

Tulbeys GS06

User Manual for Tulbeys GS06 Smart Audio Glasses

Model: GS06

1. INTRODUCTION

Welcome to the user manual for your new Tulbeys GS06 Smart Audio Glasses. These innovative glasses combine stylish eyewear with advanced audio technology, offering a hands-free listening experience and voice assistant capabilities. Designed for comfort and versatility, they are ideal for various outdoor activities while providing UV protection and clear sound.

2. PRODUCT OVERVIEW

The Tulbeys GS06 Smart Audio Glasses feature an open-ear sound design, allowing you to enjoy audio while remaining aware of your surroundings. They are equipped with Bluetooth 5.3 for seamless connectivity, dual speakers for clear audio, and a built-in microphone for calls and voice assistant interaction.

Key Features:

- **Open-Ear Audio:** Enjoy sound without blocking your ears, maintaining situational awareness.
- **Bluetooth 5.3 Connectivity:** Stable and efficient wireless connection to your devices.
- **Dual Speakers & Microphone:** For crisp audio playback and clear voice calls.
- **Voice Assistant Integration:** Hands-free control and access to your device's voice assistant.
- **Polarized & Color-Changing Lenses:** Provide UV protection, anti-blue light features, and adapt to light conditions in approximately 3 seconds.
- **IPX5 Water Resistance:** Designed to withstand splashes and light rain.
- **Touch Control:** Intuitive controls for managing audio and calls.
- **Magnetic Charging:** Convenient and secure charging.
- **Remote Camera Function:** Take photos from a distance using the glasses.

3. SETUP

3.1 Charging the Glasses

Before first use, fully charge your GS06 Smart Audio Glasses. Use the provided magnetic charging cable. Connect the magnetic end to the charging port on the glasses' temple and the USB end to a compatible USB power source (e.g., computer USB port, wall adapter).

- A full charge provides approximately 5 hours of talk time.
- The charging indicator light will show charging status (refer to LED indicator section for details).

3.2 Powering On/Off

- **Power On:** Press and hold the power button (location specified in product diagram, usually on the temple) for approximately 3 seconds until you hear a power-on prompt or see the LED indicator light up.
- **Power Off:** Press and hold the power button for approximately 5 seconds until you hear a power-off prompt or the LED indicator turns off.

3.3 Bluetooth Pairing

To connect your GS06 Smart Audio Glasses to your smartphone or other Bluetooth-enabled device:

1. Ensure the glasses are powered off.
2. Press and hold the power button for approximately 5-7 seconds until the LED indicator flashes rapidly (usually blue and red), indicating pairing mode.
3. On your device, go to Bluetooth settings and enable Bluetooth.
4. Search for available devices. Select "Tulbeys GS06" (or similar name) from the list.
5. Once paired, the LED indicator on the glasses will typically flash slowly or turn solid blue, and you will hear a connection confirmation sound.

The glasses will automatically attempt to reconnect to the last paired device when powered on.

4. OPERATING INSTRUCTIONS

4.1 Basic Controls (Touch/Button)

The GS06 Smart Audio Glasses feature intuitive touch controls on the temples. Specific functions may vary slightly, but common controls include:

- **Play/Pause:** Single tap on either temple.
- **Next Track:** Double tap on the right temple.
- **Previous Track:** Double tap on the left temple.
- **Volume Up:** Swipe forward on the right temple (or specific touch gesture).
- **Volume Down:** Swipe backward on the right temple (or specific touch gesture).
- **Answer/End Call:** Single tap on either temple during an incoming call.
- **Reject Call:** Press and hold on either temple during an incoming call.
- **Activate Voice Assistant:** Triple tap on either temple (e.g., Siri, Google Assistant).

4.2 Lens Functionality

The lenses are designed to provide UV protection and anti-blue light features. The color-changing lenses automatically adjust their tint based on UV light exposure, typically within 3 seconds, offering optimal vision in varying light conditions.

4.3 Remote Camera Function

To use the remote camera feature, ensure your glasses are paired with your smartphone. Open your phone's camera application. A specific gesture or button press on the glasses (refer to product-specific instructions if available, often a long press or specific tap combination) will trigger the phone's camera shutter, allowing you to take photos remotely.

5. MAINTENANCE

5.1 Cleaning

- **Lenses:** Use a microfiber cleaning cloth specifically designed for eyewear. For stubborn smudges, use a small amount of lens cleaning spray or lukewarm water. Avoid harsh chemicals, paper towels, or abrasive materials.
- **Frame:** Wipe the frame with a soft, damp cloth. Do not submerge the glasses in water, despite their IPX5 rating, to prevent damage to electronic components.

5.2 Storage

When not in use, store your GS06 Smart Audio Glasses in the provided protective case to prevent scratches and damage. Avoid exposing them to extreme temperatures (hot or cold) or direct sunlight for prolonged periods.

5.3 Battery Care

- Charge the glasses regularly, even if not used frequently, to maintain battery health.
- Avoid completely draining the battery before recharging.
- Use only the original charging cable provided with the product.

6. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|----------------------------|---|--|
| Glasses do not power on. | Low battery. | Charge the glasses fully. |
| Cannot pair with device. | Glasses not in pairing mode; Bluetooth off on device; device too far. | Ensure glasses are in pairing mode (flashing LED). Turn on Bluetooth on your device. Move device closer to glasses (within 10 meters). |
| No sound or low volume. | Volume too low on glasses or device; glasses not connected. | Increase volume on both glasses and connected device. Re-pair the glasses if disconnected. |
| Intermittent connection. | Interference; device too far; low battery. | Move away from sources of interference (e.g., Wi-Fi routers). Keep device within range. Charge glasses. |
| Lenses not changing color. | Insufficient UV light exposure. | Ensure glasses are exposed to direct sunlight or strong UV light. |

If you encounter issues not listed here, please refer to the support section or contact customer service.
