

Generic M12/black/Standard/32G memory card

Home Smart Visual Cat Eye Camera Electronic Cateye Door Mirror with Screen Surveillance Video Doorbell

Model: M12/black/Standard/32G memory card

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Home Smart Visual Cat Eye Camera Electronic Cateye Door Mirror with Screen Surveillance Video Doorbell. This wireless doorbell system offers enhanced home security and communication, featuring a visual display, two-way intercom, and infrared night vision capabilities. Please read this manual thoroughly before using the product to ensure proper functionality and safety.

SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following precautions:

- Do not expose the device to extreme temperatures, humidity, or direct sunlight.
- Avoid dropping or subjecting the device to strong impacts.
- Do not attempt to disassemble or repair the device yourself. Refer all servicing to qualified personnel.
- Keep the device away from water and other liquids.
- Use only the specified power adapter and accessories.
- Ensure proper ventilation around the indoor monitor.

PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Outdoor Doorbell Unit
- 1 x Indoor Monitor with Screen
- 1 x Battery Pack
- 1 x Memory Card (32GB)
- 1 x USB Charging Cable
- 1 x Mounting Bracket and Screws
- 1 x User Manual (this document)

PRODUCT OVERVIEW

Familiarize yourself with the components of your visual doorbell system:

Figure 1: The Home Smart Visual Doorbell system, showing the outdoor doorbell unit on the left and the indoor monitor with screen on the right.

Outdoor Doorbell Unit:

- **Camera Lens:** Captures video feed.
- **Infrared Sensors:** Enables night vision.
- **Call Button:** Activates the doorbell and initiates communication.
- **Microphone:** For two-way audio.
- **Speaker:** For two-way audio.

Indoor Monitor:

- **Display Screen:** Shows live video feed from the outdoor unit.
- **Control Buttons:** For navigation, volume, and menu access.
- **Microphone:** For two-way audio.
- **Speaker:** For two-way audio.
- **Memory Card Slot:** For the included 32GB memory card.
- **Charging Port:** For power supply.

SETUP AND INSTALLATION

The system is designed for wireless installation and one-touch pairing.

1. Charging the Devices:

1. Before first use, fully charge both the outdoor doorbell unit and the indoor monitor using the provided USB charging cable.
2. The indoor monitor can be kept plugged in for long-term online use.

Figure 2: The indoor monitor connected to a power outlet for continuous operation.

2. Inserting the Memory Card:

1. Locate the memory card slot on the side of the indoor monitor.
2. Gently insert the provided 32GB memory card until it clicks into place. This card is essential for recording video and images.

3. Mounting the Outdoor Doorbell Unit:

1. Choose a suitable location on your door frame or wall, typically at eye level, ensuring a clear view of visitors.
2. Use the provided mounting bracket and screws to securely attach the outdoor unit.
3. Ensure the unit is protected from direct rain and extreme weather conditions if possible.

4. Pairing the Devices (One-Touch Pairing):

1. Power on both the outdoor doorbell unit and the indoor monitor.
2. The devices are designed for automatic, one-touch pairing. They should connect wirelessly without complex networking setup.
3. If pairing does not occur automatically, refer to the troubleshooting section.

OPERATING INSTRUCTIONS

Receiving a Call:

1. When a visitor presses the call button on the outdoor unit, the indoor monitor will ring and display the live video feed.
2. Press the answer button on the indoor monitor to initiate two-way communication.
3. To end the call, press the hang-up button.

**Power failure
cut off the internet
can be used as usual**

Figure 3: The indoor monitor displaying a visitor at the door, demonstrating the system's functionality even without internet connection.

Two-Way Intercom:

The system supports clear two-way audio communication between the outdoor unit and the indoor monitor, allowing for easy and fast communication with visitors.

Infrared Night Vision:

The outdoor unit is equipped with infrared sensors, providing clear visibility and recording capabilities even in low-light conditions or complete darkness.

Recording and Playback:

- The system automatically records video and captures images when the doorbell is pressed or motion is detected (if motion detection is enabled).
- Access recorded footage and images via the menu on the indoor monitor. Navigate using the control buttons.

Offline Operation:

This doorbell system operates on a 2.4 GHz frequency and does not require internet networking. It functions normally even during power outages or if your home internet is down.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of both units. Do not use abrasive cleaners or solvents.
- **Battery Life:** Monitor the battery indicator on the indoor monitor. Recharge the outdoor unit as needed. The indoor unit can remain plugged in.
- **Memory Card:** Periodically review and delete old recordings from the memory card to ensure sufficient

storage space. Format the card if necessary (refer to the indoor monitor's menu for this option).

TROUBLESHOOTING

Problem	Possible Cause	Solution
Indoor monitor not displaying video.	Outdoor unit is off or out of range. Battery low on either unit.	Ensure both units are powered on and charged. Move units closer to each other.
No two-way audio.	Microphone or speaker muted. Volume too low.	Check volume settings on the indoor monitor. Ensure microphones/speakers are not obstructed.
Poor video quality at night.	Infrared sensors obstructed or dirty.	Clean the camera lens and infrared sensors on the outdoor unit.
Memory card error.	Card not inserted correctly or corrupted.	Reinsert the memory card. If the issue persists, try formatting the card via the monitor's menu (this will erase all data).

SPECIFICATIONS

Model Name	M12/black/Standard/32G memory card (11308 doorbell)
Brand	Generic
Color	Black
Product Dimensions (L x W x H)	6 x 2 x 5 inches
