PRODUCT OVERVIEW

The Papablic Pro Portable Bottle Warmer is designed for fast and convenient warming of breastmilk and formula, featuring a built-in sterilizer for enhanced hygiene. It offers 5 temperature control settings and a 30W fast charging capability, ensuring milk is ready quickly for on-the-go use. Its wide mouth design allows for easy cleaning, and the slim body is highly portable, fitting comfortably in hand, car cup holders, and diaper bags. The smart warm-keeping function maintains the ideal temperature for up to 4 hours.

Key Features

- **50% Faster Warming:** Warms 4oz refrigerated milk to 98°F in 3min 50s and 4oz room-temp water to 104°F in 2min 10s. Ideal for travel, on the go or late nights.
- **Built-in Sterilizer & Safe Materials:** The world's FIRST portable milk warmer with built-in sterilizer, helps maintain hygiene without extra tools. Warming chamber made of FDA-compliant food-grade stainless steel.
- **Easy to Clean & Easy to Carry:** 3-inch wide mouth enables easy cleaning access and big volume. Slim body design fits comfortably in your hand, car cup holders and diaper bags.
- **30%+ Longer-Lasting Power & 30W Fast Charging:** One full charge heats 6-8 (4-oz) portions of refrigerated breast milk. Fully recharges in under 2 hours.
- **5 Temps & Smart Keep-Warm:** Choose 5 settings. Smart Warm-Keeping maintains ideal temperature for 4 hours.

SETUP

1. **Unpack and Inspect:** Carefully remove all components from the packaging. Ensure all parts are present and undamaged.
2. **Initial Cleaning:** Before first use, clean the warming chamber and all removable parts according to the 'Maintenance' section.
3. **Charge the Device:** Connect the included Type-C charging cable to the warmer and a compatible 30W fast charging adapter (not included). A full charge typically takes under 2 hours. The battery indicator on the display will show charging progress.
4. **Familiarize with Controls:** The device features a digital display, a 'KEEP' button for temperature hold, and a 'TEMP' button for temperature selection and power.

OPERATING INSTRUCTIONS

Warming Milk/Formula

1. **Fill the Warmer:** Pour breastmilk or formula directly into the stainless steel warming chamber. The chamber has 1-10oz volume markings for accurate preparation.
2. **Select Temperature:** Press the 'TEMP' button to cycle through the 5 available temperature settings (e.g., 90°F, 98°F, 104°F, 113°F, 122°F). The selected temperature will be displayed.
3. **Start Warming:** Once the desired temperature is selected, the warmer will automatically begin heating. The display will show the current temperature as it rises.
4. **Fast Warming:** For example, 4oz of refrigerated milk can reach 98°F in approximately 3 minutes and 50 seconds.

Ultra fast

Advanced technology heats 2oz of refrigerated milk in under 2 minutes 30 seconds – **30% faster than regular warmers**

