## 5. Maintenance

Regular maintenance ensures the longevity and optimal performance of your electric fireplace insert.

- **Cleaning:** Always unplug the unit from the power outlet before cleaning. Use a soft, damp cloth to wipe the exterior surfaces. Do not use abrasive cleaners or sprays.
- **Ventilation:** Ensure that the air intake and exhaust vents are kept clear of dust and debris to prevent overheating.
- **Storage:** If storing the unit for an extended period, ensure it is clean, dry, and stored in a safe, cool location.

## 6. Troubleshooting

If you encounter any issues with your WAQINBR Electric Fireplace Insert, please refer to the following basic troubleshooting steps:

- **No Power:** Check if the power cord is securely plugged into a working outlet. Ensure the power switch on the unit is in the 'ON' position.
- **No Heat:** Verify that the heater switch is activated. The flame effect can operate independently of the heat function.
- **Overheating:** If the unit shuts off unexpectedly, it may have overheated. Unplug the unit, wait 10-15 minutes for it to cool down, and check for any obstructions in the air vents before plugging it back in.
- **Unusual Noises:** If you hear unusual noises, immediately turn off and unplug the unit. Contact customer support.
