BePuzzled 31223

BePuzzled Lion and Baby 3D Crystal Puzzle Instruction Manual

Model: 31223

1. INTRODUCTION

This manual provides instructions for the assembly and care of your BePuzzled Lion and Baby Original 3D Crystal Puzzle, Model 31223. This puzzle consists of translucent, interlocking pieces designed to form a three-dimensional figure.

2. SAFETY INFORMATION

No specific safety warnings are applicable for this product beyond general toy safety. This product is recommended for ages 12 years and up. Keep small pieces away from young children to prevent choking hazards.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly.

- 1 Crystal Puzzle (consisting of multiple interlocking pieces)

4. ASSEMBLY INSTRUCTIONS

The BePuzzled 3D Crystal Puzzle is designed to be challenging. Follow these steps carefully for successful assembly. Some pieces may have small embossed letters or numbers to guide initial sections.

1. **Sort Pieces:** Carefully remove all pieces from the packaging. It is recommended to sort the pieces by color (if applicable) and approximate shape. Identify any key structural pieces or those with guiding marks.
2. **Identify Core Sections:** The puzzle often builds from a central core outwards. For the Lion and Baby puzzle, identify the main body sections for both figures.

Image 4.1: Begin by identifying and assembling core sections of the puzzle.

3. **Interlock Pieces:** Each piece is designed to interlock with others. Gently push pieces together. Avoid forcing them, as this can damage the plastic. If a piece does not fit, rotate it or try a different piece.

Image 4.2: Gently interlock pieces, ensuring proper alignment.

4. **Build Layer by Layer:** Many 3D crystal puzzles are assembled in layers or sections. Work systematically, ensuring each piece is securely in place before adding the next.
5. **Mane Assembly (Lion):** The lion's mane consists of multiple distinct pieces. These may require careful alignment and patience to secure. Some users find it helpful to assemble the mane sections separately before attaching them to the main body.
6. **Securing the Structure:** Once all pieces are assembled, the puzzle should hold together through its interlocking design. If the puzzle feels unstable, re-examine the connections to ensure all pieces are fully seated. For a permanent display, some users opt to use a clear adhesive, though this is not required for the puzzle's structural integrity if assembled correctly.

If you encounter difficulty, online step-by-step solutions are available. Refer to the Troubleshooting section for details.

5. DISPLAY AND CARE

Once assembled, your BePuzzled Lion and Baby 3D Crystal Puzzle can be displayed as a decorative item.

- **Cleaning:** To clean, gently wipe with a soft, dry cloth. Avoid abrasive cleaners or harsh chemicals.
- **Placement:** Place the puzzle on a stable surface away from direct sunlight or extreme temperatures to prevent potential material degradation over time.

Image 5.1: The completed puzzle is suitable for display.

6. TROUBLESHOOTING

- **Pieces do not fit:** Ensure you are using the correct pieces for the current step. Rotate pieces to find the proper orientation. Do not force pieces together. Refer to the online solutions for visual guidance.
- **Puzzle is unstable or falls apart:** This indicates that some pieces are not fully interlocked or are in the incorrect position. Carefully re-examine the connections, especially at the joints and seams. The puzzle is designed to hold together without adhesive when correctly assembled.
- **Missing instructions:** This manual serves as a general guide. For detailed, step-by-step solutions specific to this puzzle, visit the official BePuzzled website.

For additional assistance, BePuzzled provides online step-by-step solutions for their 3D Crystal Puzzles. You can access these solutions by visiting ugames.com/instructions.
