NOX ML10 PRO CUP ROUGH SURFAC EDITION

NOX ML10 PRO CUP ROUGH SURFAC EDITION Padel Racket

User Instruction Manual

1. INTRODUCTION

Welcome to the NOX ML10 PRO CUP ROUGH SURFAC EDITION Padel Racket user manual. This document provides essential information for the proper setup, operation, maintenance, and care of your new padel racket. Designed for both beginners and experienced players, the ML10 Pro Cup offers a blend of power, control, and durability, incorporating advanced technologies for an enhanced playing experience.

2. PRODUCT FEATURES

The NOX ML10 PRO CUP ROUGH SURFAC EDITION is engineered with several key features to optimize performance and player comfort:

- Elite Performance and Durability:** Crafted with a carbon frame and HR3 core, ensuring solid, powerful strikes and long-lasting durability. Certified for quality and resistance to fatigue and breakage by Testea Padel.
- Advanced Technology for Enhanced Control:** Features NOX Custom Grip technology and the innovative Smartstrap system, providing exceptional grip (increased by 52%) and reduced vibrations (by 29%).
- Superior Comfort and Customization:** Ergonomic design with a customizable Smartstrap for easy replacement and improved hygiene, ideal for players with perspiration challenges or epicondylitis.
- Optimal Aerodynamics and Vibration Control:** Incorporates EOS FLAP and PULSE SYSTEM for enhanced maneuverability and effective reduction of vibrations during play.

3. SETUP AND INITIAL USE

Your NOX ML10 PRO CUP ROUGH SURFAC EDITION padel racket is designed for immediate use. Follow these guidelines for optimal initial setup:

- Grip Check:** Ensure the NOX Custom Grip is securely wrapped. This grip is designed to enhance your hold and reduce vibrations. If you prefer a thicker grip, overgrips can be applied.
- Smartstrap Adjustment:** The racket comes with a pre-installed Smartstrap. Adjust it to comfortably fit around your wrist. This strap is crucial for safety during play, preventing the racket from slipping out of your hand. The Smartstrap is designed for easy replacement for hygiene or personal preference.
- Surface Inspection:** Familiarize yourself with the rough surface of the racket face, which is designed to provide maximal spin on the ball.

4. PLAYING GUIDELINES

The ML10 PRO CUP ROUGH SURFAC EDITION is engineered to enhance your padel game. Consider the following aspects during play:

- **Power and Control:** The carbon frame and HR3 core provide a balanced feel, allowing for both powerful smashes and precise control shots. Experiment with different shot types to find your optimal balance.
- **Spin Generation:** Utilize the rough surface to generate increased spin on your shots, adding complexity and challenge for your opponents.
- **Vibration Reduction:** The AVS (Anti Vibration System) and PULSE SYSTEM work to minimize vibrations, contributing to a more comfortable playing experience and reducing the risk of arm fatigue or injury.
- **Maneuverability:** The racket's design, including EOS FLAP technology, enhances aerodynamics, allowing for quicker reactions and improved maneuverability on the court.

5. CARE AND MAINTENANCE

Proper care and maintenance will extend the lifespan and performance of your NOX ML10 PRO CUP ROUGH SURFAC EDITION padel racket:

- **Cleaning:** After each use, wipe down the racket face and handle with a soft, damp cloth to remove sweat, dirt, and debris. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store your racket in a cool, dry place, away from direct sunlight and extreme temperatures. High heat can potentially affect the racket's materials. Using a racket bag provides additional protection.
- **Grip Replacement:** Regularly inspect your grip for wear and tear. Replace the grip or apply new overgrips as needed to maintain optimal feel and prevent slippage. The Smartstrap is designed for easy replacement.
- **Impact Protection:** While durable, avoid hitting the racket against hard surfaces (walls, ground) as this can cause structural damage.

6. TROUBLESHOOTING

Should you encounter any issues with your NOX ML10 PRO CUP ROUGH SURFAC EDITION padel racket, consider the following:

- **Excessive Vibration:** If you experience unusual vibrations, first check your grip. A worn grip can reduce vibration dampening. Ensure your playing technique is consistent, as off-center hits can cause more vibration.
- **Reduced Grip:** If the grip feels slippery, it may be worn or dirty. Clean it or consider replacing it with a new NOX Custom Grip or an overgrip.
- **Visible Damage:** For any cracks, dents, or structural damage to the frame or face, discontinue use immediately. Continued use with damage can lead to further breakage and potential injury. Refer to the Warranty and Support section for assistance.

7. TECHNICAL SPECIFICATIONS

Detailed specifications for the NOX ML10 PRO CUP ROUGH SURFAC EDITION Padel Racket:

Specification	Value
Brand	NOX
Model Name	NOX205 (ML10 PRO CUP ROUGH SURFAC EDITION)
Size	One Size
