5.2 Cleaning and Care

To maintain your smartwatch's condition and ensure accurate readings:

- Wipe the watch and strap regularly with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

6. TROUBLESHOOTING

If you encounter any issues with your Jugeman Y66 Smart Watch, please refer to the following common solutions:

- **Watch not syncing with phone:**

- Ensure Bluetooth is enabled on both your phone and watch.
- Make sure the 'GloryFit' app is running in the background and has necessary permissions.
- Restart both your phone and the smartwatch.
- Try unpairing and re-pairing the device in your phone's Bluetooth settings and the app.
- Ensure the app is updated to the latest version.

- **Cannot make/receive calls:**

- Verify that the call Bluetooth function is enabled on the watch (refer to Section 2.3).
- Check phone's Bluetooth settings to ensure the watch is connected for calls (often listed as a separate Bluetooth device or profile).
- Ensure the watch is within Bluetooth range of your phone.

- **Inaccurate step count/heart rate:**

- Ensure the watch is worn snugly on your wrist, about one finger's width from your wrist bone.
- Clean the sensor on the back of the watch.
- Update the app and watch firmware if available.

- **Battery draining quickly:**

- Reduce screen brightness.
- Disable continuous heart rate monitoring if not needed 24/7.
- Limit the number of apps sending notifications to the watch.

If the issue persists, please contact Jugeman customer support for further assistance.