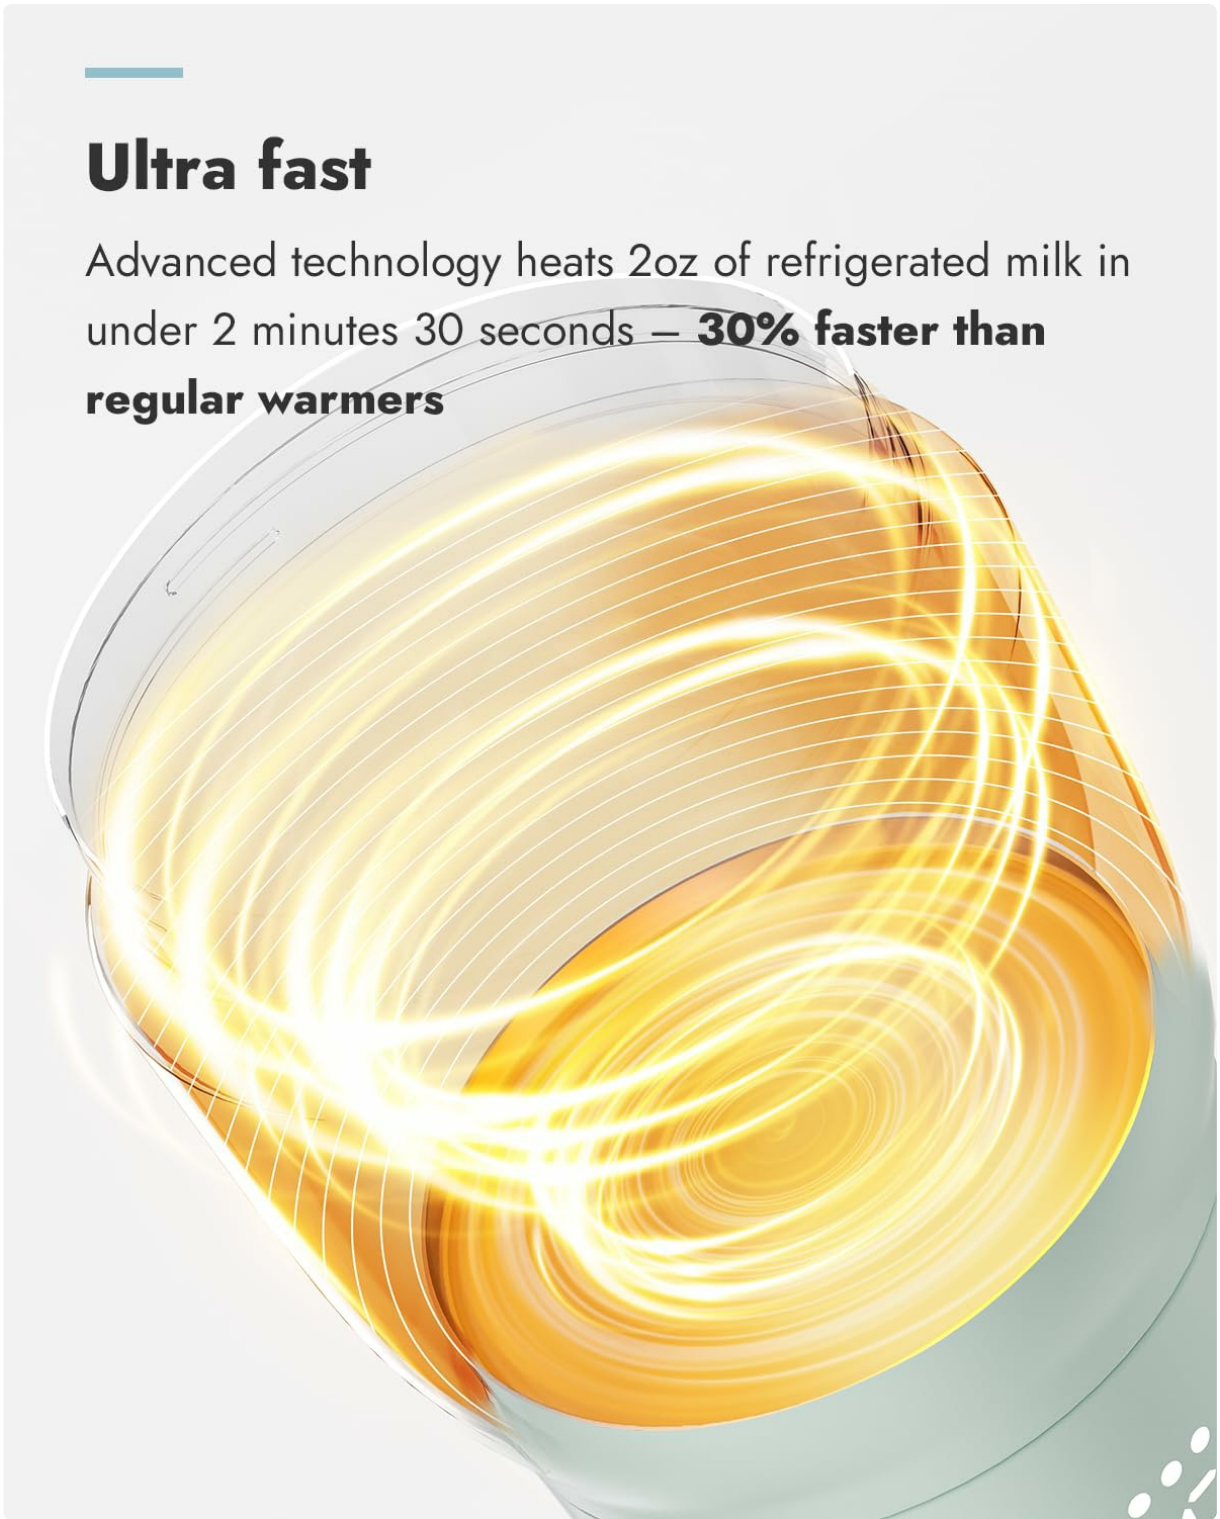

Image: An illustration of the Papablic Pro's internal heating element, emphasizing its ultra-fast warming capability.

Using the Built-in Sterilizer

1. **Add Water:** Pour a small amount of clean water into the warming chamber.
2. **Place Item:** Place the pacifier or small bottle part to be sterilized into the chamber.
3. **Activate Sterilization:** Refer to the specific instructions in your full user manual for activating the sterilization cycle. This function typically uses steam to eliminate 99.99% of germs in approximately 6 minutes.

Industry-first sterilization

The **world's FIRST** portable milk warmer with built-in sterilization, eliminates **99.99% germs*** in 6 min.

Image: A cutaway view of the Papapublic Pro, illustrating the steam sterilization process within the warming chamber.

Smart Keep-Warm Function

- After reaching the target temperature, the warmer will automatically switch to the Smart Keep-Warm mode, maintaining the temperature for up to 4 hours.
- Press the 'KEEP' button to activate or deactivate this function.

Smart Warm Keeping

Maintains ideal temperature up to **4 hours**, perfect for stress-free night feedings

Pouring and Portability

- The warmer features a controlled flow spout to prevent spills when pouring warmed liquid into a bottle.
- Its slim body design ensures it fits comfortably in your hand, car cup holders, and diaper bags, making it ideal for travel and on-the-go use.

Ultra Portable Design

Slim body design fits comfortably in your hand, car, bags and anywhere you go

MAINTENANCE

Cleaning Instructions

The Papablic Pro is designed with a 3-inch wide mouth for easy cleaning access.

