Fila VFI202

FILA Unisex Sunglasses Instruction Manual

Model: VFI202 | Brand: Fila

INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your FILA Unisex Sunglasses, Model VFI202. Please read this manual thoroughly before using your new eyewear to ensure optimal performance and longevity.

SETUP

Your FILA sunglasses are designed for immediate use. No complex assembly is required. Upon unboxing, inspect the sunglasses for any visible damage.

Unboxing and Initial Inspection

1. Carefully remove the sunglasses from their protective case.
2. Inspect the frame, hinges, and lenses for any signs of damage, scratches, or misalignment that may have occurred during shipping.
3. Ensure the temples (arms) open and close smoothly without excessive force or looseness.

OPERATING INSTRUCTIONS

These sunglasses are designed for general purpose use and offer protection against solar UV radiation. They are not intended for direct observation of the sun or for use as protection against artificial light sources (e.g., solaria).

Wearing the Sunglasses

- Gently unfold the temples and place the sunglasses on your face, ensuring the nose pads rest comfortably on your nose bridge and the temples extend over your ears.
- Adjust the position slightly to ensure a secure and comfortable fit. The sunglasses should not feel too tight or too loose.

MAINTENANCE AND CARE

Proper care will extend the life and maintain the clarity of your FILA sunglasses.

Cleaning

- Use a soft, clean microfiber cloth specifically designed for eyewear to clean the lenses and frame.
- For stubborn smudges, use a mild soap solution or an approved lens cleaning spray. Rinse with lukewarm water and dry gently with a clean cloth.
- Avoid using paper towels, clothing, or harsh cleaning agents (e.g., ammonia-based cleaners) as these can scratch the lenses or damage coatings.

Storage

- When not in use, always store your sunglasses in their provided protective case to prevent scratches and damage.
- Avoid leaving sunglasses in direct sunlight or extreme heat (e.g., on a car dashboard), as this can warp the frame or damage lens coatings.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Lenses are blurry or smudged.	Dirt, oil, or residue on lenses.	Clean lenses with a microfiber cloth and appropriate lens cleaner.
Sunglasses feel loose or crooked.	Hinges may be loose or frame slightly bent.	Gently tighten hinge screws if accessible, or visit an optician for professional adjustment. Avoid bending the frame yourself.
Scratches on lenses.	Improper cleaning or storage.	Unfortunately, scratches cannot be removed. Prevent future scratches by always storing in the case and cleaning properly.
