4. Setup and Assembly

Assembly is designed to be straightforward. All components are clearly labeled to assist with identification. It is recommended to assemble the bed frame with at least two people.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify the headboard, footboard, side rails, and support legs.
3. Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure.
4. Install the central support beam and its legs.
5. Place the wooden slats across the frame. The wooden slats are secured with Velcro attachments for quick setup.
6. Connect the power cable for the charging station to a wall outlet.

6. Maintenance

To maintain the quality and appearance of your VECELO bed frame, follow these care instructions:

- **Fabric Upholstery:** Wipe with a damp cloth for general cleaning. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemicals.
- **Metal Frame:** Wipe with a dry cloth to remove dust.
- **General:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary.

7. Troubleshooting

If you encounter any issues with your bed frame, consider the following common solutions:

- **Squeaking Noises:** Ensure all bolts and screws are securely tightened. Check that the wooden slats are properly seated and not rubbing against the frame.
- **Unstable Frame:** Verify that all legs are evenly placed on the floor and that all connections are firm.

- **Charging Ports Not Working:** Confirm the bed frame's power cable is securely plugged into a functional wall outlet. Test with different devices and cables.
- **Mattress Sliding:** The wingback headboard is designed to help prevent mattress sliding. Ensure the mattress is correctly positioned against the headboard.

If problems persist, please contact customer support for further assistance.
