## SETUP AND ASSEMBLY

### Unpacking

Carefully remove all components from the packaging. Verify that all parts listed in the packing list are present and undamaged. Keep packaging materials until assembly is complete in case any parts need to be returned or replaced.

### Assembly Instructions

The vanity desk is designed for straightforward assembly. Follow the step-by-step instructions provided in the separate assembly guide included with your product. It is recommended to have a second person assist with assembly due to the size and weight of some components. Patience is advised during the assembly process to ensure correct and secure construction.

## PRODUCT INFORMATION

This diagram provides detailed measurements of the vanity desk and its individual parts, including drawers and the stool. It also highlights the metal frame and high-quality material used in construction, which can be helpful during assembly.

## OPERATING INSTRUCTIONS

### LED Lighting System

The vanity mirror is equipped with a 3-color LED lighting system to provide optimal illumination for various makeup needs. The lighting system includes a human sensor for automatic activation.

- **Color Modes:** Tap the touch control button on the mirror to cycle through three light colors: Warm Light (3000K), Natural Light (4000K), and Cold Light (6000K).
- **Brightness Adjustment:** Long-press the touch control button to adjust the brightness level (0% to 100%) within the selected light mode.
- **Human Sensor:** The human sensor lights automatically turn ON when human presence is detected within 1-2 meters.

## ADJUSTING LIGHT MODES & BRIGHTNESS AT A TOUCH

This image demonstrates the three distinct light color temperatures (3000K Warm, 4000K Natural, 6000K Cold) and the touch interface for selecting modes and adjusting brightness. It shows a hand interacting with the control panel.

Figure 4: Depiction of the human sensor activating the LED lights when a person approaches within 1 meter.

This image illustrates the human sensor functionality, showing a person approaching the vanity and the LED lights automatically illuminating. The detection range of 1 meter is indicated.

## Storage Features

The vanity desk offers various storage solutions to keep your items organized.

- **Adjustable Cabinet:** The upper cabinet features glass doors and adjustable shelves for displaying or storing items. It also includes an internal LED light.
- **Jewelry Box:** A dedicated jewelry box with an LED light is integrated into the desk, providing organized storage for smaller accessories.
- **Drawers:** Two spacious drawers are available for storing cosmetics, skincare products, and other essentials.
- **Storage Stool:** The upholstered stool has a flip-top design revealing additional hidden storage space. It is equipped with running wheels for easy movement.

This image shows the stool with its top flipped open to reveal a storage compartment, and one of its drawers pulled out. The red wheels at the base indicate its mobility and 360-degree swivel capability.

## MAINTENANCE AND CARE

### Cleaning Instructions

- **Wood Surfaces:** Wipe wood surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Mirror:** Clean the mirror with a glass cleaner and a lint-free cloth. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- **Upholstery:** For the stool's upholstered cushion, spot clean with a mild fabric cleaner as needed. Test in an inconspicuous area first.

### General Care Tips

- Avoid placing hot items directly on the vanity surface. Use coasters or protective pads.
- Keep the vanity away from direct sunlight and excessive humidity to prevent warping or discoloration.
- Regularly check and tighten any loose screws or fittings to maintain stability.

## TROUBLESHOOTING

- **LED Lights Not Working:**
  - Ensure the power cord is securely plugged into a functional outlet.
  - Check if the power switch is in the ON position.
  - Verify that the touch control button is responding. If not, try unplugging and replugging the unit to reset.
- **Human Sensor Not Activating Lights:**
  - Ensure there are no obstructions blocking the sensor.
  - Confirm the sensor is clean and free from dust.
  - Check if the sensor is within the specified detection range (1-2 meters).
- **Drawers or Stool Not Sliding Smoothly:**
  - Check for any obstructions in the drawer slides or stool wheels.
  - Ensure the slides/wheels are clean and free from debris.
  - If necessary, apply a silicone-based lubricant to the slides/wheels.
