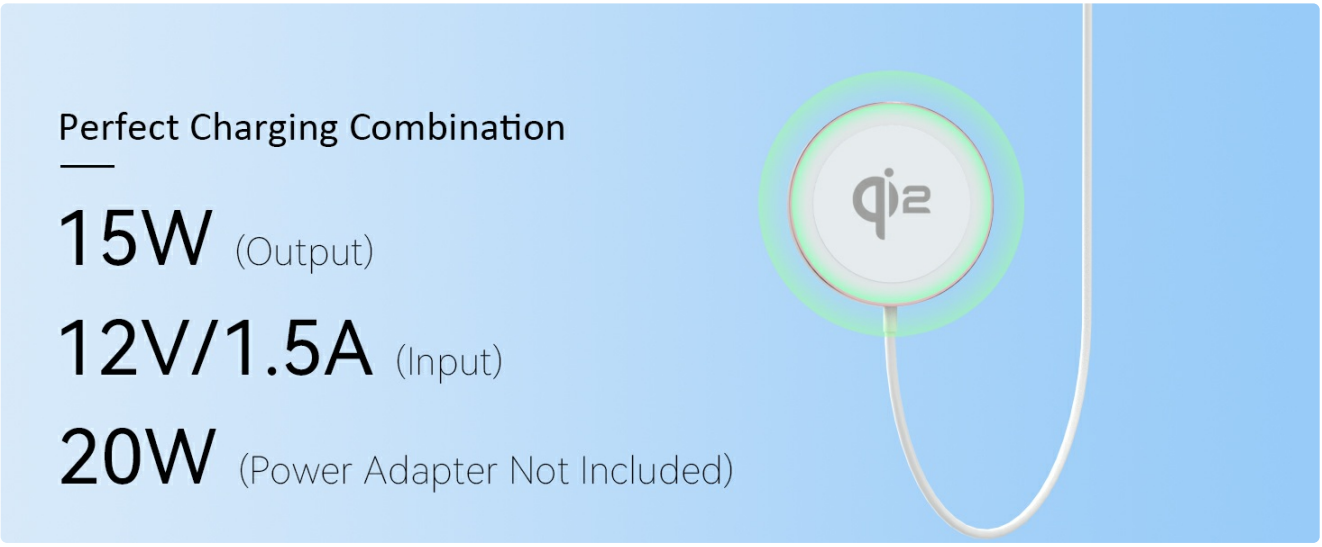

Image: The Minthouz Qi2 Magnetic Wireless Charger, Model MT-CW105, highlighting its key features including overcharge protection, temperature control, anti-fingerprint, anti-scratch, over-voltage protection, and short-circuit protection.

2. What's in the Box

- 1 x Qi2.0 Magnetic Wireless Charger
- 1 x Quick Start Guide
- 2 x USB Cable

Please note: A power adapter is not included and must be purchased separately. For optimal charging, a PD 20W or higher adapter is recommended.

3. Setup Instructions

1. **Connect the Charger:** Plug the USB-C end of the charging cable into a compatible power adapter (not included). Ensure the adapter is rated for PD 20W or higher for optimal performance.
2. **Power On:** Plug the power adapter into a wall outlet. The charger is now ready for use.

Image: A diagram illustrating the optimal power input and output specifications for the charger, emphasizing the need for a 20W power adapter.

4. Operating Instructions

1. **Place Your Device:** Position your compatible smartphone (iPhone 12-16 series, other Qi-enabled devices with magnetic capabilities) or AirPods on the center of the wireless charging pad.
2. **Magnetic Alignment:** The charger features strong magnetic suction to automatically align your device for efficient charging. Ensure the device is centered on the pad for the best connection.
3. **Charging Indication:** Your device's screen will typically display a charging indicator or animation when properly connected and charging.

