

HTC Emo1

HTC True Wireless Earbuds Plus

MODEL: EMO1 - USER MANUAL

1. Product Overview

The HTC True Wireless Earbuds Plus offer an immersive audio experience with advanced Active Noise Cancellation (ANC) and Environmental Noise Cancellation (ENC). Featuring Bluetooth 5.3 for stable connectivity, these earbuds are designed for comfort and durability, with IPX5 water resistance. They provide clear calls through four integrated microphones and extended playback time with their portable charging case.

2. What's in the Box

- HTC True Wireless Earbuds Plus (Left and Right)
- Charging Case
- USB-C Charging Cable

- Ear Tips (S/M/L sizes)
- User Manual

3. Setup

3.1 Charging the Earbuds and Case

Before first use, fully charge the earbuds and charging case. Connect the provided USB-C cable to the charging port on the case and to a power source. The indicator lights on the case will show the charging status. A full charge takes approximately 1.5 hours.

Image: Illustration of the earbuds and charging case with battery life indicators. The earbuds offer 6.5 hours of single use time, with a total of 30 hours of combined battery life from the charging case, and 70 hours of standby time.

3.2 Pairing with Your Device

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Search for available Bluetooth devices and select "HTC Emo1" from the list.
4. Once connected, the earbuds are ready for use.

The earbuds utilize Bluetooth 5.3 technology for instant pairing and a stable connection, ensuring a low-

latency listening experience.

3.3 Choosing the Right Ear Tips

For optimal sound quality and comfort, select the ear tips that best fit your ears. The earbuds come with three sizes (S/M/L). A proper fit ensures effective noise cancellation and secure wear.

COMFORTABLE TO WEAR

3 sizes of earplugs for more comfortable use

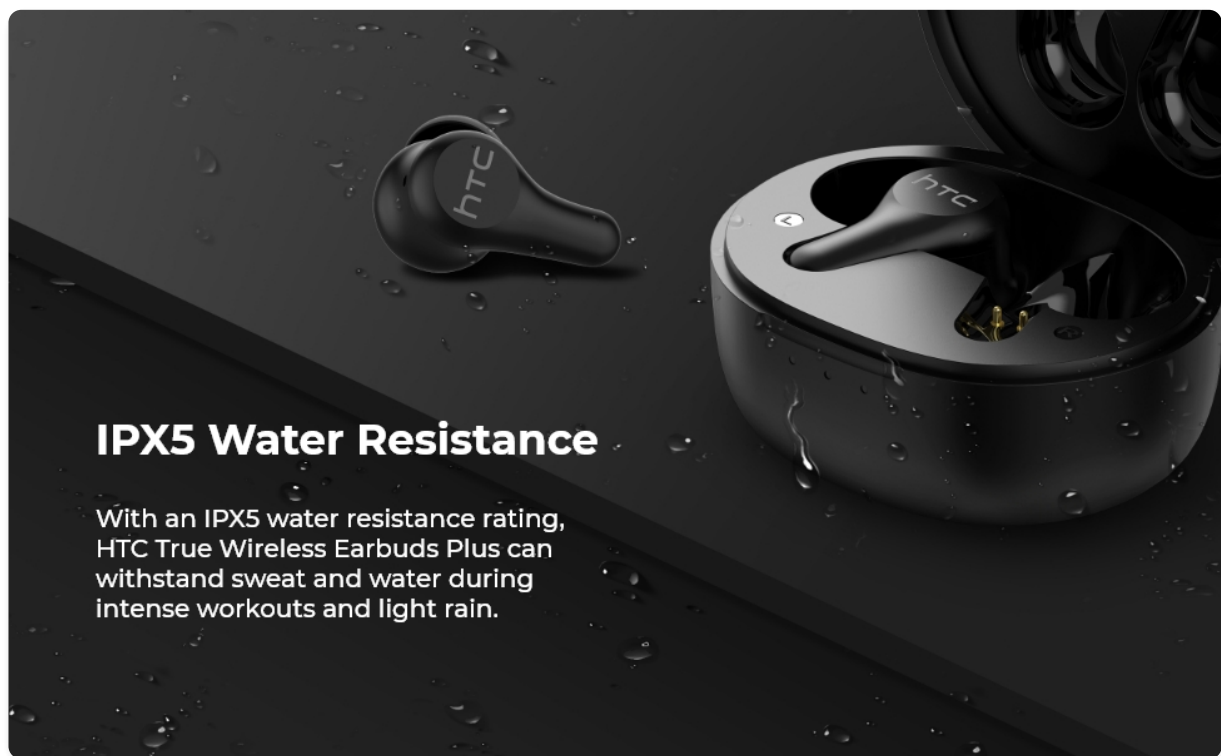

Image: A man wearing the earbuds, with an inset showing the three available ear tip sizes (S, M, L) for comfortable wear.

4. Operating Instructions

4.1 Touch Controls

The earbuds feature sensitive touch controls for easy management of audio playback and calls.

