SETUP

1. Initial Charging

Before first use, fully charge your K52 Smart Watch. The watch is equipped with a 400mAh battery and uses magnetic charging.

- Connect the magnetic charging cable to the charging points on the back of the watch.
- Plug the USB end of the cable into a standard USB power adapter (not included) or a computer USB port.
- A full charge typically takes approximately 2 hours. The watch can provide about 30 days of standby time and 5-10 days of normal use on a single charge.

400mAh big battery with super long standby

With the super long standby battery, use about one week for once charge, no need to worry about battery capacity for outside, discover more wonderful things

Watch can play music when you are doing sports

2. App Installation and Pairing

To unlock the full features of your K52 Smart Watch, you need to install the companion application on your smartphone.

- Scan the QR code provided in the watch's packaging or search for the official app in your phone's app store (compatible with Android 4.4 and higher versions, and iOS 8.0 or higher).
- Install the application and open it.
- Ensure Bluetooth is enabled on your smartphone.
- In the app, follow the on-screen instructions to search for and pair with your K52 Smart Watch. The watch uses a BT5.0 chip for stable connection.
- Once paired, the watch will synchronize time and data with your phone.

OPERATING INSTRUCTIONS

1. Display and Navigation

The K52 Smart Watch features a 1.39-inch IPS display with a high resolution of 360x360 pixels, offering clear and bright visuals. It provides 4 different menu options for navigation.

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and functions.
- **Side Buttons:** Use the physical buttons on the side for quick access to specific functions or to return to the home screen.

2. Cleaning and Care

- Regularly clean the watch screen and body with a soft, dry, lint-free cloth.
- If necessary, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive cleaners.
- Keep the charging contacts on the back of the watch clean and dry to ensure efficient charging.

3. Battery Care

- Avoid completely draining the battery frequently.
- Store the watch in a cool, dry place when not in use for extended periods.
- Use only the provided magnetic charging cable.

TROUBLESHOOTING

If you encounter issues with your K52 Smart Watch, please refer to the following common solutions:

| Problem | Possible Cause / Solution |
|----------------------------|---|
| Watch does not turn on | Battery might be depleted. Charge the watch for at least 30 minutes. |
| Cannot pair with phone | Ensure Bluetooth is enabled on both devices. Make sure the watch is within range. Restart both the watch and phone. Check the app for pairing instructions. |
| Inaccurate health data | Ensure the watch is worn snugly on your wrist. Clean the sensor on the back of the watch. |
| Notifications not received | Check app permissions on your phone to ensure notifications are enabled for the watch app. Ensure the watch is connected via Bluetooth. |
| Short battery life | Reduce screen brightness, disable unnecessary features, or limit frequent heart rate monitoring. Ensure the watch is fully charged. |

If the problem persists, please contact Karlak customer support.
