Qaba 370-375V80BU

Qaba 12V Kids ATV User Manual

Model: 370-375V80BU

PRODUCT OVERVIEW

The Qaba 12V Kids ATV is a battery-powered ride-on four-wheeler designed for children aged 37-60 months. It features spring suspension for a smooth ride, forward and reverse functions, LED lights, and an MP3 player for an engaging driving experience. This electric ATV is suitable for various terrains including cement, asphalt, brick, and gravel roads.

SAFETY INFORMATION

WARNING: Adult supervision is required at all times when the product is in use.

- Ensure the child wears appropriate safety gear, including a helmet, when operating the ATV.
- Do not operate the ATV near swimming pools, steep inclines, or public roads.
- The maximum weight capacity for this ATV is 66 lbs (30 kg).
- Recommended age: 37-60 months (approximately 3-5 years).
- This product meets CPSIA, ASTM F963, and CPC standards for child safety.

PACKAGE CONTENTS

Before assembly, please ensure all parts are present and undamaged. The package should contain:

- 1 x Qaba 12V Kids ATV (main unit)
- 1 x 12V Battery (included, may be pre-installed or separate)
- 1 x Charger
- 1 x Instruction Manual

Image: A brown cardboard box with the Qaba logo, indicating the product comes in one package.

SETUP AND ASSEMBLY

Assembly is required for this product. Please follow the detailed instructions provided in the included manual for proper setup. A general overview of the steps is provided below:

1. **Unpacking:** Carefully remove all components from the packaging and verify against the package contents list.
2. **Wheel Installation:** Attach the wheels securely to the axles as per the manual's diagrams. Ensure all fasteners are tightened.
3. **Handlebar Assembly:** Connect the handlebar to the main body of the ATV. Secure it firmly.
4. **Battery Connection:** Ensure the 12V battery is properly connected to the ATV's electrical system. Refer to the manual for specific wiring instructions and polarity.
5. **Initial Charge:** Fully charge the battery before first use. The initial charge time may be longer than subsequent charges (typically 8-12 hours). Do not exceed 18 hours.

For detailed visual guidance, refer to the assembly diagrams and step-by-step instructions in your physical manual.

OPERATING INSTRUCTIONS

1. Powering On/Off

Locate the main power button, typically on the dashboard or near the seat. Press the button to turn the ATV on or off.

2. Driving Controls

- **Forward/Reverse:** Use the designated switch or lever to select between forward and reverse gears. Ensure the ATV is stationary before changing direction.
- **Acceleration:** Press the foot pedal located on the right side to accelerate. Release the pedal to slow down or stop.
- **Steering:** Use the handlebars to steer the ATV left or right.

SMOOTH DRIVING EXPERIENCE

- 4 Wheels Spring Suspension
- Wide Seat

3. Multimedia Functions

- **MP3 Playback:** Connect an MP3 device (e.g., smartphone, MP3 player) to the designated input port to play your own music through the ATV's speakers.
- **Built-in Music:** The ATV may have pre-loaded light music. Refer to the manual for specific buttons or controls to activate these tunes.
- **Power Display:** Monitor the battery level using the power display indicator on the dashboard. This helps you know when it's time to recharge.

MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your Qaba 12V Kids ATV.

- **Charging:** Always fully charge the battery after each use to prolong its lifespan. Avoid completely draining the battery. Do not overcharge.
- **Cleaning:** Wipe the ATV with a soft, damp cloth. Do not use harsh chemicals, abrasive cleaners, or solvents. Avoid spraying water directly onto electrical components or the motor.
- **Storage:** Store the ATV in a dry, cool place away from direct sunlight and moisture. If storing for extended periods (over 30 days), charge the battery every 30 days to prevent deep discharge.
- **Tire Inspection:** Regularly check the tires for wear and tear, and ensure they are free from debris that could affect performance.

TROUBLESHOOTING

If you encounter issues with your Qaba 12V Kids ATV, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
ATV does not move	Battery low or disconnected; Loose wiring; Motor issue; Overload protection activated.	Charge battery fully; Check all electrical connections; Reduce load if exceeding weight limit; Allow motor to cool down if overheated.
Lights not working	Loose wiring; Damaged LED; Battery low.	Check connections to lights; Ensure battery is charged; Contact customer support for replacement parts if damaged.
Short playtime	Battery not fully charged; Old or worn-out battery; Frequent stops/starts or heavy load.	Ensure full charge before each use; Consider battery replacement if old; Encourage continuous driving and avoid exceeding weight limit.
Unusual noises	Loose parts; Debris in wheels/motor; Worn gears.	Inspect for loose components and tighten; Clear any debris; If noise persists, contact customer support.

SPECIFICATIONS

- **Model Number:** 370-375V80BU
- **Product Dimensions:** 33.5" L x 21.9" W x 24.4" H (85 x 55.5 x 62 cm)
- **Item Weight:** 21 lbs (9.5 kg)
- **Battery:** 12V (included)
- **Speed:** Up to 3.1 mph (5 km/h)
- **Use Time:** Up to 50 minutes (on a full charge, varies with terrain and load)
- **Weight Capacity:** 66 lbs (30 kg)
- **Recommended Age:** 37-60 months (3-5 years)
- **Standards:** CPSIA, ASTM F963, CPC
- **Manufacturer:** Aosom LLC
