Aeitto WBJ15NC

Aeitto Countertop Ice Maker

USER MANUAL

Model: WBJ15NC

1. Introduction

Thank you for choosing the Aeitto Countertop Ice Maker. This manual provides essential information for the safe and efficient operation of your new appliance. Please read it thoroughly before use and retain it for future reference.

Image: The Aeitto Countertop Ice Maker, a compact and efficient appliance designed for home use.

2. Key Features

- **High Ice Production:** Capable of producing up to 55 lbs of ice per day, ensuring a continuous supply for various needs.
- **Rapid Ice Release:** Produces ice rapidly, with the first batch ready in approximately 5 minutes.
- **Large Capacity:** Features a 3.2 lbs ice basket and a 3.6 L water tank, reducing the frequency of refills.
- **Chewable Nugget Ice:** Creates soft, chewable nugget ice, ideal for drinks and preserving beverage flavor.
- **Auto Continuous Ice Making:** Equipped with an infrared sensor that detects ice levels, automatically stopping production when full and resuming when ice levels are low.
- **Auto-Cleaning Function:** Simplifies maintenance with a one-touch self-cleaning cycle to remove limescale and ensure fresh ice.

Strong Ice-Making Capacity

3. What's in the Box

Upon unboxing your Aeitto Ice Maker, please ensure all the following components are present:

- Nugget Ice Maker (Main Unit)
- Ice Scoop
- Ice Basket

4. Setup Guide

4.1 Unboxing and Placement

Carefully remove the ice maker and all packaging materials from the box. Place the unit on a stable, level surface away from direct sunlight and heat sources. Ensure there is adequate ventilation around the appliance.

4.2 Initial Cleaning

Before first use, it is recommended to clean the ice maker. The unit features an auto-cleaning function for convenience. Refer to the 'Maintenance' section for detailed instructions on how to perform the auto-cleaning cycle.

4.3 Adding Water

Open the top lid of the ice maker. Fill the water reservoir with clean, potable water up to the MAX fill line. Do not overfill.

5. Operating Instructions

5.1 Control Panel Overview

Image: Close-up of the ice maker's control panel, showing indicators for 'Making Ice', 'Ice Full', 'Add Water', 'Clean', and 'Power'. The control panel features indicator lights and buttons for easy operation:

- **MAKING ICE:** Green light indicates ice production is active.
- **ICE FULL:** Light illuminates when the ice basket is full.
- **ADD WATER:** Light illuminates when the water reservoir needs refilling.
- **CLEAN (HOLD FOR 3 SEC):** Press and hold for 3 seconds to activate the auto-cleaning function.
- **POWER:** Button to turn the ice maker On/Off.

5.2 Making Ice

After adding water and ensuring the ice basket is in place, press the **POWER** button. The 'MAKING ICE' indicator will light up, and the unit will begin the ice-making process. The first batch of nugget ice will typically be ready within 5 minutes.

Auto Continuous Ice Making

Always available

Always have ice ready for you, no need to wait to start.

Induction infrared

Ice making stops when ice is above infrared and resumes after 30 minutes when it is below infrared

Note: Ice maker has no refrigeration function. It is recommended to store ice in the refrigerator.

Image: Illustration of the infrared induction system that enables auto continuous ice making, stopping when ice is full and resuming when needed.

Note: The ice maker does not have a refrigeration function for storing ice long-term. It is recommended to transfer ice to a freezer for prolonged storage.

5.3 Using the Ice Scoop

Once ice is produced, use the provided ice scoop to transfer the ice from the basket to your desired container or beverage. The scoop is designed for easy and hygienic serving.

6. Maintenance

6.1 Auto-Cleaning Function

The ice maker is equipped with an auto-cleaning function to simplify maintenance and prevent limescale buildup. To activate:

1. Ensure the water reservoir is filled with clean water.

2. Press and hold the **CLEAN** button for 3 seconds.
3. The unit will perform a cleaning cycle. Once complete, drain the water.

6.2 Regular Cleaning

For optimal performance and hygiene, regularly clean the ice maker manually:

- Unplug the appliance before cleaning.
- Remove the ice basket and clean it with mild detergent and warm water. Rinse thoroughly.
- Wipe the interior and exterior surfaces of the ice maker with a soft cloth dampened with mild detergent.
- Ensure all parts are completely dry before reassembling and using the unit.

6.3 Storage

If the ice maker will not be used for an extended period, drain all water from the reservoir, clean the unit thoroughly, and allow it to dry completely. Store it in a cool, dry place away from direct sunlight.

7. Troubleshooting

If you encounter issues with your ice maker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Ice maker not turning on.	No power supply.	Ensure the power cord is securely plugged into a working outlet. Check the circuit breaker.
'ADD WATER' indicator is on.	Water reservoir is empty or low.	Refill the water reservoir with clean, potable water up to the MAX fill line.
'ICE FULL' indicator is on.	Ice basket is full.	Remove ice from the basket. The unit will resume ice production automatically.
Ice production is slow or ice is not forming.	Ambient temperature is too high; water temperature is too high; unit needs cleaning.	Ensure the unit is in a cool environment. Use cold water. Perform an auto-cleaning cycle.
Unusual noise during operation.	Unit is not level; internal components are settling.	Ensure the ice maker is on a flat, stable surface. Minor noises are normal during operation. If noise is excessive or persistent, contact customer support.

If the problem persists after attempting these solutions, please contact Aeitto customer support for assistance.

8. Specifications

Specification	Value
Brand	Aeitto
Model Name	WBJ15NC
Product Dimensions (D x W x H)	16.9" x 9.84" x 16.9"
Capacity	55 Pounds (per day)
Refrigerant	R600a
Weight	32.6 Pounds

9. Warranty & Support

The Aeitto Countertop Ice Maker comes with a manufacturer's warranty. Please refer to the warranty card included in your packaging for specific terms and conditions. For technical support, troubleshooting assistance, or warranty claims, please contact Aeitto customer service through the contact information provided on the product packaging or

the official Aeitto website.

Answered questions about this manual

Why does my Aeitto WBJ15NC ice maker run for 15 minutes and then flash the 'Clean' light and turn off?

Based on the Aeitto WBJ15NC manual and product behavior, if your unit is flashing the "Clean" light and turning off after a short period, it may be stuck in a cleaning mode or sensing...

[Read full answer](#)

My Aeitto WBJ15NC ice maker keeps entering a cleaning cycle instead of making ice. When I turn it on, it runs for 15 minutes and then the cleaning indicator lights up. How do I reset the machine or get it to finally make ice?

It sounds like your Aeitto WBJ15NC is stuck in a cycle that prevents ice production, likely due to a sensor issue or a specific startup sequence. Based on the manual and product behavior, here...
