TMEHM A4

TMEHM Fireplace Flame Air Diffuser Humidifier (Model A4) Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your TMEHM Fireplace Flame Air Diffuser Humidifier, Model A4. Please read this manual thoroughly before operation and retain it for future reference.

IMPORTANT SAFETY INFORMATION

Please observe the following safety guidelines:

- The maximum water capacity of the water tank is 150 milliliters. Do not exceed the maximum level mark, as it may affect the atomization effect.
- Use only clean water for the humidifier to prevent damage from impurities.
- Use only mild or water-soluble essential oils. Avoid corrosive or highly concentrated oils, which may damage internal components.
- A power adapter is not included. It is recommended to use an adapter with an output of 1A-2A. High-power adapters are prohibited to avoid potential damage.
- There are also physical buttons on the back of the device for control.

PRODUCT OVERVIEW

Familiarize yourself with the components of your humidifier:

SIZE/NOTE

"Note: Manual measurement may have slight errors, please refer to the actual product."

"Just powered on"

A faint humming sound (approx. 30dB) may occasionally occur during misting. This is a normal part of the operation.

Sensitivity to sound can vary between individuals!

SETUP INSTRUCTIONS

Follow these steps to set up your humidifier:

1. **Placement:** Place the humidifier on a stable, flat surface.
2. **Power Connection:** Connect the USB-C power cable to the device and a compatible 1A-2A power adapter (not included).
3. **Fill Water Tank:** Carefully remove the top cover. Fill the 150ml water tank with clean water. Ensure the water level does not exceed the 'Max line' indicator.

When adding or pouring water, do not flow into the air outlet of the fan. Otherwise, the fan cannot work due to water.

If there is no fog it means there is too much water Just pour out some

Physical Button Controls

- 1. Flame Screen Control: On / Mode Switch / Color Lock / Off
- 2. Mist Control: On / Mode Switch / Color Lock / Off
- 3. Timer: 1H / 3H / 5H

Image: Visual guide demonstrating the correct method for filling the water tank, avoiding the fan area.

4. **Add Essential Oil:** Add 3-5 drops of your preferred essential oil into the water tank.

ESSENTIAL OIL AROMATHERAPY

FILL YOUR HOME WITH A DELIGHTFUL FRAGRANCE.

• Actual size is subject to the size chart.

Image: A hand carefully adding essential oil into the humidifier's water reservoir.

• Actual size is subject to the size chart.

Image: The humidifier and its remote control, detailing the functions of each button.

- **Power On/Off:** Press the power button () to turn the device on or off.
- **Mist Control:** Press the mist button (SSS) to activate or deactivate the mist function. Press again to cycle through mist light colors.
- **Flame Light Control:** Press the light button (*) to change the flame light colors. The device features seven-color cycling, breathing mode, and single-color fixation.

7 COLOR CHANGING FIREPLACE FLAME DIFFUSER

Image: The humidifier showcasing its 7-color changing flame and mist effects.

- **Timer Function:** Press the timer button (⌚) to set the operating time for 2, 4, or 5 hours. The device will automatically shut off when the timer expires or when water runs out.

Physical Button Controls

The device also has physical buttons on the back for control, offering similar functions to the remote.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your humidifier.

- **Cleaning:** Clean the water tank and mist outlet regularly to prevent mineral buildup and ensure proper mist diffusion. Use a soft cloth and mild detergent. Rinse thoroughly.
- **Water Quality:** Always use clean water. Distilled water is recommended to minimize mineral buildup.
- **Essential Oil Residue:** If using essential oils, clean the tank frequently to prevent oil residue buildup, which can affect performance.

TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions:

- **No Mist/Weak Mist:**

- Check water level; refill if low.
 - Ensure water level is not too high (above 'Max line'). If too much water, pour some out.
 - Clean the mist outlet and ultrasonic plate for any blockages or mineral buildup.
 - Ensure only water-soluble essential oils are used.
- **Remote Control Not Responding:**
 - Check the remote control battery (1 LR44 battery required). Replace if necessary.
 - Ensure the plastic insulation tab is removed from the remote's battery compartment.
 - Try operating the device using the physical buttons on the back.
- **Device Not Powering On:**
 - Verify the power cable is securely connected to both the device and a compatible 1A-2A power adapter.
 - Ensure the power outlet is functional.
- **Unusual Noise:**
 - A faint humming sound (approx. 30dB) may occasionally occur during misting. This is a normal part of the operation.
