IRONCK FG-JFD-34

IRONCK Shoe Cabinet Storage with 2 Flip Drawers, Oak (Model FG-JFD-34)

Instruction Manual

1. Introduction

Thank you for choosing the IRONCK Shoe Cabinet Storage. This manual provides essential information for the safe assembly, operation, and maintenance of your new shoe cabinet. Please read these instructions carefully before beginning assembly and retain them for future reference.

This free-standing wooden shoe storage organizer features two flip drawers with rattan doors, designed to enhance your entryway, hallway, or living room with its functional and aesthetic appeal.

2. Safety Information

- Always assemble the product on a soft, clean surface to prevent scratches.
- Ensure all parts are securely fastened before use.
- Do not overload the cabinet or drawers.
- **Anti-Tipping Device:** For safety, especially in households with children or pets, it is highly recommended to secure the cabinet to the wall using the provided anti-tipping device. Failure to do so may result in injury.
- Keep small parts and packaging materials away from children.

3. Package Contents

Before assembly, please verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Shoe Cabinet Panels (various sizes)
- Hardware Pack (screws, dowels, hinges, handles, anti-tipping kit)
- User Manual (this document)

4. Setup and Assembly Instructions

Assembly of the IRONCK Shoe Cabinet is designed to be straightforward. Follow the detailed instructions and illustrations provided in the separate assembly guide included with your product. For optimal efficiency, assembly by two persons is recommended and typically takes approximately 25 minutes.

Key Assembly Steps:

1. Unpack all components and lay them out on a clean, soft surface.
2. Identify each part using the labels in the assembly guide.
3. Assemble the main frame of the cabinet.
4. Attach the flip drawers and their mechanisms.
5. Install the metal legs.
6. **Install the Anti-Tipping Device:** Secure the cabinet to a wall stud using the provided anti-tipping hardware as shown in Figure 2. This step is crucial for stability and safety.

Note: A power drill can expedite the screwing process, but exercise caution to avoid overtightening.

5. Operating Instructions

5.1 Using the Flip Drawers

The cabinet features two flip-top drawers, each designed to store shoes efficiently. Gently pull the handle to open each drawer, revealing the internal storage compartments.

Figure 3: Shoe cabinet with open flip drawers.

5.2 Adjustable Shelf Configuration

Each flip drawer contains a center divider that can be adjusted to three different levels or completely removed to accommodate various shoe types and sizes, from flats and sneakers to high heels and mid-calf boots.

- **Adjusting the Shelf:** Locate the pegs supporting the divider. Carefully lift the divider and reposition the pegs into the desired slots (1, 2, or 3) to change the shelf height.
- **Removing the Shelf:** To store larger items or boots, simply remove the center divider entirely.

Figure 5: Removal of the middle board for increased storage space.

5.3 Storage Capacity

The IRONCK Shoe Cabinet can accommodate approximately 22-35 pairs of shoes, depending on their size and type. It is designed to fit men's shoes up to size 11.5 without requiring panel removal.

The top surface of the cabinet provides additional space for decorative items, keys, wallets, or other small belongings.

Figure 6: Illustrating the cabinet's storage capacity.

6. Maintenance

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish or rattan.
- **Rattan Care:** The rattan elements are hand-woven. Minor variations such as black spots, ruptures, or glitches due to fiber characteristics and weaving are normal and not considered quality issues.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Placement:** Avoid placing the cabinet in direct sunlight or near heat sources to prevent material degradation.

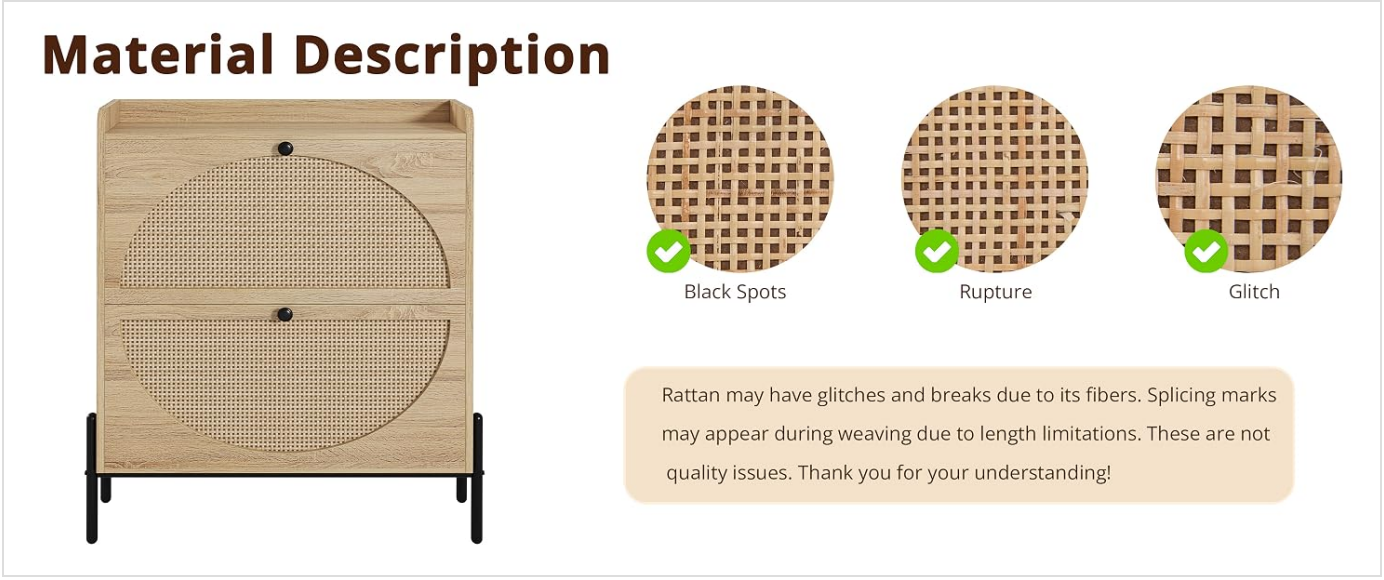

Figure 7: Rattan material characteristics and care note.

7. Troubleshooting

Problem	Possible Cause	Solution
Cabinet feels wobbly or unstable.	Screws are loose; anti-tipping device not installed or improperly secured.	Ensure all assembly screws are tightened. Install or properly secure the anti-tipping device to a wall stud.
Drawers do not open or close smoothly.	Obstruction in the drawer mechanism; misaligned hinges; shoes are too large or improperly placed.	Check for any obstructions. Verify hinge alignment and re-adjust if necessary. Ensure shoes are placed correctly and not exceeding the drawer's capacity.
Parts do not align during assembly.	Incorrect part orientation; manufacturing tolerance.	Double-check the assembly guide for correct part orientation. Apply gentle pressure to align holes. If issues persist, contact customer support.

8. Specifications

Feature	Detail
Brand	IRONCK
Model Name	FG-JFD-34
Color	Oak
Product Dimensions (D x W x H)	9.25"D x 31.49"W x 39.17"H
