Contents of the KEiID Alarm Clock Radio package.

SETUP

Initial Power-Up

1. Connect the provided 5V2A Type-C power adapter to the device's power input port.
2. Plug the power adapter into a standard wall outlet. The clock display will turn on.
3. The device is powered by a corded 5V power adapter. A backup battery is built-in only for keeping the time running while the main power is unplugged.

Rear view of the device highlighting the power input and control buttons.

Setting Time and Date

The clock can auto-sync time and calendar from your phone when paired via Bluetooth. Alternatively, you can set it manually using the remote control or the top buttons.

- Use the remote control for easier time and date adjustments.
- Refer to the specific instructions in the included user manual for detailed steps on manual time setting.

OPERATING INSTRUCTIONS

Bluetooth Speaker Function

1. Press the "MODE" button on the remote or the device until "Bluetooth" mode is selected.
2. On your smartphone or other Bluetooth-enabled device, search for "KEiiD KD-S02" in the Bluetooth settings.
3. Select the device to pair. Once paired, you can stream audio wirelessly.

FM Radio Function

1. Ensure the FM antenna is properly connected to the device.
2. Press the "MODE" button until "FM Radio" mode is selected.
3. Use the tuning buttons on the remote control or device to find your desired FM stations.
4. You can preset up to 9 stations using the number buttons (1-9) on the remote control for quick access.

Natural Sound Machine

The device includes 9 built-in natural sounds. You can also customize sounds by changing files on the Micro SD card.

- Access the sound machine mode via the "MODE" button.
- Cycle through the available natural sounds.
- Set a sleep timer (30-90 minutes) to automatically turn off the sound.

Fall asleep more peacefully

Set a 30-90 minutes sleep timer, fall asleep with relaxing natural sounds in night.

 rain	 Stream	 fire	 wave	 bird
 fan	 train	 music	 cricket	

4-levels brightness night light, accompany you every night

The device offers various natural sounds for relaxation and sleep.

Night Light Function

The night light on the back of the device has 4 levels of brightness.

- Use the dedicated night light button on the device or remote to cycle through brightness levels.
- The night light automatically turns off after 8 hours.

Alarm Function

The device supports dual alarms.

- Set your desired alarm time using the remote control.
- Choose your alarm sound: music from the Micro SD card, FM radio, or a standard buzzer.
- Press the "SNOOZE" button on top of the device to temporarily silence the alarm.

Customize your wake-up experience with music or radio alarms.

Remote Control Usage

The included remote control provides convenient access to all functions.

- **Power Button:** Turns the device on/off.

- **MODE Button:** Cycles through Bluetooth, FM Radio, and Sound Machine modes.
- **Volume Buttons (+/-):** Adjusts the volume level.
- **Light Button:** Controls the night light brightness.
- **Number Buttons (0-9):** Used for setting time/date and selecting FM radio presets.
- **Playback Controls:** Play/Pause, Next/Previous track (for Bluetooth/SD card).
- **Alarm Button:** Accesses alarm settings.
- **Sleep Timer Button:** Sets the sleep timer duration.

MAINTENANCE

- Clean the device with a soft, dry cloth. Do not use liquid cleaners or aerosols.
- Keep the device away from water, high humidity, and extreme temperatures.
- Avoid dropping the device or subjecting it to strong impacts.
- Ensure proper ventilation when in use.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Device does not power on.	Ensure the power adapter is securely connected to both the device and a working power outlet. Verify the power outlet is functional.
Bluetooth connection fails.	Ensure the device is in Bluetooth mode. Check that Bluetooth is enabled on your external device and it is within range. Try unpairing and re-pairing the device.
Poor FM radio reception.	Extend and adjust the position of the FM antenna. Try moving the device to a different location to improve signal.
Remote control not working.	Ensure there are no obstructions between the remote and the device. Check and replace the remote control battery if necessary.
Time/Date is incorrect.	If not auto-syncing, manually set the time and date using the remote control. Ensure the device has continuous power.
