## SETUP

The ATTACK SHARK L80 headset offers three connection modes: 2.4GHz wireless, Bluetooth 5.2, and 3.5mm wired. Choose the appropriate method for your device.

### 1. 2.4GHz Wireless Connection (for PC, PS5, PS4, Nintendo Switch Docked)

1. Insert the 2.4GHz USB wireless dongle into an available USB port on your PC, PS5, PS4, or Nintendo Switch dock.
2. Power on the L80 headset by pressing and holding the Power Button for 3 seconds.
3. The headset will automatically attempt to connect to the dongle. The indicator light will show a stable color once connected.
4. On your device, ensure the audio output is set to "ATTACK SHARK L80" or similar.

# 2.4GHz & Dual Mode Online

Dual device, gaming/calling at the same time

Image: Diagram illustrating 2.4GHz USB dongle connection to a PS4 and a USB-C dongle connection to a portable device, alongside Bluetooth connectivity for phones.

## 2. Bluetooth 5.2 Connection (for Phones, Tablets, Laptops)

1. Power on the L80 headset by pressing and holding the Power Button for 3 seconds.
2. If not already in Bluetooth mode, short press the Mode Switch Button three times in quick succession to enter Bluetooth pairing mode. The indicator light will flash, indicating it is discoverable.
3. On your device (phone, tablet, laptop), go to Bluetooth settings and search for available devices.
4. Select "ATTACK SHARK L80" from the list to pair. The indicator light will become stable once connected.

## 3. 3.5mm Wired Connection (for various devices)

1. Connect one end of the 3.5mm audio cable to the 3.5mm audio jack on the L80 headset.
2. Connect the other end of the 3.5mm audio cable to the audio output port of your device.
3. The headset will function in wired mode. Note that volume control via the headset buttons may not be available in wired mode, depending on the connected device.

# COMPATIBLE WITH MULTIPLE PLATFORMS

Option 1: Connect with PS4 via 2.4G/USB plug

Option 2: Connect with Xbox via USB plug

## OPERATING INSTRUCTIONS

### Power On/Off

- **Power On:** Press and hold the Power Button for approximately 3 seconds until the indicator light illuminates.
- **Power Off:** Press and hold the Power Button for approximately 3 seconds until the indicator light turns off.

### Volume Control

- **Increase Volume:** Short press the Volume Up button.
- **Decrease Volume:** Short press the Volume Down button.

### Media Playback Control

- **Play/Pause:** Short press the Power Button.

- **Previous Song:** Long press the Volume Up button.
- **Next Song:** Long press the Volume Down button.

## Call Management

- **Answer/End Call:** Short press the Power Button.

## Microphone Usage

- Attach the detachable microphone to the designated port on the headset.
- Adjust the microphone's position for optimal voice pickup.
- **Mute/Unmute Microphone:** Short press the Microphone Mute Button.

## Mode Switching

- To switch between 2.4GHz wireless mode and Bluetooth mode, short press the Mode Switch Button three times in quick succession.

## Charging the Headset

The headset provides up to 50 hours of playtime at 50% volume and takes approximately 3 hours for a full charge.

- Connect the USB-C end of the charging cable to the headset's USB-C port.
- Connect the USB-A end of the charging cable to a USB power source (e.g., computer USB port, wall adapter).
- The indicator light will show charging status. A red light alert indicates battery level below 10%.

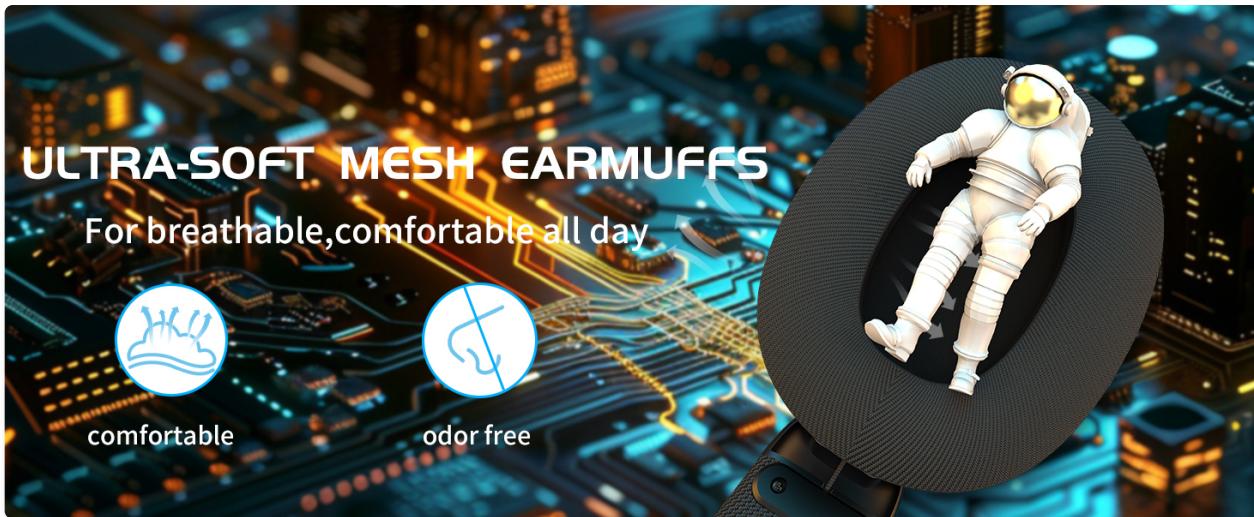

# Long-Lasting Battery Life

*Image: Visual representation of the ATTACK SHARK L80 headset's battery features, including 45-50 hours gaming time, red light alert for low battery, 3 hours charging time, and electricity saving standby.*

## Maintenance

- Cleaning:** Use a soft, dry cloth to clean the headset. Do not use harsh chemicals or abrasive materials.
- Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- Battery Care:** To prolong battery life, avoid fully discharging the headset frequently. Charge it regularly, even if not in use for extended periods.
- Cable Management:** Avoid sharp bends or kinks in the cables to prevent damage.
