ADVWIN B0DK8T8VFY

Advwin Self-Cleaning Cat Litter Box User Manual

Model: B0DK8T8VFY

Product Overview

The Advwin Smart Automatic Self-Cleaning Cat Litter Box is designed to provide a convenient and hygienic solution for cat owners. This advanced litter box features automatic cleaning, app control for remote management and health monitoring, and multiple safety mechanisms to ensure your cat's well-being. Its large capacity and effective odor management system contribute to a cleaner home environment.

Setup and Initial Use

Follow these steps to set up your Advwin Self-Cleaning Cat Litter Box and connect it to the mobile application.

1. **Unpack and Place:** Carefully remove all components from the packaging. Place the litter box on a firm, level surface. Ensure there is adequate space around the unit for proper operation and ventilation.
2. **Add Cat Litter:** Open the litter compartment and fill it with suitable cat litter. The device supports various litter types, including Tofu Litter, Bentonite Litter, and Tofu/Bentonite Mixed Litter. **Note: Crystal Litter is not supported.**
3. **Power On:** Connect the power adapter to the litter box and plug it into a wall outlet. The device will power on automatically.
4. **App Download and Connection:**
   - Download the "Tuya" app from your smartphone's app store.
   - Register and log in to your account.
   - Plug in the litter box and long press the "WiFi" button until the WiFi symbol starts flashing.

- On your phone, ensure WiFi, Bluetooth, and location functions are enabled.
- In the app, click "Add Device" and follow the on-screen prompts to connect to your 2.4GHz Wi-Fi network.
- Wait for the connection to be successful. Once connected, you can operate the litter box via the app.

Operating Instructions

App Control and Health Monitoring

The Advwin litter box can be fully managed and monitored remotely via its dedicated mobile application (2.4GHz Wi-Fi required). The app provides real-time information on your cat's toilet visits, including frequency, timing, and weight changes, allowing you to track their health and behavior.

Cleaning Modes

The litter box offers three selectable cleaning modes:

- **Manual Cleaning Mode:** Initiate a cleaning cycle directly from the control panel on the device or through the app.
- **Scheduled Cleaning Mode:** Set specific times for the litter box to automatically clean itself, ensuring a fresh environment at regular intervals.
- **Auto Cleaning Mode:** The system automatically detects when your cat exits the litter box and initiates a cleaning cycle after a set delay.

Safety Features

The Advwin litter box prioritizes your cat's safety with multiple integrated protection mechanisms:

- **Gravity Sensors (4x):** Located at the base, these sensors detect your cat's presence and weight. The rotation will immediately stop if a cat enters or is detected inside the box during a cleaning cycle.
- **Infrared Sensor (1x):** An infrared sensor provides additional protection by detecting your cat's approach. The unit will halt operation if a cat is detected nearby.
- **Anti-Pinch Design:** The patented design of the litter box and waste bin structure minimizes any risk of your cat getting trapped.
- **Kids Lock:** An optional "Kids Lock" feature can be enabled via the app to prevent accidental operation by children.

Odor Management

The litter box employs a unique door flap mechanism that automatically opens and closes to contain odors. Additionally, cutting-edge ion deodorization technology, free from harmful chemicals, helps maintain a fresh environment. The ultra-quiet motor operates at less than 40dB, ensuring minimal disruption.

Maintenance and Cleaning

Regular maintenance ensures the longevity and optimal performance of your Advwin Self-Cleaning Cat Litter Box.

- **Waste Bin Emptying:** The 9L extra-large waste bin can hold waste for up to 15 days for one cat or 5 days for three cats. The app will notify you when the bin is full. To empty, simply remove the waste bag from the top waste area.
- **Litter Replacement:** Use the one-click empty function via the app or control panel to simplify litter replacement. This will rotate the drum to dispose of all existing litter into the waste bin.
- **Drum Cleaning:** The main body (excluding the base) is washable. It is recommended to clean the interior every one to three months to prevent bacteria buildup. The drum is detachable for thorough cleaning.
- **Exterior Cleaning:** Wipe the exterior of the unit with a damp cloth as needed. Avoid using abrasive cleaners.

Troubleshooting

If you encounter any issues with your Advwin Self-Cleaning Cat Litter Box, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Device not powering on.	Power cable not connected properly; power outlet issue.	Ensure the power cable is securely plugged into both the device and a working wall outlet. Test the outlet with another appliance.
App connection failed.	Incorrect Wi-Fi password; not on 2.4GHz network; phone settings (Bluetooth/location) disabled.	Verify Wi-Fi password. Ensure your router is broadcasting a 2.4GHz network and your phone is connected to it during setup. Enable Bluetooth and location services on your phone. Restart the app and the litter box.

Problem	Possible Cause	Solution
Litter box not cleaning automatically.	Sensors obstructed; cat still inside; auto-clean setting disabled.	Check for any obstructions around the sensors. Ensure your cat has completely exited the box. Verify that auto-clean is enabled in the app and the delay time is set appropriately.
Odor persists.	Waste bin full; improper litter type; insufficient cleaning.	Empty the waste bin regularly. Ensure you are using a compatible and effective cat litter. Perform a thorough cleaning of the drum and interior.
Abnormal noise during operation.	Foreign object inside; unit not on a level surface; mechanical issue.	Check for any foreign objects inside the drum. Ensure the unit is placed on a completely flat and stable surface. If the issue persists, contact customer support.

Specifications

Feature	Detail
Product Dimensions	52.5L x 47.5W x 51H centimetres
Item Weight	10 Kilograms
Material	Acrylonitrile Butadiene Styrene (ABS)
Color	White
Litter Capacity	65 Liters (toilet area)
Waste Bin Capacity	9 Liters
Suitable Cat Weight	1kg to 10kg
Connectivity	2.4GHz Wi-Fi
Noise Level	Below 40dB
Safety Sensors	4x Gravity Sensors, 1x Infrared Sensor
