KUKIHO CarPlay

KUKIHO 2-in-1 Wireless CarPlay & Android Auto Adapter Instruction Manual

Brand: KUKIHO | **Model:** CarPlay

1. Introduction

The KUKIHO 2-in-1 Wireless CarPlay & Android Auto Adapter seamlessly connects your smartphone to your car's infotainment system, enabling wireless use of CarPlay or Android Auto. Designed for convenience and versatility, this adapter allows you to switch between CarPlay and Android Auto with ease, making it a perfect choice for vehicles with mixed-device usage. It features a smart LED light that changes color based on the connection type: green for CarPlay and blue for Android Auto.

2. Setup Instructions

Follow these steps to connect your KUKIHO Wireless Car Adapter:

1. **Check Car Compatibility:** Ensure your car supports wired CarPlay or Android Auto. Look for the CarPlay or Android Auto icon in your car's stereo menu.
2. **Connect the Adapter:** Plug the KUKIHO adapter into your car's USB port. Use the provided USB-C adapter if your car only has USB-C ports. The adapter's LED indicator will light up.
3. **Enable Wireless Functions on Phone:** On your iPhone or Android device, ensure that Wi-Fi and Bluetooth are enabled. No other Wi-Fi connections are needed at this stage.
4. **Pair via Bluetooth:** Go to your phone's Bluetooth settings. Search for the Bluetooth device named "AIBox-BT-XXXX" (where XXXX is a unique identifier). Follow the prompts to pair. Allow synchronization if requested.
5. **Confirm Connection:** Once paired, click "Use CarPlay" or "Use Android Auto" on your phone. The car's display should then show your smartphone interface. The adapter's LED will turn green for CarPlay or blue for Android Auto.

3. Operating Instructions

Once connected, the KUKIHO adapter provides a seamless wireless experience for CarPlay and Android Auto.

- **Automatic Reconnection:** The adapter will automatically reconnect to your phone when Wi-Fi and Bluetooth are available, typically within 5 seconds of starting your car.
- **Control Methods:** You can control your car's infotainment system using various methods:
  - **Touchscreen Controls:** Directly interact with the car's display.
  - **OEM Control Knob:** Use your vehicle's built-in control knob.
  - **Steering Wheel Controls:** Utilize the buttons on your steering wheel for navigation and audio control.
  - **Voice Assistants:** Use voice commands (e.g., "Hey Siri" or "Ok Google") for hands-free operation.
- **App Access:** Access your favorite navigation, music, messaging, and communication apps directly on your car's screen.

4. Maintenance

To ensure optimal performance and longevity of your KUKIHO Wireless Car Adapter, follow these simple maintenance guidelines:

- **Keep Clean:** Regularly wipe the adapter with a soft, dry cloth to remove dust and debris. Avoid using liquid cleaners.
- **Avoid Extreme Temperatures:** Do not expose the adapter to extreme heat or cold, as this can affect its internal components.
- **Secure Placement:** Use the provided 3M adhesive pad to secure the adapter in a stable location within your car to prevent it from moving or being damaged during driving.
- **Firmware Updates:** Periodically check for firmware updates to ensure the best compatibility and performance. Updates can often be found by connecting to the adapter's local Wi-Fi network via a web browser (e.g., 192.168.1.101) and following the on-screen instructions.

5. Troubleshooting

If you encounter issues with your KUKIHO Wireless Car Adapter, try the following solutions:

- **No Connection:**
  - Ensure your car's wired CarPlay/Android Auto is functional with a direct cable connection.
  - Verify that the adapter is securely plugged into the USB port and its LED indicator is active.
  - Check that your phone's Bluetooth and Wi-Fi are turned on and that you have successfully paired with "AIBox-BT-XXXX".
  - Restart your car and phone, then try connecting again.
- **Intermittent Connection/Lag:**
  - Ensure there are no other devices interfering with the Wi-Fi or Bluetooth signals in your car.
  - Try a different USB port in your car if available.
  - Check for and install any available firmware updates for the adapter.
- **Audio Issues (e.g., no sound, cutting out):**
  - Verify your car's audio source is set correctly to CarPlay/Android Auto.
  - Adjust volume levels on both your phone and car stereo.

- Restart the connection process.

- **Apps Not Loading/Functioning:**
  - Ensure the apps are updated to their latest versions on your smartphone.
  - Some apps may not be fully optimized for CarPlay/Android Auto.

6. Specifications

Feature	Detail
Product Dimensions	1.18 x 0.79 x 0.39 inches
Item Weight	2.4 ounces (68 Grams)
Model Number	CarPlay
Brand	KUKIHO
Compatible Devices	Smartphone, Laptop (for updates)
Connector Type	USB Type C, USB Type A
Connectivity	Bluetooth 5.3, 5.8GHz Wi-Fi