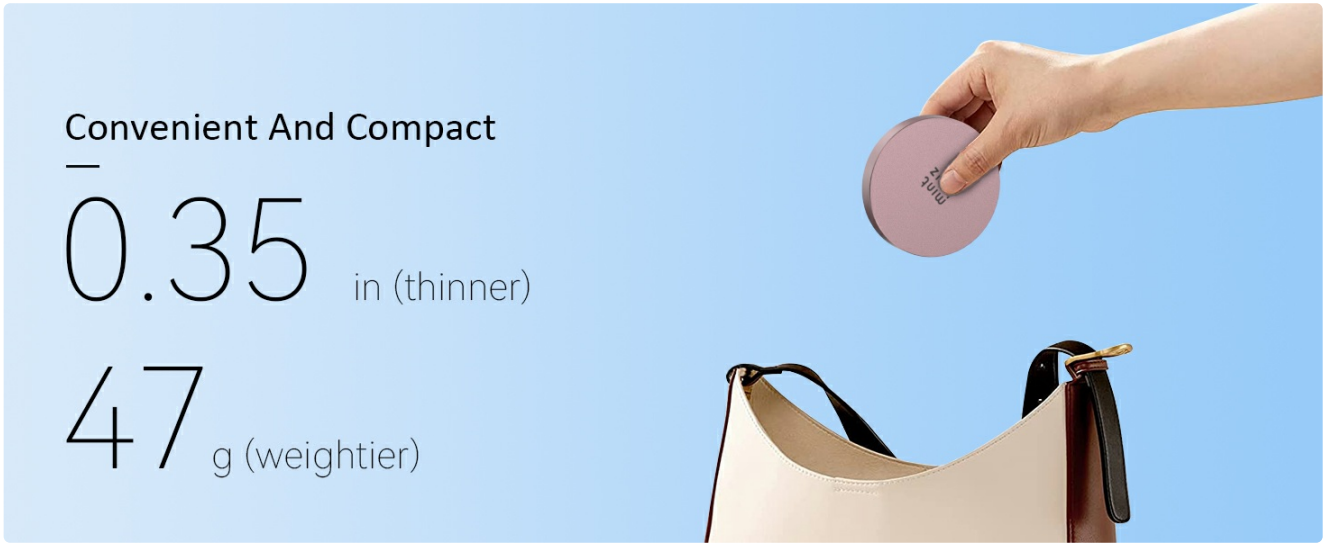

Image: A hand demonstrating the magnetic attachment of an iPhone to the wireless charger, illustrating the strong magnetic suction and effective transmission distance of 2-6mm.

Image: A graphic comparing the charging speed of the Minthouz wireless charger (14 min for 15% to 20% on iPhone 15) against an original wireless charger (20 min) and a Qi1 wireless charger (45 min).

5. Safety Information

The Minthouz Qi2 Magnetic Wireless Charger incorporates several safety features to protect your devices and ensure safe operation:

- **Foreign Object Detection (FOD):** Automatically detects and prevents charging if foreign metal objects are placed on the charging surface.
- **Over Current Protection:** Safeguards against excessive current flow, protecting your device from damage.
- **Over Temperature Protection:** Monitors the charger's temperature and reduces power output or shuts down if it becomes too hot.
- **Input Under-Voltage Lockout:** Prevents operation if the input voltage is too low, ensuring stable power delivery.

It is normal for devices to become slightly warm during wireless charging. If your device or the charger experiences excessive heat, discontinue use and consult the troubleshooting section.

6. Specifications

Feature	Detail
Product Dimensions	2.28 x 2.28 x 0.35 inches
Item Weight	3.52 ounces
Connector Type	USB Type C
Compatible Devices	Cellular Phones
Compatible Phone Models	iPhone (12-16 Series), Samsung (5-10W), Huawei/LG (7.5W), AirPods (3W) and other Qi-Enabled Devices with magnets.
Special Feature	Magsafe Compatible
Input Voltage	5 Volts

Amperage	3 Amps
Wattage	15 watts (Max)

Image: A compatibility chart illustrating the charger's support for 15W fast charging for iPhone series, 5-10W for Samsung series, 7.5W for Huawei/LG series, and 3W for AirPods/other cell phones, noting that it only supports iPhone or Android models with magnets.

7. Troubleshooting

- **Device Not Charging:**
  - Ensure the charger is properly connected to a working power adapter and outlet.
  - Verify your device is Qi-enabled and supports magnetic wireless charging.
  - Remove any thick phone cases or metallic objects between your device and the charger.
  - Reposition your device on the charging pad to ensure proper magnetic alignment.
- **Slow Charging:**
  - Confirm you are using a PD 20W or higher power adapter. Lower wattage adapters may result in slower charging speeds.
  - Ensure your device is centered on the charging pad for optimal power transfer.
- **Device or Charger Getting Warm:**
  - A slight increase in temperature during wireless charging is normal.
  - If the device or charger becomes excessively hot, remove the device immediately and discontinue use. Check for foreign objects or ensure proper ventilation.

8. Warranty and Support

For warranty information, product support, or to view other Minthouz products, please visit the official Minthouz website or their social media pages. Contact information can typically be found on the product packaging or the manufacturer's website.

You can find more information and support by scanning the QR codes provided on the product packaging, which link to the Minthouz website and Facebook page.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
