Tulbeys GS06

Tulbeys GS06 Smart Glasses User Manual

Model: GS06

INTRODUCTION

The Tulbeys GS06 Smart Glasses combine advanced technology with stylish design, offering an open-ear audio experience, voice assistant integration, and eye protection features. These Bluetooth-enabled glasses are designed for hands-free communication and entertainment, seamlessly integrating into your daily routine.

Key features include dual-speaker system, automatic noise reduction, touch controls, Bluetooth 5.3 connectivity, photochromic lenses, UV400 protection, anti-blue light technology, and IPX5 water resistance.

WHAT'S IN THE BOX

- GS06 Smart Glasses
- Charging Cable (Magnetic)
- User Manual (This document)

PRODUCT OVERVIEW

Figure 1: Front view of the Tulbeys GS06 Smart Glasses. The image shows the black frame with clear photochromic lenses and the integrated speaker components on the temples.

The GS06 Smart Glasses feature a sleek design with integrated audio components. The temples house the speakers and touch control areas, while the lenses provide eye protection and adapt to light conditions.

SETUP

1. Charging the Glasses

Before first use, fully charge your GS06 Smart Glasses. The glasses feature a magnetic charging port for convenience.

1. Connect the magnetic charging cable to the charging port on the glasses (typically located on the inside of one of the temples).
2. Connect the other end of the charging cable to a USB power adapter (not included) or a computer's USB port.
3. The indicator light on the glasses will show the charging status (e.g., red for charging, blue/green for fully charged).
4. A full charge provides approximately 5 hours of talk time.

2. Powering On/Off

The GS06 Smart Glasses are designed for intuitive control via their touch-sensitive areas.

1. **To Power On:** Press and hold the touch area on both temples simultaneously for a few seconds until you hear a power-on prompt or see an indicator light.
2. **To Power Off:** Press and hold the touch area on both temples simultaneously for a few seconds until you hear a power-off prompt or the indicator light turns off.

3. Bluetooth Pairing

Pair your GS06 Smart Glasses with your smartphone or other Bluetooth-enabled device to enjoy audio and voice assistant features.

1. Ensure the glasses are powered on and in pairing mode (often indicated by a flashing light or voice prompt upon first power-on).
2. On your device, go to Bluetooth settings and enable Bluetooth.
3. Search for available devices. The glasses should appear as "GS06" or similar.
4. Select "GS06" to connect. Once paired, you will hear a confirmation sound or voice prompt.
5. The glasses will automatically attempt to reconnect to the last paired device when powered on.

OPERATING INSTRUCTIONS

Audio Playback and Call Control

The touch-sensitive areas on the temples allow for easy control of audio and calls.

- **Play/Pause:** Single tap on either touch area.
- **Next Song:** Double tap on the right touch area.
- **Previous Song:** Double tap on the left touch area.
- **Answer/End Call:** Single tap on either touch area during an incoming call.
- **Reject Call:** Press and hold either touch area for 2 seconds during an incoming call.
- **Volume Control:** (If supported by model) Swipe forward/backward on the touch area or use your connected device.

Voice Assistant

Activate your device's voice assistant (e.g., Siri, Google Assistant) directly from your glasses.

- **Activate Voice Assistant:** Triple tap on either touch area.
- Once activated, you can issue commands through the integrated microphone.

Photochromic Lenses

The GS06 Smart Glasses are equipped with photochromic lenses that adapt to light conditions.

- The lenses will automatically darken when exposed to UV light (e.g., outdoors in sunlight).
- They will return to a clear state indoors or in low light conditions. This transition takes approximately 3 seconds.

Eye Protection Features

The lenses provide comprehensive eye protection:

- **UV400 Protection:** Blocks 100% of harmful UVA and UVB rays.
- **Anti-Blue Light:** Filters out harmful blue light emitted from digital screens.
- **Polarized:** Reduces glare from reflective surfaces, enhancing visual clarity.

Water Resistance (IPX5)

The GS06 Smart Glasses are rated IPX5, meaning they are resistant to a sustained, low-pressure water jet spray. This makes them suitable for light rain or splashes, but they should not be submerged in water.

MAINTENANCE

Cleaning

- Use a soft, lint-free cloth (preferably microfiber) to clean the lenses and frame.
- For stubborn smudges, use a lens cleaning spray specifically designed for eyewear. Avoid harsh chemicals or abrasive materials.
- Do not rinse the glasses directly under running water, despite their water resistance, to protect internal components.

Storage

- Store the glasses in their protective case when not in use to prevent scratches and damage.
- Avoid exposing the glasses to extreme temperatures (hot or cold) or direct sunlight for prolonged periods, as this can affect battery life and lens performance.

Battery Care

- To prolong battery life, avoid fully discharging the battery frequently.
- Charge the glasses regularly, even if not used for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Glasses do not power on.	Low battery; incorrect power-on procedure.	Charge the glasses fully. Ensure you are pressing both touch areas simultaneously to power on.
Cannot pair with device.	Bluetooth off on device; glasses not in pairing mode; too far from device.	Ensure Bluetooth is enabled on your device. Power off and on the glasses to re-enter pairing mode. Keep glasses within 10 meters of your device.

Problem	Possible Cause	Solution
No sound or poor sound quality.	Volume too low; glasses not connected; interference.	Increase volume on glasses and connected device. Reconnect Bluetooth. Move away from other electronic devices.
Lenses not changing color.	Insufficient UV exposure; very cold temperatures.	Ensure glasses are exposed to direct sunlight. Photochromic lenses may react slower in very cold conditions.

SPECIFICATIONS

Model Name	GS06-4-DL (GS06)
Brand	Tulbeys
Connectivity Technology	Bluetooth 5.3
Special Feature	Voice Control, Open Ear Audio, Photochromic Lenses, UV400 Protection, Anti-Blue Light, Polarized
Water Resistance	IPX5
Battery Type	Lithium Polymer (2 included)
Talk Time	Up to 5 hours
Item Weight	5.3 ounces
Color	Black
Country of Origin	China
