GOODEE YG600-Movin

GooDee Smart 4K Projector YG600-Movin User Manual

Model: YG600-Movin

1. INTRODUCTION

Thank you for choosing the GooDee Smart 4K Projector YG600-Movin. This manual provides essential information for setting up, operating, and maintaining your projector to ensure optimal performance and longevity. Please read it thoroughly before use.

2. WHAT'S IN THE BOX

- GooDee Smart 4K Projector YG600-Movin
- Projector Lens Cover
- Cleaning Kit
- HDMI Cable
- Power Cord
- Remote Control
- User Manual (this document)

3. PRODUCT OVERVIEW

The GooDee YG600-Movin is a smart 4K projector designed for home theater and outdoor use, featuring 5G Wi-Fi, Bluetooth 5.2, Dolby Audio, and built-in streaming apps. It delivers a native 1080P resolution with 800 ANSI lumens brightness and supports up to a 400-inch display.

Image: Rear view of the projector displaying various ports including HDMI, USB, AV, and audio output.

- **Top Panel Controls:** Power button, navigation buttons (up, down, left, right, OK), menu button, back button, and focus adjustment dial.
- **Rear Ports:** 2x HDMI inputs, 2x USB inputs, 1x AV input, 1x Audio output (3.5mm headphone jack).

4. SETUP

4.1. Placement

Place the projector on a stable, flat surface. Ensure there is adequate ventilation around the device. For optimal viewing, position the projector directly in front of your projection surface (wall or screen).

4.2. Power Connection

Connect the provided power cord to the projector's power input and then to a power outlet.

4.3. Remote Control Pairing

When using the remote control for the first time, it may need to be paired with the projector. Follow the on-screen instructions that appear upon initial power-on. Typically, this involves holding specific buttons on the remote close to the projector until the remote's light flashes, indicating successful pairing.

Your browser does not support the video tag.

Video: This video demonstrates how to select the language and navigate the system settings on the GooDee Smart Projector, including the remote control pairing process.

4.4. Focus and Keystone Adjustment

Adjust the focus dial on the projector to achieve a clear image. Use the keystone correction feature (manual adjustment via the projector's menu or remote) to correct distorted images if the projector is not perfectly perpendicular to the screen. The projector supports horizontal and vertical keystone adjustments.

4.5. Network Connection (Wi-Fi)

To access smart features and streaming apps, connect your projector to a Wi-Fi network. Navigate to the 'Settings' menu, select 'Network & Internet', and choose your preferred 5G or 2.4G Wi-Fi network. Enter the password if required.

5. OPERATING INSTRUCTIONS

5.1. Navigating the Menu

Use the navigation buttons on the projector's top panel or the remote control to browse through the main menu. The main menu provides access to various functions such as input selection, media playback, and settings.

5.2. Using Built-in Apps

The projector comes with pre-installed streaming applications like Prime Video and YouTube. Access these apps directly from the main menu to enjoy movies and shows without needing external devices. More apps can be downloaded from the App Store.

Your browser does not support the video tag.

Video: This video showcases the GooDee Smart Projector's ability to run apps like Netflix directly, demonstrating its smart features.

5.3. Connecting External Devices

The projector supports multiple input sources:

- **HDMI:** Connect devices like TV sticks, gaming consoles, or laptops using the two HDMI ports.
- **USB:** Plug in USB drives to play movies, music, or view photos and office documents.
- **AV:** Use the AV port for older devices with composite video output.

5.4. Screen Mirroring

The projector supports wireless screen mirroring for iOS, Android, and Windows devices. Note that due to copyright protection, some streaming apps may not support screen mirroring from mobile phones.

5.5. Bluetooth Audio

Connect external Bluetooth speakers or headphones to the projector for an enhanced audio experience. The projector features Bluetooth 5.2 and Dolby Audio for clear and powerful stereo surround sound.

5.6. Zoom Function

The projector offers a 50%-100% zoom function, allowing you to adjust the screen size without physically moving the projector. This is particularly useful for achieving the desired display size up to 400 inches in various environments.

6. MAINTENANCE

6.1. Cleaning the Lens

Regularly clean the projector lens using the provided cleaning kit or a soft, lint-free cloth. Avoid abrasive materials that could scratch the lens.

6.2. Dust Removal

The projector has a dust removal port. Gently wipe the screen inside this port with a cotton swab to remove accumulated dust. This helps maintain image clarity and prolong the projector's lifespan.

Video: This video demonstrates the proper method for cleaning the screen inside the GooDee Smart Projector to remove dust.

7. TROUBLESHOOTING

If you encounter any issues with your GooDee Smart 4K Projector, please refer to the following general troubleshooting tips:

- **No Power:** Ensure the power cord is securely connected to both the projector and the power outlet.
- **No Image:** Check all input cable connections (HDMI, AV, USB). Verify the correct input source is selected in the projector's menu. Adjust focus and keystone.
- **Blurred Image:** Adjust the focus dial. Ensure the projector is placed at an appropriate distance from the screen.
- **No Sound:** Check audio connections. Ensure the volume is not muted or set too low. If using external speakers, verify their connection and power.
- **Remote Not Responding:** Ensure the remote control batteries are correctly inserted and charged. Re-pair the remote if necessary.
- **Wi-Fi/Bluetooth Connectivity Issues:** Ensure the projector is within range of your Wi-Fi router or Bluetooth device. Reconnect to the network or re-pair the Bluetooth device.

For more detailed troubleshooting or persistent issues, please contact GooDee customer support.