1. **Disassemble:** Open the cover and remove the silicone ring.
2. **Clean Warming Chamber:** Add water and a mild detergent to the stainless steel warming chamber. Use a soft brush or cloth to clean thoroughly.
3. **Clean Silicone Parts:** Clean the silicone ring and other removable silicone parts with water and mild detergent.
4. **Rinse and Dry:** Rinse all parts thoroughly with clean water and allow them to air dry completely before reassembling or storing.

Easier to Clean

3-inch wide-mouth design allows easy hand access for wiping and cleaning

TROUBLESHOOTING

If you encounter issues with your Papablic Pro Portable Bottle Warmer, please refer to the following common solutions:

- **Device Not Turning On:** Ensure the device is fully charged. Connect it to a power source and allow it to charge for at least 30 minutes before attempting to power on again.
- **Milk Not Warming:** Check that the warming chamber contains liquid and that the selected temperature is appropriate. Ensure the lid is securely closed.
- **Sterilizer Not Producing Steam:** Verify that a small amount of water has been added to the chamber before initiating the sterilization cycle.
- **Error Code on Display:** If an error code appears, try turning the device off and then on again. If the error persists, consult the full user manual or contact customer support.

Safety Features

The Papablic Pro is equipped with multiple safety mechanisms to ensure reliable operation:

- Protection against over-current.
- Protection against overheating.
- Protection against over-charging.
- Protection against short circuits.

Ensure the safety

With Papablic, you can focus on the joy of parenting, **not worries about safety.**