- **Play/Pause:** Tap once on either earbud.
- **Play next:** Tap twice on either earbud.
- **Play previous:** Tap three times on either earbud.
- **Activate voice assistant:** Press and hold the right earbud.
- **Answer/End call:** Tap once on either earbud.
- **Decline call:** Press and hold either earbud.
- **ANC (Active Noise Cancellation) Modes:** Press and hold the left earbud to cycle through modes:
First press: ANC on; Second press: Ambient sound on; Third press: Ambient sound off.

IPX5 Water Resistance

With an IPX5 water resistance rating, HTC True Wireless Earbuds Plus can withstand sweat and water during intense workouts and light rain.

Image: A visual guide to the touch controls for the HTC True Wireless Earbuds Plus, detailing actions for play/pause, track navigation, voice assistant activation, call management, and ANC mode switching.

4.2 Active Noise Cancellation (ANC) and Environmental Noise Cancellation (ENC)

The earbuds are equipped with advanced ANC and ENC technology to reduce external noise. ANC actively monitors and cancels environmental sounds, while ENC focuses on enhancing voice clarity during calls by suppressing background noise. This ensures a clear listening and communication experience in various environments.

ANC (Active Noise Reduction)+ENC (Environmental Noise Cancellation)

Dual ANC+ENC noise reduction
smarter and quieter

Image: An illustration demonstrating the effectiveness of ANC and ENC noise reduction, showing a 33dB reduction in noise. It highlights scenarios like travel, work/study, and sports where noise cancellation is beneficial.

4.3 Transparency Mode

Transparency mode allows you to hear your surroundings while still enjoying your audio. This feature is useful for situational awareness, such as when crossing a street or listening for announcements.

4.4 Audio Quality and Calls

Experience Hi-Fi stereo sound with deep bass, powered by a 13mm dynamic driver and AAC/SBC audio codecs. The four noise-canceling microphones effectively suppress background noise, ensuring crystal-clear calls.

Image: A detailed diagram illustrating the 13mm dynamic driver and its components, emphasizing the powerful speaker unit, dual speakers, enhanced bass, Bluetooth 5.3, and 4-mic system for HiFi sound quality.

5. Maintenance

5.1 Cleaning

Regularly clean your earbuds and charging case to maintain optimal performance and hygiene. Use a soft, dry, lint-free cloth. For ear tips, you can gently wipe them with a damp cloth and allow them to air dry completely before reattaching.

5.2 Water Resistance

The earbuds are IPX5 waterproof, meaning they are resistant to sweat and light splashes of water. Avoid submerging them in water or exposing them to heavy rain. Ensure the earbuds are dry before placing them back into the charging case to prevent damage.

All-day playback

HTC True Wireless Earbuds Plus last all day, with 6 hours of playback time on a single charge and an additional 24 hours of playback time from the charging case.

Image: The earbuds and charging case are shown with water droplets, illustrating their IPX5 water resistance, indicating they can withstand sweat and light rain.

6. Troubleshooting

- **Earbuds not pairing:** Ensure both earbuds are in the charging case, then open the lid to activate pairing mode. Check your device's Bluetooth settings and try reconnecting.
- **Only one earbud working:** Place both earbuds back into the charging case, close the lid, wait a few seconds, then open it again. This often re-syncs them.
- **No sound:** Check the volume level on your connected device. Ensure the earbuds are charged and properly paired.
- **Charging issues:** Verify the USB-C cable is securely connected to both the case and the power source. Clean the charging contacts on the earbuds and inside the case.
- **Noise cancellation not effective:** Ensure the ear tips provide a snug seal in your ear canal. Adjust the ANC mode using the touch controls.

7. Specifications

Feature	Specification
Model Name	Emo1
Noise Control	Active Noise Cancellation
Connectivity Technology	Wireless (Bluetooth 5.3)
Earbuds Battery Capacity	40mAh (per earbud)
Charging Case Battery Capacity	480mAh
Charging Time	1.5 Hours (case)

Playback Time	Up to 6-8 hours (single charge), 32 hours (with charging case)
Water Resistance Level	IPX5 Waterproof
Microphones	4 Mics (ENC Clear Calls)
Audio Driver Type	13mm Dynamic Driver
Compatible Devices	Smartphones, Tablets, Laptops, Desktops (iOS & Android)
Item Weight	1.13 ounces
Package Dimensions	3.46 x 3.46 x 1.5 inches

8. Official Product Video

Video: Official product video for the HTC Emo1 Active Noise Cancelling Earbuds. This video highlights key features such as advanced noise management (ANC and ENC), Bluetooth 5.3 EDR technology, four integrated microphones for clear communication, IPX5 water resistance, fast charging, responsive touch controls, ergonomic in-ear design, USB-C charging, compact dimensions, iOS and Android compatibility, 40mAh earbud batteries, 480mAh charging case, deep bass stereo sound, stable signal transmission, and transparency mode.

9. Warranty and Support

HTC products are manufactured by HTC Corporation Taiwan. For warranty information, technical support, or service inquiries, please refer to the warranty card included with your product or visit the official HTC support website. Keep your proof of purchase for warranty claims.
