## 2. SETUP

### 2.1. Driver-Free & Multi-Device Compatibility

The UPERFECT dual monitor offers seamless compatibility with Windows and MacOS. It supports plug-and-play functionality, requiring no complex setups or driver installations when connected via a single Type-C cable. The monitor also features a Mini HDMI port, allowing connection to various devices such as PCs, tablets, smartphones, and game consoles.

You can connect two different devices simultaneously, which is ideal for multiple users or diverse work requirements. The versatile interfaces ensure broad compatibility with new devices, enhancing efficiency.

### 2.2. Connections and Power

To power and connect the monitor, use the provided cables. For optimal performance, ensure sufficient power is supplied to the monitor. If power is insufficient, use the included power adapter and Type-C cable to provide external power.

Video 3: Various orientations and VESA mount options for a similar dual mobile monitor. This video is for illustrative purposes and may not feature the exact UPERFECT model.

## 3. OPERATING INSTRUCTIONS

### 3.1. Flexible Work Modes

The dual mobile monitor supports three distinct work modes: AAA, ABB, and ABC. These modes allow you to customize the display configuration to suit your specific work requirements, such as opening multiple spreadsheets, browsing websites on a larger screen, or displaying documents during video conferences.

Figure 3: Overview of the AAA, ABB, and ABC display modes.

### 3.2. 360° Rotation and 180° Gravity Sensor

The monitor features a gravity sensor that supports 360° screen rotation, making it convenient for meetings and collaborative work. When folded in half and presented to a colleague, the upper screen automatically rotates 180 degrees to provide the correct viewing angle for both parties.

### 3.3. Adjustable Stand

The monitor is equipped with a 135° adjustable stand, allowing you to easily find a safe and optimal viewing position. This ergonomic design helps reduce fatigue and mitigate potential cervical spine issues.

## 4. FEATURES

### 4.1. Display Quality

The UPERFECT dual monitor features an IPS panel with a 178° viewing angle, a 100% sRGB wide color gamut, 16.7 million colors, and 300 nits brightness. It offers a 1000:1 contrast ratio and a 60Hz refresh rate, providing a vivid and immersive viewing experience. It also includes FreeSync low-latency technology to reduce screen tearing and ensure smoother visuals.

### 4.2. Design and Portability

The monitor boasts a lightweight and slim design, making it highly portable for mobile work or business trips. Its foldable nature allows for efficient use in limited spaces.

### 4.3. Audio

The monitor includes built-in speakers for audio output, enhancing your multimedia experience.

## 複数表示モード

### AAAモード

3つのスクリーンすべてに同じ画面が表示されます

### ABBモード

2つのスクリーンに同じ画面が表示されます

### ABCモード

3つのスクリーンに全く異なる画面が表示されます

※Windowsノートパソコンだけ対応

## 5. MAINTENANCE

To maintain your UPERFECT Dual Mobile Monitor, keep it clean and free from dust. Use a soft, dry cloth for cleaning the screen and exterior. Avoid using harsh chemicals or abrasive materials. Store the monitor in a safe place when not in use to prevent physical damage.

## 6. TROUBLESHOOTING

### 6.1. Power Issues

If the monitor does not power on or experiences intermittent power, ensure that it is receiving sufficient power. The monitor requires a strong power supply. If power is insufficient, connect the included power adapter and Type-C cable to provide external power to the monitor.

## 6.2. Display Issues

If you experience display issues, ensure all cables are securely connected. Check your device's display settings to confirm proper output configuration. If using a single Type-C cable, verify that your device's Type-C port supports full-functionality (power, video, data).

## 7. SPECIFICATIONS

Feature	Description
Brand	UPERFECT
Model Number	156J11
Color	Black
Screen Size	15.6 inches
Resolution	FHD 1080p
