ZEEHOO CT-R

ZEEHOO 3-in-1 Qi2 15W Auto-Rotating Wireless Charging Station (Model CT-R) Instruction Manual

Model: CT-R

INTRODUCTION

Thank you for choosing the ZEEHOO 3-in-1 Qi2 15W Auto-Rotating Wireless Charging Station. This device is designed to efficiently charge your iPhone, Apple Watch, and AirPods simultaneously, providing a clutter-free and convenient charging experience. Featuring Qi2 certification for rapid 15W fast wireless charging, smart touch control for auto-rotation and pop-up docks, and robust safety features, this station is engineered for optimal performance and durability.

WHAT'S IN THE Box

- CylinTrick-R Qi2 15W Fast Wireless Charger
- 30W Fast Charger adapter
- 1.5m USB-C to USB-C Cable
- User Manual

PRODUCT OVERVIEW

The ZEEHOO 3-in-1 Charging Station combines multiple charging functionalities into a compact and elegant design. It features a central magnetic charging pad for your iPhone, and retractable docks for your Apple Watch and AirPods.

Key Features:

- **Qi2 15W Fast Charging:** Ensures rapid and efficient charging for compatible iPhone models.
- **Smart Touch Control:** Allows for effortless rotation of the phone charging area and pop-up activation of the AirPods and Apple Watch docks.
- **3-in-1 Functionality:** Charges iPhone, Apple Watch, and AirPods simultaneously.
- **Auto-Rotating Phone Stand:** The magnetic phone charging area automatically rotates for optimal viewing in portrait or landscape mode.
- **Compact Design:** Cylindrical form factor saves space and is ideal for travel.
- **Enhanced Safety:** Equipped with over-current protection, temperature monitoring, and efficient heat dissipation.

- Connect Power:** Insert the provided USB-C to USB-C cable into the charging station's input port and connect the other end to the 30W Fast Charger adapter. Plug the adapter into a wall outlet.
- Initial Power-On:** The charging station will illuminate briefly upon power connection. The LED light at the base will turn off 10 seconds after power connection and upgrade, indicating it's ready for use.
- Prepare Docks:**
 - For AirPods: Press the button on the left side of the station to extend the AirPods charging dock.
 - For Apple Watch: Press the button on the right side of the station to extend the Apple Watch charging dock.

OPERATING INSTRUCTIONS

Charging Your iPhone:

- Ensure your iPhone is MagSafe compatible (iPhone 12 series or later) or uses a MagSafe-compatible case.
- Place your iPhone onto the central magnetic charging pad. The phone will snap into place securely.
- The charging pad will automatically rotate to your preferred viewing angle. You can also gently touch the pad to initiate rotation for portrait or landscape viewing. **Note:** Do not manually force the rotation, as this may damage the internal mechanism.
- The LED indicator at the base will briefly illuminate to confirm charging has begun.

Image: The ZEEHOO 3-in-1 Charging Station demonstrating its ability to customize viewing angles with 180-30 degree vertical and 360 degree horizontal rotation.

Charging Your Apple Watch:

- Ensure the Apple Watch charging dock is extended (press the right button if it's retracted).
- Place your Apple Watch onto the charging puck on the extended dock.
- Confirm that the watch is properly aligned and charging has initiated.

Charging Your AirPods:

- Ensure the AirPods charging dock is extended (press the left button if it's retracted).
- Place your AirPods case onto the charging pad on the extended dock.

3. Confirm that the AirPods case is properly aligned and charging has initiated.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the charging station. Avoid using abrasive cleaners or solvents.
- **Storage:** When not in use, retract the AirPods and Apple Watch docks to protect them and maintain the compact form factor.
- **Cable Care:** Ensure the USB-C cable is not bent sharply or placed under heavy objects to prevent damage.

TROUBLESHOOTING

Device not charging:

- Ensure the charging station is properly connected to the 30W adapter and a working power outlet.
- Verify that your device (iPhone, Apple Watch, AirPods) is correctly aligned on its respective charging area.
- For iPhone, ensure it is MagSafe compatible or using a MagSafe-compatible case.
- Check if the charging cable or adapter is damaged. Try using a different cable or adapter if available.
- Restart the charging station by unplugging and re-plugging the power cable.

Slow charging speed:

- Ensure you are using the provided 30W Fast Charger adapter and USB-C cable for optimal performance.
- Remove any thick cases from your iPhone that might interfere with wireless charging efficiency.
- Avoid placing metal objects or foreign materials between your device and the charging pad.

Phone charging area not rotating or docks not popping up:

- Ensure the charging station is powered on.
- Gently touch the phone charging area to activate rotation. Do not force it manually.
- Press the respective buttons firmly to activate the AirPods and Apple Watch docks.
- If the issue persists, try power cycling the device.

LED indicator not working as expected:

- The LED light at the base is designed to turn off 10 seconds after power connection and upgrade to avoid disturbing sleep. This is normal operation.
- If the light does not illuminate at all when a device is placed for charging, refer to "Device not charging" steps.

SPECIFICATIONS

Feature	Detail
Model Number	CT-R
Product Dimensions	1.14 x 1.69 x 1.14 inches
Item Weight	12.5 ounces
Brand	ZEEHOO
Connector Type	USB Type C
