3. CAMERA OVERVIEW

Familiarize yourself with the main components of your camera.

Image: Front view of the SENECESLI Digital Camera in gold, highlighting the digital lens, built-in flash, and the '58.0 MEGA PIXELS' branding.

Image: Rear view of the SENECESLI Digital Camera, displaying its 2.88-inch TFT screen and the array of control buttons on the right side, including zoom and navigation controls.

4. SETUP

4.1. Battery Installation and Charging

The camera is powered by an 800mAh lithium battery. Ensure the battery is fully charged before first use.

1. Open the battery compartment cover, typically located on the bottom or side of the camera.
2. Insert the included lithium battery, ensuring the correct orientation as indicated by the markings inside the compartment.
3. Close the battery compartment cover securely.
4. To charge, connect the camera to a power source using the provided USB cable. The charging indicator light will illuminate.

Multi Function

Timed photography, beauty mode, smiling face recognition, facial recognition and more functions

Thin face   **Beauty**   **Whitening**

Image: A graphic representation of an 800mAh high-capacity battery, emphasizing its long-lasting power for continuous shooting.

4.2. Memory Card Installation

A small memory card (up to 128GB) is required for storing photos and videos (not included).

1. Locate the memory card slot, usually next to the battery compartment.
2. Insert the memory card with the metal contacts facing the correct direction until it clicks into place.
3. To remove, gently press the card until it springs out.

5. OPERATING INSTRUCTIONS

5.1. Powering On/Off

Press and hold the power button (usually located on the top or side) to turn the camera on or off.

5.2. Taking Still Pictures

1. Hold the camera firmly and frame your subject on the 2.88-inch TFT screen.
2. Adjust settings such as flash or scene mode using the dedicated buttons or through the menu.
3. Use the zoom controls (T for telephoto, W for wide-angle) to adjust your shot.

4. Press the shutter button halfway to focus, then fully press to capture the photo.

Widely Applicable Scenarios
Night portrait, night scenery, portrait, scenery, sports, gatherings, beaches

Image: A person standing on a mountain ridge, using the SENECESLI camera to capture the expansive landscape, demonstrating outdoor usage.

5.3. Recording Videos

The camera supports 4K video recording at 30fps.

1. Switch the camera to video recording mode (refer to on-screen icons or menu).
2. Press the record button to start recording. Press again to stop.

5.4. Zoom Function

The camera features 16X digital zoom.

- Press the 'T' button to zoom in (telephoto).
- Press the 'W' button to zoom out (wide-angle).

Image: A hand holding the SENECESLI camera, with its screen showing a zoomed-in view of an airplane. Another airplane is visible in the distant sky, illustrating the 16X digital zoom capability.

5.5. Menu Navigation and Settings

Access the camera's menu to adjust various settings.

- Press the 'Menu' button to enter the menu system.
- Use the directional buttons (up, down, left, right) to navigate through options.
- Press the 'OK' or 'Set' button to confirm selections.
- Press the 'Menu' button again to exit.

5.6. Special Features

The camera includes several advanced functions:

- **Timer Shooting:** Set a delay (2s, 5s, 10s) before a photo is taken.
- **Beauty Mode:** Enhances facial features in portraits.
- **Smile Recognition:** Automatically captures a photo when a smile is detected.

- **Face Recognition:** Optimizes focus and exposure for detected faces.
- **Anti-Shaking:** Digital image stabilization helps reduce blur from camera movement.
- **Flash Settings:** Options include Automatic, Forced Flash, and Flash Off.

2.88 Inch TFT Screen

Playback of photos and videos is clear at a glance,Supports 58MP images and 4K video recording, Can automatically catch the shooting object

Image: The SENECESLI camera displayed alongside icons representing its multi-function capabilities, including 'Thin face', 'Beauty', and 'Whitening' modes, with example photos of smiling individuals.

5.7. Applicable Scenarios

The camera is suitable for various environments and conditions, including:

- Night time photography
- Sports events
- Social gatherings
- Beach scenes

800mAh High Capacity Battery

Supports continuous shooting while being charged, with long lasting battery life

Image: The SENECESLI camera showing a vibrant night scene on its screen, featuring people and a Ferris wheel, demonstrating its suitability for various scenarios like night portraits and gatherings.

6. MAINTENANCE

6.1. Cleaning the Camera

- Use a soft, lint-free cloth to clean the camera body.
- For the lens and screen, use a specialized lens cleaning cloth and solution. Avoid harsh chemicals.
- Ensure the camera is powered off before cleaning.

6.2. Battery Care

- Avoid exposing the battery to extreme temperatures.
- Charge the battery regularly, even if not in use, to maintain its lifespan.
- If storing the camera for an extended period, remove the battery.

6.3. Storage

- Store the camera in a cool, dry place, away from direct sunlight and moisture.
- Use the provided storage bag to protect the camera from dust and scratches.

7. TROUBLESHOOTING

If you encounter issues with your camera, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Camera does not power on	Low or depleted battery; improperly inserted battery	Charge the battery; ensure battery is correctly inserted.
Cannot take photos/record videos	Memory card full or not inserted; incorrect mode selected	Insert/replace memory card; ensure sufficient space; switch to photo/video mode.
Images are blurry	Camera shake; out of focus; dirty lens	Hold camera steady or use a tripod; ensure proper focus; clean the lens.
Flash not working	Flash setting is off; battery low	Check flash settings in the menu; charge the battery.

If the problem persists, please contact customer support.
