SETUP AND INSTALLATION

Follow these steps to properly install the BT40 headset into your helmet:

1. **Prepare Earphones:** Take the helmet headphones from the box. Attach the "Magic Tape" (Velcro adhesive pads) to the back of both earphones.
2. **Position Earphones:** Remove the protective tape paper from the Velcro on the earphones. Carefully position and stick the earphones into the helmet's ear recesses on both sides. Ensure proper alignment before pressing firmly.
3. **Secure Headset:** Once the Velcro is attached to the helmet, secure the headset earphones to these Velcro pads.
4. **Microphone Placement:** Position the microphone arm so that the microphone is close to your mouth for clear communication.
5. **Final Check:** Ensure all components are securely attached and comfortable within the helmet.

Important Note: Before ordering, please check the inner size of your helmet to ensure a comfortable fit for the headset.

The headset's ultra-thin design (0.35 inches) is suitable for most helmets without causing discomfort.

OPERATING INSTRUCTIONS

Power On/Off and Pairing

- **Power On:** Press and hold the Power button (usually the middle button on the control unit) until the indicator light illuminates.
- **Power Off:** Press and hold the Power button until the indicator light turns off.
- **Pairing:** When powered on for the first time or when entering pairing mode, the headset will automatically search for Bluetooth devices. On your smartphone or other Bluetooth-enabled device, search for "BT40" in the Bluetooth settings and select it to connect.
- **Automatic Connection:** After initial pairing, the headset will automatically connect to the last paired device when powered on, if the device is within range.

Call Management

- **Answer Call:** The headset supports automatic answering of incoming calls.
- **End Call:** Press the Power button once to end an active call.
- **Reject Call:** Press and hold the Power button for approximately 2 seconds to reject an incoming call.

Music Playback

- **Play/Pause:** Press the Power button once to play or pause music.
- **Volume Up:** Press the "+" button to increase volume.
- **Volume Down:** Press the "-" button to decrease volume.
- **Next Song:** Press and hold the "+" button for approximately 2 seconds to skip to the next track.
- **Previous Song:** Press and hold the "-" button for approximately 2 seconds to go to the previous track.

Voice Assistant

- **Activate Voice Assistant:** Double-click the Power button to activate your smartphone's voice assistant (e.g., Siri, Google Assistant).

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials.
- **Water Exposure:** While the headset is IP67 waterproof, prolonged submersion or exposure to high-pressure water jets should be avoided. Ensure the charging port cover is securely closed when not charging.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the headset regularly, even if not in use for extended periods.
- **Microphone Sponge:** Replace the noise-reducing sponge head on the microphone if it becomes worn or damaged to maintain optimal voice clarity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Headset does not power on.	Low battery.	Charge the headset for at least 2 hours using the provided USB cable.
Cannot pair with device.	Bluetooth is off on the device; headset is not in pairing mode; too far from device.	Ensure Bluetooth is enabled on your device. Make sure the headset is powered on and in pairing mode. Move the headset closer to the device (within 10 meters). Try restarting both devices.

No sound or low volume.	Volume too low on headset or connected device; improper connection.	Increase volume using the "+" button on the headset and on your connected device. Re-pair the headset with your device.
Microphone not picking up voice clearly.	Microphone not positioned correctly; damaged sponge cover.	Adjust the microphone arm so the microphone is close to your mouth. Replace the noise-reducing sponge head if it is worn.
Intermittent connection.	Interference; device too far; low battery.	Move away from sources of strong electromagnetic interference. Ensure the headset is within 10 meters of the connected device. Charge the headset.

WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the contact details provided with your purchase or visit the official JZAQ website. If you experience any dissatisfaction or issues, please contact customer service for assistance.
**Contact:** Please refer to your purchase documentation or the seller's information on the platform where you purchased the product.
